# The Origin of the Light

This is the message we have heard from Him  
and announce to you, that God is Light, and  
in Him there is no darkness at all.

1 John 1:5

There are two kinds of people.  
One pursues the light like plants which grow toward light and  
the other pursues darkness.  
The attributes of the light are goodness, love, and truth.  
The attributes of the darkness are sin, unrighteousness, and untruth.

No matter how dark it may be,  
the darkness can only vanish where the light shines and  
where light shines truth is naturally revealed.  
It is much the same for evil men who seem to prosper for the  
moment.  
In the end truth will be revealed and  
goodness will achieve the final victory.  
That is because God the Creator, the Origin of the Light,  
controls the realm of the light.

## COVER STORY

### St. Alexander Nevsky Cathedral

Saint Alexander Nevsky was a Russian prince. The cathedral was created in honour to the Russian soldiers who died during the Russo-Turkish War of 1877-1878, as a result of which Bulgaria was liberated from Ottoman rule.

# Blessings When Walking in the Light

But if we walk in the Light as He Himself is in the Light, we have fellowship with one another, and the blood of Jesus His Son cleanses us from all sin  
1 John 1:7

God is almighty. He is the Creator who created the universe and all things, and He governs over the life, death, fortune, and misfortunes of mankind. He can solve any problem that you might have, and He has the power to answer any prayer you offer up. He can heal incurable diseases, and He can solve any kind of problems.

But to experience such power of God, you first have to meet God. Not just receiving blessings or solutions to problems of this earth, but receiving salvation and gaining eternal life is possible only by meeting God.

So, what do we have to do in order to meet God and experience His power?

## **1** To meet God who is Light

1 John 1:5 says that God is Light. He is perfect light that has no darkness at all. Because God is Light and dwells in Light, for us to meet and experience God, we have to come into the Light. If we walk in the darkness, we cannot

## Rev. Dr. Jaerock Lee

Senior Pastor, Manmin Central Church

Chairman,  
The United Holiness Church of Jesus Christ

Founder & Board Chairman,  
WCDN(World Christian Doctors Network)

Founder & Board Chairman,  
GCN(Global Christian Network)

Founder & Board Chairman,

say, “God, I want to meet You. Please meet me here.” What does this light and darkness spiritually refer to? A person cannot say, “God I want to meet You. Please meet me here,” while walking in the darkness. What does this light and darkness spiritually refer to?

The Light is the Word of God itself in the 66 books of the Bible and ‘to walk in the Light’ is to obey the Word of God in our lives. On the other hand, darkness is all the sins, evil, unrighteousness, and lawlessness. More specifically, in the Bible there are commands that tell us to do, not do, keep, and cast away certain things. There are such commandments as ‘Do not murder’, ‘Do not commit adultery’, and ‘Do not worship idols’. God also tells us of the things that we have to cast away such as hatred, lust, envy, jealousy, pride, ill-feelings, anger, craftiness, greed, etc.

There are commands that tell us to do something, such as to love each other, pray, and have peace, and also

the things that we have to keep like, ‘Keep the Sabbath’. If we violate such words, it is to walk in the darkness, and if we obey such words, it is to walk in the Light. Therefore, if we reflect upon ourselves with the Bible, we can easily discern whether we are walking in the Light or darkness.

Now, if we harbor hard or ill feelings because of words or actions of others, and if we talk about others’ faults with others, is it Light or darkness? Suppose we tried hard but we lost enthusiasm because we are not recognized, is it Light or darkness?

Then, if we discern between the Light and darkness in terms of knowledge, is it the Light? No, it’s not. Why? It is because if we know the truth but do not practice it, it means we are still in darkness. To practice the truth and not just to know it as facts and knowledge is to ‘walk in the Light’. This is also the way we can meet and experience God.

# Blessings

## When Walking

### in the Light

#### **2 To have fellowship with God who is Light**

Those who walk in the Light belong to God, and God exercises control over their lives. On the contrary, it is the enemy devil and Satan that have the authority over darkness. Satan has control over those who walk in the darkness. Among those who go to church, many of them have not come into the Light, but they continue to walk in the darkness. Such people are still under the control of the enemy devil and Satan. With their lips they call God 'Father', but they do not actually have fellowship with God, and they cannot receive any help from Him.

1 John 1:6 also says, "If we say that we have fellowship with Him and yet walk in the darkness, we lie and do not practice the truth." The verse 7 also says, "...but if we walk in the Light as He Himself is in the Light, we have fellowship with one another" Once we come to church and accept the Lord, we must depart from sins and evil. We have fellowship with God only when we depart from darkness and come out of the darkness into the Light.

Do you have fellowship with God? You can be confident to the same extent to which you walk in the Light. There are different levels of fellowship. If just one side knows the other, this cannot be considered to be 'fellowship'. It does not mean that you have fellowship with the president just because you know who the president of your country is. It can be said you have fellowship only when both parties know each other. Also, some people are just acquaintances and some people may occasionally say hello to each other. However there is a deeper fellowship in which you can trust and share everything with each other.

The same is true for our fellowship with God. We cannot just say that we believe, God has to also recognize our faith. Only when God says, "They obey My Word, and they are My children," can we then say that we have true fellowship with God. The evidence will follow those who have true fellowship with God. Diseases, disaster, misfortune and accidents will go away, and they will be protected in everything. They can receive answers to whatever they ask of God whenever they ask with faith. Whether they need

health, social power, or wealth, it can be given to them to the extent of the fellowship.

They can experience what is recorded in 3 John 1:2, “Beloved, I pray that in all respects you may prosper and be in good health, just as your soul prospers,” and in Mark 9:23, “All things are possible to him who believes.” They also receive the blessings written in Deuteronomy 28, that they will be blessed whether they come in or go out, and they will lend but not borrow, and they will become the head and not the tail.

Of course, sometimes they might have to undergo persecutions for the Lord like the Apostles Paul and Peter. But even at those moments the signs and wonders always followed them. When they prayed for the souls in the name of Jesus Christ, the diseases left, evil spirits fled, and the darkness went away. In this way, for those who walk in the Light, the evidence that they have a fellowship with God always follows.

### **3 Blessings when walking in the Light**

If you turn the light on in a dark room, the room immediately becomes bright. Before there was light, the room was filled with darkness, but as the light came, the darkness has to go away. The same goes for the spiritual realm. If you live by the truth and become the light, darkness will have to leave your life. Disasters, tests and trials, poverty, and diseases are all brought by Satan. Such things cannot approach those children of God who live in the Light.

Of course, lights have different brightness. There is the strong sunshine and the soft moonlight. Each star also has a different strength of its light’s brightness.

Spiritually, the stronger the light, the easier it is to drive away darkness. Also in this spiritual sense, our authority and power to drive away darkness will be different according to the strength of our light. Even though some people have extensive knowledge of the Word of God and higher positions in the church, if they still live in sins and walk in darkness, they still belong to forces of darkness, and thus they cannot drive away forces of darkness. Even though they command in the name of Jesus Christ, the enemy devil and Satan will not even flinch.

On the other hand, even those who once lived in tests and trials because they did not know the truth, once they accept the Lord and come out to the Light, the situations change. To the extent that they cast away darkness and live by the Word, disasters and misfortune leave them and blessings come upon them. Furthermore, the evil one does not touch those who act in the will of God (1 John 5:18).

Also, 1 John 3:21-22 says, “Beloved, if our heart does not condemn us, we have confidence before God; and whatever we ask we receive from Him...” As recorded, for those who do not commit sins but dwell in the truth completely, darkness cannot come near to them. The enemy devil and Satan will tremble with fear before the authority of the Light. As they are loved by God to the utmost degree, they receive whatever they ask and they reveal the glory of God.

I hope you will discern between Light and darkness in all things and walk in the Light and I pray in the name of the Lord that each of you will lead many people to the Lord by doing so.

**The 11th  
WCDN International  
Conference held  
*in Sofia, Bulgaria***

The 11th WCDN International Conference held at Hotel Sheraton in Sofia, Bulgaria on May 9th and 10th, under the title, 'Medicine, Science, and Spirituality'.

They discuss divine healing works through the power of God and try to verify them medically. The conference was live-broadcast on the Internet in English and Spanish, and BNT1, a national channel reported news about this conference. At the scene, simultaneous interpretation services were provided in four language: Bulgarian, English, Spanish, and Russian.

The news about the conference was provided all throughout Europe by various press media such the Reuters, AFP, Business Wire, Bloomberg, Business Week, and other press from Italy, Germany, and France.

This conference in Bulgaria, held by World Christian Doctors' Network, WCDN was attended by 240 medical professionals from 43 countries, including the United States, Israel, Australia, Mexico, Kenya, and India. It began with the praising of the local teams at 8:50 AM on May 9, which was followed by the introduction of foreign guests. The national anthem of Bulgaria, welcoming address of Dr. Kiril Svilenov, the organizing committee chairman, and greeting remarks of Dr. Gilbert Yoonsuk Chae, the president of WCDN followed.

In his video message, Rev. Dr. Jaerock Lee, the founder of WCDN and the senior pastor of Manmin Central Church said, "Though it is the end time where there are so many disasters, it is rarity to find anyone who tries to seek God and believe in Him, and even the believers are losing their faith. The most effective way to make these people meet and experience God is to show to them the works of the living God that are written in the Bible. It is the way for them to accept the Savior Jesus Christ and live with true hope."

There were then presentations of the divine healing cases, which had already been carefully verified by medical doctors to be genuine. Medical doctors presented cases of different countries: hemiplegia (Faroe Islands), cholesteat (South Korea), acute viral meningoencephalitis with coma (Armenia), pre-eclampsia (Pakistan), posttraumatic dystrophy (Netherlands). The case presentations were followed by question and answer sessions.

After the first day conference, directors of each country gathered together to share their visions on WCDN's future.

The second day of the conference began with morning devotion of Dr. Kiril Svilenov with the title, "How Great is Our God." Divine healing case presentations followed it. There were cases of multiple fractures (Mexico), a catastrophic small bowel obstruction (Australia), restoration of valvular disease of heart (United States), pneumothorax (South Korea), hematoma intraparenchymal temporooccipital (Venezuela). Dr. Gilbert Yoon Chae, the president of WCDN gave a testimony of many fetuses which were in the high risk range of Down's Syndrome, but were born normally after prayer of Rev. Dr. Jaerock Lee.

Other than the divine healing case presentations, there were also special lectures. Dr. Lyubka Tancheva of Bulgaria spoke under the title 'Old Myths and New Challenges of the Modern neuroscience'. Dr. Frans Cronje of South Africa gave a lecture on Physical, Mental & Spiritual Health Study (PHYMSH). Dr. Andre Gasiorowski of Israel shed insights on the 'Verichip'.

In a special lecture under the title 'Pneuma-Psycho-Somatology', given by Dr. Alvin Joonha Hwang, the vice president of WCDN, was presented some physical evidence of the invisible spiritual realm. The attendants responded positively.

The 12th WCDN International Conference is going to be held in Kuala Lumpur, Malaysia, in 2015.

---

## Physical, Mental & Spiritual Health (PHYMSH) Study<sup>1</sup>

---

For the past 11 years, WCDN has been reporting and celebrating supernatural and miraculous health outcomes in response to intercessory prayer, deliverance and other spiritual interventions. The many case reports have glorified God, strengthened faith, and encouraged spiritual conversions. Still, the impact on medicine as a whole has been limited to the extent that, whilst individual medical practitioners have been convinced, the underlying separation between the church and the broader medical profession remains largely unchanged.

Secular physicians are generally quite suspicious of faith and religion in matters of health. In fact, an individual's persuasion of faith may be viewed as a potential threat to medical compliance. Statements like "the patient decided to depend on God for their healing" are troublesome to unbelieving physicians. Even if the final outcome is good, it is considered an exception; if it is bad, the unbelief and mistrust are reinforced. It may lead to subsequent scorn and ridicule of patients with spiritual views on health; it may even provoke censure of all religious interactions with patients. We must therefore be wise in our dealings within institutionalised secular medicine.

As believing physicians of the WCDN we need to appreciate two contrasting perspectives on healthcare: there is the *individual perspective* in which the most appropriate remedy is pursued for the individual, and there is the *community perspective* that attempts to offer a comprehensive health care delivery system. Secular health systems try – albeit very imperfectly – to integrate the two as best they can. Miracles are part of the *individual perspective*; they are strictly personal and therefore – by definition – anecdotal. Even when verified scientifically and completely life-changing for the affected individual, they are by no means 'typical', i.e., they do not transfer necessarily to other individuals in similar situations. And this differs fundamentally from the focus of evidence-based medicine (EBM): EBM attempts to extrapolate therapeutic interventions from a sampled experimental population to a general population. Miracles therefore by definition, being both unique and strictly individual, will never be able to meet the secular criteria for EBM, especially when viewed from the *community perspective*.

The crunch often comes when believing patients become absorbed by institutionalised healthcare systems during a health crisis or a protracted,

---

<sup>1</sup>Dr Frans Cronjé is the Principal Investigator of a three-year physical, mental and spiritual health study undertaken in collaboration with a ministry called Be in Health, Inc. in Thomason, Georgia, under the auspices of Human Research Ethics Committee of the University of Stellenbosch (SUN). Dr Cronje presented the preliminary, pre-publication findings of this prospective, observational, cohort study at the WCDN conference in Bulgaria in May 2014.

Senior Lecturer & Researcher, Stellenbosch Univ.

complicated illness. Sooner or later these patients find themselves moving from Luke 5:31 to Luke 8:43. At this point, they become increasingly determined to pursue spiritual solutions or alternatives. Unless supported and guided by wise and discerning physicians and pastors, these situations can become highly problematic. Caught between their convictions of faith and the solutions offered by secular health interventions, they ultimately feel forced to make an 'either-or', God-or-medicine' decision. However, many then pursue spiritual alternatives in a type of fear-faith where they bargain with God or desperately try to find the right method, prayer or person to release God's power for them. Others insist on having *faith in their faith* rather than *having faith in God*; as such, they may end up standing on the Word rather than leaning on its Author; this may lead to dangerous assumptions about His will and ultimately disastrous effects on faith and health. On the other hand, there may also be the believing doctor for whom it becomes a spiritual-ethical crisis when such patients – who are very ill – pursue faith-based solutions that they – as healthcare professionals – cannot endorse. Meanwhile, the secular health system – in pursuit of greater efficiency or profit – may also be 'forcing' compliance or discharge of the patient. The net result is a critical fracture in the continuum of care and further alienation between 'ministry' and 'medicine'. The sad state of affairs is that, irrespective of the strength of our personal convictions

and spiritual experiences, *medical science cannot fully embrace miraculous healings as a valid option for healthcare* without the benefit of reproducibility and 'predictability': Medical science cannot extrapolate therapeutic principles from miracles and, as such, they are of limited 'benefit' to the advancement of medicine: Being exceptions by their very nature, they are not the fabric of rules; and science pursues rules.

So, my point is this: apart from prayer, deliverance and spiritual interventions that produce verifiable healing and miracles, *what we also need is a Paul-and-Luke 'model' for effective spiritual-medical partnership: discipleship, relational restoration and sanctification of the heart in combination with appropriate physical and medical care – not merely to restore but also to preserve health*. In this process, medicine and healthcare should serve as a supporting bridge, i.e., as an extension of God's mercy. Importantly, medicine and healthcare should never delay essential relational restoration nor should it encourage persistent disobedience to the Laws of Love.

### **THE PHYMSH STUDY: EFFECT OF A FAITH-BASED EDUCATION SEMINAR ON SELF-ASSESSED PHYSICAL, MENTAL AND SPIRITUAL (RELIGIOUS) HEALTH**

This study, presented at the 11th WCDN conference, had the objective of showing that consistent, lasting,

## CONFERENCES

objective, physical, mental and spiritual (religious) health benefits may be obtained in response to teaching and applying Biblical principles for love and life.

The study design was a prospective observational cohort study. The research protocol was developed with the assistance of Prof Harold Koenig of Duke University and Prof Kenneth Pargament of Bowling Green University; it was approved by the Institutional Review Board of the University of Stellenbosch, and the study was conducted at Be in Health, Inc. (BiH), an international, NFP Christian Ministry founded in Thomaston Georgia, USA in 2005. Over the past 10 years BiH has become specialized in faith-based teaching on spiritual, psychological & physical health issues. Approximately 30,000 people have attended the BiH *For My Life*<sup>TM</sup> (4ML) program since its inception and consistent improvements in mental and physical health have been reported. The program provides intensive, systematic teaching, ministry and discipleship on Biblical perspectives on sickness and health; pathways of disease; “spiritual roots” of disease; the effects of fear, stress and anxiety on health; the importance of forgiveness; and resolving negative religious coping in becoming reconciled with God, others and ourselves.

Over a period of three years, the researchers invited individuals registering on-line for the 4ML program to complete a validated 91-item self-assessment questionnaire, which was then repeated at intervals after the program. This was the first official report on this study prior to being submitted for publication. To our knowledge it is the first study of its kind to be presented at WCDN. The study abstract follows. Once it has been accepted for publication, readers will be directed to the journal reference. Readers are welcome to contact the PI on [fransc@sun.ac.za](mailto:fransc@sun.ac.za):

### **Effect of a faith-based education seminar on self-assessed physical, mental and spiritual (religious) health**

Cronjé F.J., Sommers L.S., Faulkner J.K., Meintjes W.A.J., Van Wijk C.H., Turner R.P.

**Introduction:** To determine the effect of a faith-based education program on self-assessed physical, mental & spiritual health parameters. **Methods:** Prospective cohort study of 211 individuals attending a 5-day, faith-based seminar. Over 21-months, previously unexposed on-line registrants were invited to complete a survey made up of: (1) Duke University Religion Index (DUREL); (2) Negative Religious Coping (N-RCOPE); (3) Perceived Stress Scale (PSS); (4) Centre for Epidemiology and Statistics - Depression Scale (CES-D); (5) Brief Illness Perception Questionnaire (BIPQ); and (6) State Trait Anxiety Inventory (STAI). Pre-attendance surveys (S1) were repeated post-attendance (S2), at 30 (S3), 90 (S4), and 393 to 1024 days (S5). Only 655 of 2650 registrants met initial inclusion criteria and received automated invitations: 139 (21%) declined; 242 (37%) did not complete; and 274 (42%) completed S1. Of the 274, 211 were eligible (Cases: 105♂; 106♀; ages: 18-84 yrs); 26 didn't attend (Controls: 5♂; 21♀; ages: 27-76 yrs); and 37 were excluded by on-site interview. Cases analyzed: 211 (S1); 192 (S2); 99 (S3); 52 (S4); 51 (S5). The Human Research Ethics Committee of the University of Stellenbosch (South Africa) approved the study. **Results:** All median values dropped significantly immediately post-seminar (STAI-State  $p < 0.0001$ ; STAI-Trait  $p < 0.0001$ ; PSS  $p < 0.0001$ ; BIPQ  $p < 0.0001$ ; CES-D  $p < 0.0001$ ). The 95% CI values did not overlap between S1 and S2 for any of these components and changes were sustained over 0.95-2.8 yrs. DUREL showed significant, sustained changes in organizational and intrinsic religiosity. N-RCOPE scores improved significantly. **Conclusions:** The study supports the hypothesis that this seminar produces lasting, statistically & clinically significant effects on self-assessed spiritual, mental and physical health parameters.

## Restoring the Heart, Divine Intervention

USA

Dr. Elio A. Coradin  
MD, Cardiologist  
General Secretary of WCDN USA

On August 7, 2013 Dr. Elio Coradin arrived for work at Mercy Hospital in Miami, Florida. Dr. Coradin is a Medical Doctor that serves his community in the cardiac catheterization operation room. On this day he met U.V. (whose initials have been changed to protect patient privacy) whom was waiting to be taken into the operation room for her scheduled procedure which was in preparation for open heart surgery for valve replacement.

U.V. is a 57 year old female patient who had presented to her cardiologist with numerous cardiac symptoms and was referred for further testing. The results return with a diagnosis of degenerative disease of the atrio-ventricular valves, severe structural disease of the tricuspid valve with severe tricuspid insufficiency, right ventricular systolic dysfunction, dilation of pulmonary artery and superior vena cava, and pericardial effusion. This diagnosis was made by trans-esophageal echocardiogram 2D, and Doppler. The doctors suspected this disease was sequelae of a prior infective process, and mechanical impact of the patients pacemaker implant, and therefore had recommended open heart surgery for valve replacement.

When Dr. Coradin met with the patient to lead her to the operation room, he felt something from God telling him to witness to the patient about the power of Jesus to heal. He introduced her to Jesus Christ

and she received Him as her Lord and Savior. Then, as he has been taught by his mentor and pastor Guillermo Maldonado, he came in agreement with U.V. in believing that Jesus Christ could heal her from all of her conditions in that very moment. Dr. Coradin began to pray for her and made a declaration that her heart would be found to be without any disease, and Jesus was restoring her heart in that very moment. They believed in the word of God and agreed in faith that she was healed.

Minutes later Dr. Coradin and the patient entered the cardiac catheterization lab with the faith that the procedure would verify that Jesus Christ had healed U.V. The report of the cardiac catheterization diagnostic test showed unremarkable tricuspid valve function with no insufficiency, no valvular disease, no prolapse or regurgitation of the mitral valve, normal ejection fraction, and normal right and left heart pressures.

With the results obtained by right and left cardiac catheterization, where there was no evidence of the previous diagnoses by echo 2D & Doppler, an urgent call was made for the open heart surgeon to immediately corroborate with the new findings which nullified the need for any valvular replacement open heart surgery due to a supernatural miracle which all the medical staffed had witnessed, Jesus had restored the heart.

## Pneuma-Psycho-Somatology

Greek words pneuma, psyche and soma mean spirit, soul and body. Pneuma-psycho-somatology is related with spirituality and medical science.

### POST-HERPETIC NEURALGIA and DEMON

I will start with a real story about my grandmother. She had big ugly scar on her right neck and shoulder like that of a third degree burn because she got afflicted by herpes zoster at the age of 74 (in 1988). You can predict bad prognosis because of her old age. Her post-herpetic neuralgia was tremendous. She said it was more painful than delivery pain. Pain like pricking with a thick needle continued 24/7. She could not sleep, eat or wash properly. After about a year, she became all skin and bones, and very ill-smelling. There was no effective means of treatment, 'a condition in which the patient may consider suicide.' In such a hopeless situation, she got prayed on by Rev. Dr. Jaerock Lee, the founder and board chairman of WCDN. He prayed for her, nearly embracing her without hesitation, though she was stinking with bad smell. As soon as his prayer was finished, my grandmother abruptly shouted, "A demon's going out of me!" And the deadly pain was gone. How can you explain this? You know a demon is a spiritual being. But pain perception is related

**My Grandmother**

- Excruciating Post Herpetic Neuralgia
- Age: 74
- No Effective Treatment
- Prayer
- Shouted, "A demon's going out of me!!!"
- Healing

with the nervous system of our physical body.

### THE BIBLE

The Bible shows the examples of interaction between demons, the spiritual beings, and our human physical bodies. A demon-possessed man became blind and mute. (Matt. 12:22) An evil spirit made a person deaf and mute, and even caused a convulsion. (Mark 9:17-29)

### PNEUMA-PSYCHO-SOMATOLOGY

At the international conference of WCDN held in Kenya in 2012, an excellent guest speaker Dr. Frans Cronje (senior advisor of "Be in Health" based in Georgia, US) proposed pneuma-psycho-somatology, which is the study about the relationship between spirit and soul and body as a broader perspective

of science. I have got very much interested in his proposal. Psycho-somatology has actively been studied as psycho-neuro-immuno-endocrinology as Dr Cronje said, especially about stress-related diseases. They are also influenced by the spiritual elements.

## KOREA

**Dr. Alvin Joonha Hwang**  
Vice president of WCDN  
MD, PhD (Neurophysiology)

But we need Pneuma-Somatology to understand the mechanism of the miraculous divine healing by the power of the Holy Spirit, and the mechanism of the demon-possessed illnesses. How does the Holy Spirit or a demon interact with our physical body parts even though they belong to different dimensions, spiritual and physical? We know the result of the interaction, but we still do not know the exact mechanism of it.

### NEAR-DEATH EXPERIENCES

One of the most interesting areas of Pneuma-Pscho-Somatology is the study on Near-Death Experiences (NDE).

Dutch cardiologist Pim van Lommel published a

research on the survivors of cardiac arrest in the medical journal Lancet in 2001. Of the 344 patients who were successfully resuscitated, approximately 18% (62 patients) experienced “classic” NDEs. In cardiac arrest the EEG usually becomes flat (flatlined brain stem activity) within about 10 seconds from onset of syncope. They reported an awareness or sense of being dead, out-of-body experience, moving through a tunnel, meeting with deceased people.

50%: sense of being dead  
24%: out-of-body experience  
31%: moving through a tunnel  
32%: meeting with deceased people

### Out-of-body Experience

floating outside one's own body  
retaining one's identity,  
very clear consciousness  
looking down from above.  
Some reported information  
later verified.

Out-of-Body Experience is an experience of floating outside one's own body, while retaining one's identity and a very clear consciousness.

Most patients report looking down from above. Some patients reported information that was later verified. NDE might be a changing state of consciousness, in which identity, cognition, and emotion function independently from the unconscious body including the brain, but retain the possibility of non-sensory perception. Finally van Lommel said, the theory and background of transcendence should be included as a part of an explanatory framework for these experiences.

American Cardiologist Michael Sabom also studied NDEs among mostly his own patients. He interviewed 160 patients, and about 30% had NDEs.

## WCDN CONFERENCES

Then you may ask what happened as for this at the conferences of WCDN. I could remember a few cases presented, in which the impossibly dead were raised by prayer of faith.

At the first international conference held in Korea, an excellent cardiothoracic surgeon Paul Ponraj, who is now director of WCDN India, presented an interesting case. The patient had unstable angina.

CABG (Coronary artery bypass graft) was done successfully. But suddenly the generalized vasospasm started from around noon. All his blood

vessels in the heart and the large blood vessels in his leg had gone into spasm with no blood flowing. And all the desperate efforts to resolve this problem did not work, including 7 hours of heart on pump (8:00pm-3:00am). Next day early morning, just before declaring death, Dr. Ponraj came out of the room, knelt down on his knees and prayed thinking of the anointed handkerchief in his scrub pocket, that had been prayed on by Dr. Jaerock Lee, like the handkerchief of Ap. Paul as in Acts 19:12. And Dr. Ponraj returned to the operating room. What do you think happened? People shrieked because absolutely normal circulation abruptly restarted in this patient. Even the non-Christians of the surgery team gave glory to God! He recovered without any neurological deficit. When he heard about the miracles that happened to himself and to other people, he became really thankful to God for giving him the second life. And Dr. Ponraj presented this case at the WCDN conference.

At the international conference held in Miami, Florida in 2007, a renowned interventional cardiologist Chauncey Crandall presented a touching case, which has become really famous due to the excellent reporting of Mr. Dan Wooding of Assist News Service. The patient got massive heart attack and finally his heart stopped. CPR (Cardiopulmonary resuscitation) and electric shocks through the defibrillator were given to him for more than 40 minutes. But they failed. The patient was declared dead. But hearing the strong voice of the Holy Spirit, Dr. Crandall returned and prayed for this dead patient, and another electric shock was given

to him. Astonishingly his heart restarted pumping. His

family had prayed for his salvation for many years. While he was dead, he visited hell. It was complete darkness. He was so disappointed, frustrated. After he became alive, Dr. Crandall preached gospel to him, and he accepted Christ as his Savior with tears. This story was broadcast on Fox news nationally as Christmas Special. Dr. Crandall even wrote a book about this miracle.

at the international conference held in Australia in 2011, as a medical case presented by the respected Dr. Arthur Ferdinand. That incident had been broadcast

on national TV news in Indonesia. Dominggus, when he was a student of a theological seminary near Jakarta, was slaughtered. His right carotid artery

was cut. Even his cerebrospinal fluid leaked. He was considered dead because of hypovolemic shock. While his body was cast out in a ditch, his soul-spirit left his body, and could see his own wounded body lying in the ditch. Angels led him. Beyond a needle hole, he found a very beautiful palace shining and so peaceful. There were many kind people there. And someone driving a horse with a glittering face! Dominggus knew that it was Jesus Christ.

his body to the morgue. But his seminary schoolmaster

was cut. Even his cerebrospinal fluid leaked. He was considered dead because of hypovolemic shock. While his body was cast out in a ditch, his soul-spirit left his body, and could see his own wounded body lying in the ditch. Angels led him. Beyond a needle hole, he found a very beautiful palace shining and so peaceful. There were many kind people there. And someone driving a horse with a glittering face! Dominggus knew that it was Jesus Christ.

The suture was done only cosmetically because he was considered hopeless. You can see his suture scar. It's very cosmetic. They decided to send

his body to the morgue. But his seminary schoolmaster

was cut. Even his cerebrospinal fluid leaked. He was considered dead because of hypovolemic shock. While his body was cast out in a ditch, his soul-spirit left his body, and could see his own wounded body lying in the ditch. Angels led him. Beyond a needle hole, he found a very beautiful palace shining and so peaceful. There were many kind people there. And someone driving a horse with a glittering face! Dominggus knew that it was Jesus Christ.

The suture was done only cosmetically because he was considered hopeless. You can see his suture scar. It's very cosmetic. They decided to send

his body to the morgue. But his seminary schoolmaster

was cut. Even his cerebrospinal fluid leaked. He was considered dead because of hypovolemic shock. While his body was cast out in a ditch, his soul-spirit left his body, and could see his own wounded body lying in the ditch. Angels led him. Beyond a needle hole, he found a very beautiful palace shining and so peaceful. There were many kind people there. And someone driving a horse with a glittering face! Dominggus knew that it was Jesus Christ.

Dr. Hutasoid, who was a GP (general practitioner), came and prayed for him. And additional three electric shocks were given to him. And Dominggus regained consciousness! He had two encounters with Jesus Christ during his clinical death. Just next day he freely walked around the hospital and surprised his doctor. No neurological deficit! Now Rev. Dominggus actively preaches and gives his testimony travelling around Indonesia and around the world.

At the same conference in Australia a faithful cardiologist Prof. Sean George presented his own experience as a Lazarus phenomenon. You know Lazarus, who walked out of the tomb hearing the voice of Jesus. Sean himself got cardiac arrest. CPR and 13 defibrillations were given for more than 1 hour with no effect. Finally his wife arrived and prayed for him asking a miracle. And surprisingly his spontaneous circulation restarted! No neurological deficit! His story was broadcast on a newspaper as a miracle.

Among these four survivor cases, one experienced heaven, and another experienced hell, while the other two did not remember any spiritual experience during their clinical death.

But we cannot directly verify the information that those survivors reported because we did not accompany them into the spiritual realm. Then how can you verify such spiritual information? Is it possible to do an experiment about that? But NDE is too dangerous because it is obtained at the threshold of death.

### AP. PAUL AND AP. JOHN'S JOURNEYS TO HEAVEN

Then how about in the Bible? Some individuals visited heaven in their healthy state. Who are they? Apostle Paul and Ap. John gave testimony about their spiritual journeys to heaven.

According to <2Cor. 12:2-4>, Ap. Paul, fourteen years before, had been caught up to heaven. He said, "Whether it was in the body or out of the body I do not know--God knows." He had been caught up to paradise, and had heard inexpressible things.

Herod Agrippa I died (Acts 12:23) in 44 AD. Ap. Paul's first missionary journey (Acts 13:4) is usually considered to have started between 45 and 47. During this journey Paul abode a "long time" in Iconium, (Acts 14:3) then in Lystra he was stoned. (Acts 14:19) Paul spent the winter of 57-58 AD in Corinth (1Cor. 16:5-8) during his third missionary journey. So Second Corinthians was most likely written in the fall of 57 AD from somewhere in Macedonia. From 57, going back 14 years to 43 AD, this puts us back before Paul's first missionary journey, probably when he was at Antioch in Syria.

Ap. John also visited heaven and saw the throne of God there. (Rev. 4:1-2)

### SPIRITUAL EXPERIMENT

But how can you verify such information in the Bible? Extremely accurate and systematic observations and sophisticated experiments are the well-known methodology and strategy that have brought the brilliant success of modern science and technology. Then is it possible to do an experiment about the spiritual things? Can our spirits visit the spiritual realm as a closely observed experiment? That would be quite thrilling if possible.

And that thrilling unprecedented event was performed at Manmin Central Church on 25 May last year. You are interested. Rev. Dr. Jaerock Lee presided that experiment. He really wanted to show people that heaven and hell are real. He really wanted to help people realize vividly the love of God who has prepared heaven for our eternal happiness. He really wanted to warn the world to escape from the way to hell. So he prayed and fasted so much. He tried his best to live according to the teachings of Jesus Christ imitating Him with faith. He devoted and sacrificed himself so sincerely for more than 30 years to spread the good news for salvation, showing wonders and signs, miracles including divine healing to help people to believe the truth. He could do that because he has loved Father God and our Lord Jesus Christ so much, and understands exactly how much Father God wants

people to come to heaven instead of falling into hell.

Eight sanctified individuals participated in this experiment of

visiting different places of the spiritual realm for about five minutes at the same time. They were on the stage in front of all the attendees of the worship service as well as watched through satellite and internet live. They were composed of 5 pastors, 1 gospel singer, 1 elder and 1 church staff. They are persons of good education, sincere character and social credibility. All of them are very reliable and trustworthy persons. They prepared themselves with fasting and much prayer. What was very special about this event was that the most spiritual pastor among those eight participants oversaw other participants' journeys by visiting each in the spiritual realm, one by one. Therefore this investigation by cross-check or double check made it possible to verify each participant's report.

As soon as each one was prayed on by Dr. Lee, his or her separated spirit was sucked into each part of the spiritual realm, and was guided by 2 angels. And each one was recorded by the separate camera all through the event. People could watch their faces closely during the event.

The spiritual experience was ultra-real. But at the same time, they could feel and be aware of their surrounding situations here on earth. They were in conscious state, but focusing much more on their spirits' journeys into the spiritual realm than on this world.

An experiencer said, "Instantly he laid his hand on me, the space of spirit opened right in front of me, and my spirit was separated and came out. In other times I felt my spirit being separated and coming upward over the head. But this time my spirit was separated and came out right in front of me as explained by Pastor Heejin Lee. I felt like my spirit was coming out of the right ear."

Tears flowed from a pastor's eyes when his spirit met a deceased senior deaconess' spirit in the New Jerusalem in heaven. She looked at him with a look so fair, beautiful and pure without any stain of worry or sadness, beyond comparison with any face of this earth. He was so touched that he exclaimed, "Oh,

this is heaven!" How good-hearted, gentle, calm and beautiful she had been before she died! He said, "I came to harbor a strong desire to stay there. I welled up tears looking at her face. My tears ran down my cheeks. Looking at her brought peaceful tears to me. I cannot explain it enough with words. It was beyond description. I eagerly would like to live there."

Another pastor not only shed tears but also had a runny nose running down even to the floor. At that time her heart was so torn apart by the scene at hell that she could not notice her runny nose. She said, "I felt like I could reach him afar, but it rather became out of reach. I wanted to follow him and plunge myself into it. But my spirit was drawn into the space of light. His soul fell into the space of darkness. I was reminded of the senior pastor. So he said that only if it were able to lead a thousand souls out of hell and into heaven he would be able to enter hell for their sake. Even as for me, no matter what, I had an eagerness to take him up from there and into heaven."

After nearly five minutes, Dr. Lee prayed on each one for his or her spirit to return from there. They gave brief testimonies about what they had seen, one by one. <Luke 8:54-55> 『But he took her by the hand and said, "My child, get up!" ("Talitha koum!") (Mark 5:41) Her spirit returned, and at once she stood up...』 <1Cor. 14:32> 『The spirits of prophets are subject to the control of prophets.』

The first one who testified was the overseer. She told the audience how she had found each one at the different places in the spiritual realm, and described exactly and hyper- vividly what each one had been doing there. After her testimony, others, one after another, told the audience what they had seen. Actually they had been too preoccupied with their own mission to recognize that they had been being watched by the overseer.

It was truly convincing for us audience confirming that the overseer's descriptions of each participant's behavior in each place were exactly the same as each participant's own description of his or her own real behavior at that time when he or she had been being watched by the overseer.

runny nose running down even to the floor. At that time her heart was so torn apart by the scene at hell that she could not notice her runny nose. She said,

Another amusing or even cute thing was that each had done his or her mission according to his or her own personality or taste. Usually artists are most sensitive about beauty. In this event also, the praise leader and the cellist pastor had been actually so enraptured by the beautiful lake and flower garden of heaven, sensing enormous love of God, that they had fell into a blissful trance-like state.

Everyone described super-vividly what they had seen. Six of them even gave detailed sermons on what they had seen in the spiritual realm.

### THE SPIRITUAL REALM

The spiritual realm certainly exists. According to Acts 1:9-11, when Jesus Christ was being taken up to the sky, a cloud hid Him from the apostles' sight. He did not continue to fly into the physical outer space passing by the planets and stars, but, in the cloud, He was taken into the spiritual space, and into heaven.

If the rapture happens in our lifetime, we also will be caught up in the clouds to meet the Lord in the

air, i.e. somewhere in the spiritual space (Acts 1:11, 1Thess. 4:16-17, Rev. 1:7) because we are invited to the wedding supper of the Lamb! Therefore we should become ready as His brides with the righteous acts of the saints.(Rev. 19:7-9)

### THE IMPRESSIVE DRAGONFLIES

During the summer retreats of Manmin Central Church, swarms of dragonflies from other areas moved, we believe they came, through the spiritual passageway in another dimensional space, and came down from the direction of the sun.

Usually it is not easy for us to catch a dragonfly. But these dragonflies gently sat on the people's fingers, heads or shoulders, bringing joy to them. They shared love with Manmin members. The Bible says that as the Israelites were passing through the wilderness God drove and brought to them massive flock of quail, birds as their meat. These dragonflies were an interesting gift from God who showed His love for His children. Everybody has been really thankful for that.

Dr. David Eu from Singapore with a lovely dragonfly on his fingertip and his wife Deborah

Pastor Daniel Rozen from Israel, Lawyer Shirel from Kazakhstan, and dragonflies resting on their fingers and nose

Dr. Arlene Diaz, who was Dean of a medical school in the Philippines, playing with a dragonfly

Dr. Alvin Hwang with a dragonfly on his head and threesome dragonfly-noses including his daughter's where the dragonfly stayed nearly an hour continuously.

Dragonflies eat mosquitoes and other small insects like flies, bees, ants or wasps. So thanks to them, every summer retreat was free from bothering insects since 2006.

### EXPRANATORY FRAMEWORK

Let's return to the main topic. As an explanatory framework for the result of the event, the spiritual experiment, we need to assume two separate but closely related beings, which are soul and spirit. Soul is related with the brain activity. Dr. Cronje said that the functions of Soul are thought, will and emotions. On the other hand Spirit is a transcendental being, in which identity, cognition, and emotion function

## CONFERENCES

independently from the body including the brain, but retains non-sensory perception.

<1Cor. 14:14-15> 『For if I pray in a tongue, my spirit prays, but my mind is unfruitful. So what shall I do? I will pray with my spirit, but I will also pray with my mind; I will sing with my spirit, but I will also sing with my mind.』

As van Lommel conjectured, continuity of consciousness may be achievable if the brain acted as a receiver for the information generated by memories and consciousness, which existed independently of the brain, just as radio, television and internet information existed independently of the instruments that received it.

But what happens if the body dies completely? The spirit and soul remains, as the contents of soul is contained in spirit, and goes to either heaven or hell.

<1Cor. 2:11> 『For who among men knows the thoughts of a man except the man's spirit within him? ...』

<John 19:30> 『... Jesus said, "It is finished." With that, he bowed his head and gave up his spirit.』

<Luke 23:46> 『Jesus called out with a loud voice, "Father, into your hands I commit my spirit." When he had said this, he breathed his last.』

<Luke 24:38-39> 『Jesus said ... Behold my hands and my feet, that it is I myself: handle me, and see; for a spirit hath not flesh and bones, as ye see me have.』

<Acts 7:59> 『While they were stoning him, Stephen

prayed, "Lord Jesus, receive my spirit."』

But actually the term "soul" is often used interchangeably with the term "spirit".

### **SPIRIT-SOUL-BODY**

Jesus said, "That which is born of the flesh is flesh, and that which is born of the Spirit is spirit."

(Spirit is the special gift of God that places us in relationship to Him, in communication with Him.)

And the famous verse, Third John verse 2 says, 『I wish above all things that you may prosper and be in health, even as your soul prospers.』

For men of spirit (spiritual Christians), their soul prospers, so all things prosper with them and they are healthy. Men of spirit are in the process of bearing the fruits of spiritual love (1Cor. ch. 13), the fruit of the light (Eph. 5:9), the fruit of the Holy Spirit (Gal. 5:22-23) and the Beatitudes (Matt. ch. 5) as their soul follows the guidance of the spirit.

I conclude my presentation with this wonderful verse, <1Thess. 5:23> 『the very God of peace sanctify you wholly; and I pray God your whole spirit and soul and body be preserved blameless unto the coming of our Lord Jesus Christ.』

# DELEGATES' OPINIONS

WCDN Bulgaria conference gave a vision to...

Exquisite harmony of science and biblical truth.

Unique Vessels of God.

A challenge to bring it a higher scientific level.

## CONFERENCES

### WCDN Bulgaria conference gave a vision to...

#### Dr. Kiril Svilenov

Bulgaria

-

Chairman of Organizing Committee  
WCDN Conference Bulgaria 2014  
General Practitioner

After her first contact with WCDN ministry in Australia 2011, Assoc. prof. Lyubka Tancheva came back to Bulgaria excited and encouraged about this ministry. She shared about this vision with other colleagues of hers and next year Dr. Kiril Svilenov was able to attend the annual WCDN conference in Kenya. So there was a core of doctors which formed in Bulgaria and our desire was to proclaim this vision in our country. After a national conference in 2012 and Balkan conference in 2013, the WCDN board took a decision to have their 11th conference 2014 in Sofia, Bulgaria. This was an honor and a blessing for our small country. We started our preparation for the conference as soon as we heard about this.

The preparation process was quite intense and some moments were stressful, but it was worth it, knowing that this event will be a blessing for our Christian and non-Christian society. The Organizing committee – Dr. Lyubka Tancheva, Dr. Kiril Svilenov and Pastor Ivan Hazarbasanov

managed to find trustworthy people who got involved in a lot of the activities which happened. Of course during the final efforts we received a backup from Korea – Dr. Alvin Hwang and Dr. Brian Yeo. But all the glory for the wonderful preparation and blessed time that we had during the conference, we give to God – our Heavenly Father, who was in control the entire time.

We find the vision and the idea of sharing the Divine healing with our colleagues and spiritual leaders very inspiring and practical for encouraging the believers and inspiring the non-believers to seek the Great Healer Who is above all. We want to express our thankfulness to God for bringing all together for spreading His kingdom in our land. Also we thank to the Senior pastor of Manmin Central church Rev. Dr. Jaerock Lee for sharing and spreading his vision worldwide. Gratitude to the WCDN board and its' president Dr. Gilbert Chae for supporting us and being the major part of the worship time and case presentations. Of

course we appreciate all the colleagues who sacrificed time and efforts to present cases and give special talks during the conference. Finally we believe that this event – the 11th WCDN conference will be an initiation of a wonderful inspiration among the medical staff in our country. We will continue to pray and promote the Healing Hand of God the Father and that He is the same yesterday, today and forever (Hebrews 13:8). Many of the attendees were so encouraged and inspired that they continue to write emails and letters of thankfulness for being a part of this event. Some people shared that after the conference they have a complete new vision about the spiritual realm and they got more confidence about the Biblical truth and the spiritual life.

The consequences of this conference will continue to echo in the country and we pray that it will spread in the other Balkan countries too!

Praise be to God forever!

## Exquisite harmony of science and biblical truth

**Dr. Frans J. Cronjé**  
South Africa

-

MBChB(Univ. Pretoria),  
MSc(Aerospace Medicine)  
Senior Lecturer & Researcher,  
Stellenbosch Univ.

I have just been listening to the presentation by Dr. Hwang. And I am overjoyed to hear the consistency and the way in which God is revealing in a beautiful combination of science and biblical truth, the way in which we can understand the spiritual realm, and not only confirming that the Bible is true but showing us how the Bible illuminates science.

We don't need to prove God. What is so wonderful is when we simply search out truth we find that the truth is reflected, revealed and magnified in the Word of God.

I would thank Rev. Dr. Jaerock Lee and Manmin Church and Dr. Hwang for being bold in embracing this partnership between spirituality and science, and leading the world in this initiative.

The separation of spirit and soul-body is something that is well described in literature. It is certainly described in many religions. I think for this to have been done in such a holy way, in such a God-honoring way is wonderful.

We sometimes shun from things that we believe have been tainted with evil or have been used for malicious purposes. But to see them in this way for the glory of God, for the purpose of illustrating God's Word and for building people's faith is consistent with the idea of the Most High in signs and wonders. They are meant to build our faith. Therefore under these conditions that were strictly controlled, supervised, and presented in an objective way, it was truly inspiring and very faith-affirming.

As it happens, I am actually an amateur entomologist. My preference is butterflies. But as someone who is interested in fly-fishing, I studied dragonflies. Dragonflies, I can tell you, are the most elusive of insects. I have practiced my skills in meeting insects using dragonflies because they never sit.

To see this mass sit, the entire collection of dragonflies, is not only an extraordinary miracle but an extraordinary demonstration of God's love and mercy in using one of the most humble of insects, one that is recorded in the earliest records we have within the context of creation, to affirm the continuity of God's love to us in such a dramatic way. It was all inspiring.

There did not seem to be a specific source. There was not, as far as I know, any water body nearby.

It is unheard of dragonflies to do that. I don't know any recorded situation in which dragonflies have sat in that sort of context. Butterflies might. Dragonflies never.

## Dr. Zoe D.Scounos

Australia

-

Thoracic and Sleep Physician

## Unique Vessels of God

It is an honour and privilege to share my thoughts of the WCDN ministry and the 2 conferences I have attended thus far.

I first attended the 8th WCDN International Conference in Brisbane, Australia in 2011. This was a pivotal time in my life as I awoke from my spiritual slumber. The moment Dr Rev Jaerock Lee (Founder of this ministry and wonderful servant of God) opened the meeting with a message and I heard the meaning of our role as believers on earth, I was touched so deeply, that it has changed my life. He reminded us that it is our role to bring as many souls to salvation. I have been a Christian all my life and with the distractions of life's circumstances I lost my way and purpose. I was so hungry to hear the truth.

What was to follow from that conference, was testimonies after testimonies of the Glory of God, manifest as miracles after more miracles. The dead raised to life on 2 occasions, with medical evidence substantiating the like. Other conditions healed by the Grace of God, including dermatitis and a case of incomplete quadriplegia healed and restored from a functional perspective, a disastrous head injury touched by God and serious consequences healed and more. Then, at its completion I took the baton and wanted to learn more about our faith as true Christians and our ultimate wonderful inheritance, the healing ministry. I bought and read most of the available books written by Dr Rev Jaerock Lee and others on healing. All this has made me realize as well as reading the actual Word of God, the Holy Bible, that, medical professionals are in a unique position to impart the truth on a daily basis and hence utilize our inheritance. We can be, if we are open to surrender ourselves to serve an Awesome God, unique vessels of God.

As I immersed myself in reading books on healing and accounts of more signs and wonders and miracles witnessed by leading pastors around the world, I found myself trusting God more and more. I realized that God yearns for an intimate relationship with His children. It was this understanding that positioned me and my family to the greatest test in our lives. Last year my father was fighting for his life having had an Ischaemic bowel complicated by sepsis and requiring emergent surgery within 24 hours. We were faced with an impossible situation medically, as we were told he had a limited chance of survival. I, with immense faith in God, declared to the intensivist looking after my Father that we have an Awesome God, and my family and I will cling onto that hope. That evening, my mother and younger sister prayed by declaring the Word followed by our specific prayer for healing and restoration of our Father. What was to follow was an awesome manifestation of God's Grace. Our prayers were answered so magnificently and my Father is alive and well today. Glory to God!

I then couldn't wait for the next WCDN conference. Hence I needed to thank

God by Glorifying His Name at the next meeting which happened to be the 11th International Christian Medical Conference in Bulgaria. What a delight it was to present my Father's testimony with all the medical data before and after prayer. This has been the greatest highlight of my medical career, thus far. More importantly, it was a lovely opportunity to travel to a nation that clearly was hungry for the light of our Lord Jesus Christ.

The local organizers of the meeting in Sofia along with the warm welcoming of the attendees from the mother country that I met during the breaks of the conference, should be commended for a truly memorable meeting.

The networking that is available at such conferences with so many representative nations of the world attending is very humbling. I honour my colleagues from around the globe who have sacrificed their careers for missionary work.

At this last conference we heard from a colleague, from South Africa the results of a research paper that confirms objectively that "intrinsic religiosity" is what is important for maintaining or attaining good

health. That is, objective evidence substantiated by scientific evidence that an intimate relationship with Father God is what is imperative to a healthy life.

Finally, I would like to conclude, as well as thank from the bottom of my heart, the World Christian Doctors Network Organisation for this wonderful mission of spreading the Good News to the medical profession. It is truly a wonderful opportunity to propagate and extend the Kingdom of God. As in Hebrews 13:8, Jesus Christ is the same yesterday, today and forever. He is our ultimate Healer.

My message is simple: God reigns on earth and heaven now and forever and for eternity. Despite all the darkness that is trying to engulf the earth, we have an Awesome God, and His perfect love which is unconditional casts out all fear.

My prayer for all who read this article, is that no matter what your circumstances are, or wherever you are in your walk with our savior Lord Jesus Christ, that there is HOPE and that HOPE is in our trust in God. I hope my account above has aided to yearn for a closer relationship with God. Amen.

## A challenge to bring it a higher scientific level

**Dr. Dick Kruijthoff**  
Netherlands  
-  
General Practitioner

I was very much moved by the conference, meeting with Christian colleagues from all over the world, speaking to them and listening to their presentations. I want to thank WCDN South Korea and WCDN Bulgaria, the organization was very good. One other thing I liked were the dances and music from Korea, Israel and Bulgaria.

It was very good to alternate this with the presentations. This was keeping us alert and awake, so that we could listen better to the speeches.

I think it is good to demonstrate God's work through examples of divine healing. In the future it would be a challenge to continue doing this and to try and bring it to a higher scientific level.

# Dragonflies Flying Down from the Sky

—  
Dr. Seung-shik Kim  
WCDN PhD

In Romans 1:20 is recorded as the following: "For since the creation of the world His invisible attributes, His eternal power and divine nature, have been clearly seen, being understood through what has been made, so that they are without excuse." Through swarms of dragonflies that appear at the summer retreat, we can discover God's mysterious power and divine nature, and renew the grace of God the Creator and the love of God the Father.

# Amazing abilities endowed to dragonflies

## 1 Eyesight Ability of Dragonfly

A dragonfly has a pair of compound eyes each of which consists of roughly 28,000 ommatidia. A compound eye is the convex eye, consisting of numerous separate light-sensitive units (ommatidia). Strangely enough, the shape of each ommatidium is hexagonal. Hexagon is the most stable and well-balanced of polygons.

Therefore, without turning its head, a dragonfly can see front, rear, left, and right side at the same time. It can spot a moving object at a distance of 20 meters, and something in a fixed location at a distance of 37 meters.

Scientists studied the eyes of dragonflies and invented optical camera lenses which have 360 degree view. If it is deployed on a commercial scale, endoscopes which can sense minute changes inside a human body, and cameras which can shoot tiny movements with 360 view angle.

## 2 Flight Ability of Dragonfly

Taken From dailymail.co.uk

BBC news reported on July 14, 2009 that a dragonfly became a champion in an insects' marathon. It means a dragonfly is the insect that can fly the farthest distance. A biologist in the Maldives found after a 10-year long research that dragonflies can fly much farther. He found that dragonflies travel 14,000 to 18,000 kilometers from India to Africa every year. And 800 kilometer wide sea was included in their routes. It means they have to keep on flying a distance of 800 kilometers without taking a rest. It has still remained as a mystery how dragonflies could cross the sea and fly such a long distance.

## 3 Flight Technique of Dragonfly

Also, Scientists are learning even more secrets of flight. A high-performance aircraft can barely lift themselves off the ground. However, the dragonfly can lift 15 times his own weight into the air. Scientists have learned that this is because the dragonfly's wings are designed to create little whirlwinds over their top surfaces. The whirlwinds are the secret to create incredible lifting power. These ways are now being planned to apply this secret to new aircraft designs.

## God's special love displayed through dragonflies

While Moses was leading the Israelites out of Egypt, the Pharaoh was faced with the ten plagues because he refused to let them go. Among the ten plagues, how did swarms of flies and hordes of locusts appear and cover the whole land of Egypt instantly? (Exodus 8:21, 10:4-6) The land of Goshen the people of Israel dwelled in escaped from all the disasters because God separated the land from all other lands (Exodus 8:22). And while passing through wildernesses, they ate manna and quails that came down from the heavens (Exodus 16:13, 31).

God is the same yesterday, today and tomorrow; He is manifesting proofs confirming the existence of the spiritual realm. Those who attend the summer retreat can experience His manifestations of signs and wonders. Swarms of dragonflies fly down from around

the sun like snowflakes, and eat harmful insects including moths and mosquitoes. In addition, the dragonflies are not afraid of men but sit on their bodies. This fact assures us of the delicate love of God, existence of the spiritual realm and the authenticity of the Bible.

*"I am running a lodging house around the Muju Resort. For the last a few years Manmin Central Church visited here to hold the summer retreat, and each time I saw something amazing. A myriad of dragonflies appear around the lodging house and harmful insects including mosquitoes and moths disappear. But those insects reappear after their summer retreat came to a close."*

- Mr. Wool Park

-END-

# A Voyage of Life

Then they were glad because they were quiet,  
so He guided them to their desired haven.  
Psalm 107:30

Throughout the Pacific Ocean there are many places  
where rocky coastal areas exist.

To sail safely there, you have to sail at an angle  
where the light of three lighthouses overlap and look like one lighthouse.  
Likewise, only when we set a goal angled to line up with God the Creator  
can we lead a peaceful life.

When our goal does not agree with God's,  
we will wander meeting with many problems like rocks in the sea.  
However, when we set our course on God who created the heavens and  
the earth and all humanity and set our goals angled toward Him,  
He will drive away the gusty winds and cause the waves to become calm.  
He will help our sailing through life to be safe.

# Come to MALAYSIA!

**Prof. Datuk Dr. D. M. Thuraiappah**

- Chairman of Organizing Committee WCDN Conference Malaysia 2015
- President of Academy of Family Physicians Malaysia

God works miraculously in mysterious ways. Is it co-incidence or a miracle? That is the question or may be an answer of the sceptics. No doubt doctors are perplexed, patients are more perplexed. But to the faithful it is not strange!!

We rejoice when we see God at work. The Holy Spirit brings tears to our eyes as we are confronted with the way God heals. We are strengthened in our faith. The healing is permanent which distinguishes it from other claims of miracles.

But many still disbelieve as are the doubting Thomases. In reply to the doubters, this conference brings as much scientific evidence as is possible to support the claim of healing. One must understand that miraculous healing process is not a randomised controlled clinical trial. Each healing event

is unique, but the scrutiny of the medical records testify that the event of healing concludes that no other explanation exists but miraculous healing.

Spontaneous regression of disease may be the doubters another explanation. But why in response to prayer? Christian prayer by faith results in miraculous change either with or without any form of intervention, and without relapse over time. It is often a combination of spirituality, medicine and science which supports the act of healing.

Attempts will be made to present some randomised trials (within ethical boundaries) that Christian healing is a possible explanation to the other many anecdotes. Research methodologies including Christian principles are being developed to enhance the practice of Christian medical practice.

The practice of healing is a gift of the Holy Spirit, which like many other skills has to be learned in the biblical ways. It has a specific domain just as other scientific experiments are conducted. Qualitative methods and to certain extent quantitative methods

may be used to conduct research within the biblical domain. Similar parallels using secular experiments with and without faithful prayer interventions on different groups of patients (within ethical guidelines) and reporting the outcome. The conference will promote

more scrutiny into scholarly presentations of healing events. This will in turn transform the disbelief of the doubters. This conference will also train Christian doctors to practise spiritual medicine where spiritual medicine will play a part in the future of

medicine. It will enhance the skill of good diagnoses in order to pray for the specific disease.

All healthcare physicians and allied healthcare professionals will benefit from this conference.

Therefore all are welcome.

# Malaysia 2015

# 12th WCDN International Conference

---

## **Spirituality, Medicine & Science**

---

**Date** May 16th - 17th 2015  
**Venue** Sunway Putra Hotel,  
Kuala Lumpur, Malaysia

# WCDN Director meeting

After the first day of the conference, WCDN Directors have gathered together and shared a vision of WCDN and encouraged each other how to develop WCDN activities in their countries in the future.

WCDN HQ is in Seoul, Korea and it has about 21 branches in such countries Australia, Armenia, The Balkans, Bulgaria, India, Indonesia, Israel & Middle East, Italy, Kenya, Malaysia, Mexico, Moldova, the Philippines, Russia, Scandinavia, Singapore, Southern Africa, South-East Asia, Ukraine, USA.

And we expect they will work more actively.

Korea

Congratulations!

Dr. Alvin Joonha Hwang  
Vice president of WCDN HQ, MD. PhD (Neurophysiology)  
completed the course of Haggai Institute in July, 2014.

The 12th Seminar for Creation Science was held

Dr. Seung-shik Kim  
WCDN PhD

Creation science team affiliated with WCDN headquarters had an annual seminar in Manmin Central Church on Sep, 2014.

Dr. Kim, Physicist presented some topics under the theme as follows.

1. Scientific Approach about Noah's Ark.
2. Ecological characteristics of dragonfly & testimony

## Bulgaria

### Dr. Kiril Svilenov

Visited the headquarters of Haggai Institute in Atlanta, Georgia, welcomed by Dr. John Edmund Haggai, Founder and CEO, Dr. Beverly Upton, Managing Director, Chief Operating Officer and Mr. George Zachariah, CFO, in June 2014.

## Israel

### Dr. Andre Gasiorowski and Pastor Daniel Rozen

Visited Manmin Central Church in October to attend the 32nd Church Anniversary, met Rev. Dr. Jaerock Lee and WCDN HQ people, and had a meeting sharing a vision for further activities in the future.

## Mission Trip to Iceland & Greenland

**Dr. Jenis Av Rana**

Director of WCDN Scandinavia

General Practitioner

Parliament member

## Faroe Islands

My visit to the two beautiful countries Iceland and Greenland. In the beginning of September I had the opportunity, as a member of foreign comity in the parliament on Faroe Island, to visit these kind and lovely people of Iceland and Greenland. Before the journey I got permission from the Christian radio in both countries, that they would make an interview with me about divine healing, miracles- and the work of WCDN. In both places I told people about the love of God and His wonderful healings. Also I prayed for people and gave information about the great work in WCDN.

I was in Icelandic radio on my way to Greenland, and, on my way back to Faroe Island, I found out, while I visited a church on Iceland that many people phoned the radio after the interview and asked for prayers. Other people contacted me in this church and I was asked to visit one

young woman in her home, and there I could pray for problems she had for 14 years.

In the church in Reykjavik, Iceland, I met an Icelandic medical doctor, called Ausmundur. I told him about WCDN, and invited him to be a part of the work. Let us all pray for Ausmundur, that he will decide to be a part of WCDN and represent a new country, Iceland, at the next WCDN conference!

Let us pray for revival in Iceland and Greenland!

You find Iceland between the North Atlantic and the Arctic Ocean. It has a population of 325,671 and an area of 103,000 km<sup>2</sup>, making it the most sparsely populated country in Europe. The capital and largest city is Reykjavik. Iceland is volcanically and geologically active. The interior consists mainly of sand and lava fields, mountains and glaciers, while many glacial rivers flow to the sea

through the lowlands. Iceland is warmed by the Gulf Stream and has a temperate climate.

Icelanders have freedom of religion, 75% members belongs to the state church and 12% members to other Christian denominations. But Iceland is a very secular country, and as in other Nordic nations, religious attendance is relatively low. A Gallup poll conducted in 2012 found that 57% of Icelanders considered themselves "a religious person", 31% consider themselves "a non religious person", while 10% defines themselves as "a convinced atheist". This is placing Iceland among the top 10 atheist populations in the world.

Greenland, Kalaallit Nunaat, is located between the Arctic and Atlantic Ocean, east of Canada. Greenland is, in area, the world's largest Island, over three-quarters of

which is covered by ice sheet. With a population of about 56,370, it is the least densely populated country in the world.

Greenland has been inhabited off and on for at least the last 4,500 years by Arctic peoples whose forebears migrated there from what is now Canada. Norsemen settled the uninhabited southern part of Greenland, beginning in the 10th century, and Inuit peoples arrived in the 13th. Century.

Rediscovering these colonists and spreading the protestant reformation among them was one of the primary reasons for the Danish decolonization in the 18th century. The New Testament was translated piecemeal from the time of the very first settlement, but the first translation of the whole Bible was not completed until 1900.

Faroe Islands

Today, the major religion is protestant Christianity, mostly members of the Lutheran church of Denmark. There are still Christian missionaries on the island, but mainly from charismatic churches.

2014 Latinoamerican conference was held on Oct 9th-10th in Maracaibo, Venezuela

Mexico

We had the opportunity to help many people in a free medical campaign in a Mental Hospital were all the doctors and health workers helped in different areas.

We made more than 25 different surgeries.

It was a great blessing to share the power of the word of God bringing healing to the man. More than 300 doctors from different cities of Venezuela attended this Conference even a big number of medical students attended this event.

In this event we had the visit of countries such as, Panama Dr. Javier Ruiz and his wife, Mexico Dr. Daniel Fuentes and Dr. Manuel Pastrana, Puerto Rico, Dr. Luis Paz and his wife, and different cities from Venezuela,

Dra. Maria Trompiz, and Dra Ithamar Rodriguez and their local committees who are very interested to open AMEC WCDN in their cities, at least 4 of them more are confirmed to start working this year. Today we had in Venezuela two branches in the cities Falcon and Zulia.

Also we had the presentation of AMEC WCDN for the youth, it is a project that is conformed by medical students in order to reach for Christ the youth involved in the medical

field. They presented the official magazine.

I had an opportunity of spread the vision of Amec Wcdn, and see how it is growing as a mustard seed in the Kingdom of Our Lord Jesus Christ. I appreciate a lot all WCDN HQ support, and confidence to work in this ministry. And in a very special way to our Pastor Rev. Dr. Jaerock Lee for having this vision in his heart. I felt very honored working for extending this ministry in all Latinoamerica, and I will continue doing it with love.

We have been witness of the power of God, healing people all over the world and changing the mind of many doctors who are believing in divine healing today.

**Congratulations**  
on the opening of church

Blessings to all in the Name of The Lord  
 We thank God for all his love and mercy for me and my family, and for his amazing love for this land Mexico.

The Lord gave us the blessing of start a church at home in the month of June, 2014 and Today we praise his name because we have the opportunity to share his love and proclaim his word of salvation among the families in Toluca.

Our country in facing many social problems, but the church of Christ is having a great revival and the Spirit of the Lord is touching many hearts in these times. We thank the Lord for having the privilege of open our hearts as pastors and our home to proclaim the gospel of Jesus Christ.

Today the Lord has strengthen some families inside the church, and we are working together to reach the lost for Christ, preaching in the houses, the streets and many hospitals and praying for the sick and bringing freedom to those who have been living in jails of sin and death, loneliness and depression.

Today we praise the Lord with open hearts, and I remember very well the day that my family attended Danie's prayer meeting in Manmin Church, that day the Lord opened my eyes to start doing the same here in Mexico. Today in the church we have prayers meetings, where the Lord has strengthen out hearts with his love and power.

I bless the Lord for the life of Rev. Dr. Jaerock Lee (Founder & Board Chairman of WCDN) who has taught us through his books and sermons to love the souls and his teachings are a great blessing not only for this church but also for many people around the world.

We want to continue learning and we really love the way the dancers in Manmin Church praise and worship the Lord, we pray one day the Lord allows us to have dancers here and learn from all of you.

With love in Christ  
 Pastor Dr. Daniel Fuentes and Family

**Congratulations!**

Gaby Fuentes, Administrator of Organizing Committee WCDN Conference Mexico 2013, completed the course of Haggai Institute in April, 2014.

## Malaysia

### Visit Australia

Dr. Daniel Thuraiappah

Chairman of Organizing Committee WCDN Conference Malaysia 2015  
President of Academy of Family Physicians Malaysia

Dr Daniel Thuraiappah, Chairman of Malaysia conference, was not able to visit and celebrate the 32nd Anniversary of Manmin Central Church which Rev. Dr Jaeroek Lee, Founder of WCDN is ministering, Seoul, Korea. Because he had a schedule to attend an important event held in Adelaide, Australia at the same time. But he had also wonderful time and met WCDN members Dr Mieke Kuiper, Dr Irene Jacovou, Dr Ankie Campher, three beautiful people in the Lord in Brisbane in Queensland Australia. It is such a beautiful place with the coastline and many village holiday resorts. They talked on witnessing and testimonies and they encouraged one another during a long lunch break. They come from different cultures and yet they are one in the Lord. They are health professionals and they shared one Lord and one Saviour. They will bring cases of miraculous healing.

Visit Manmin Central Church

Rev. Justin Clarence, Pastor Job Manikkam, organizing committee members of WCDN Conference Malaysia 2015, visited Manmin Central Church and attended the 32th Church Anniversary and met Rev. Dr. Jaerock Lee and had a meeting with WCDN HQ for the upcoming conference to be held in May, 2015 and had a great time.

Meeting with Founder of WCDN

## Sweden

Dr. Johan Semby

Ophthalmologist  
Chairman of CMDA Sweden

### WCDN Members prayed together for her

I asked members of WCDN who attended the Bulgaria conference in May this year for the former leader for CMDA SWEDEN – Annika Landgren – one of the foremost Christian doctors in Sweden. A mother of three good Christian children with a husband that is one of the most foremost Christian politicians in Sweden. Half a year ago she was diagnosed with a motor-neuron disease that are incurable. We do hope she gets better.

Dr. Johan Semby, Chairman of CMDA Sweden, visited Manmin Central Church which has a WCDN HQ and met Rev. Dr. Jaerock Lee

Reflecting the mood of the 50th ICMDA World Congress this summer in Rotterdam, Netherlands

Psalm 133 "Look how good and how pleasant it is when brothers live together in unity!"

Dear friend

It is an amazing grace to hear the sweet sound of doctors, dentists and students from all over the world unite in songs and praise to our creator and God. To hear the Holy Spirit inspiring us through voices from all the continents of the world as almost 1000 doctors dentist students and friends representing 80 nations joined as one. For me, as a child born in the east and raised in the west, enjoying the rhythm of Africa and the warm temperament

of South and Latin America, it was special to be given the opportunity to sing for everyone "How great thou art" and "Arirang" in both my Swedish and Korean mother tongues. I am thankful to be part of the International Christian Medical and Dental Association (ICMDA). Please enjoy the pictures included reflecting the mood of the 50th ICMDA World Congress in Rotterdam this summer.

Glory to God  
To our Lord and Saviour Jesus the Christ  
And the Holy Spirit.  
Amen

**2014 Annual Medical  
Conference in Ukraine**

Dear Friend  
Is peace possible among man?

Seeing the situation in Ukraine, Iraq, Israel and Syria. Seeing the situation among Kurds and Palestinians. Seeing the situation among the Ebola stricken West African nations.

Is it possible for man from such nations in war, suffering and conflict to meet as friends?

As one of the main speakers at the 5th International Christian Medical Students Conference in Odessa in Ukraine, less than an hour's flight from the war in the east where people still die every day despite the size fire, I got the honour to see beautiful meetings between people whose nations are at war.

One professor who brought 140 medical students to the conference, 40 of them Muslims from Iraq, told me that she had medical students that lost their lives in the war of eastern Ukraine. One medical student told me that he had to flee the war in the east while his family had to flee under the war in Iraq.

Based on the Love of Christ I have had master classes and lectures in ophthalmology and "how to share your faith in a respectful way" with medical students from Muslim, Christian and Hindu background. Many talks, some of them deep and personal has come out of this. Hearing the suffering and hard ship from African nations, the Middle East and the former Soviet Union states

can be heart breaking. A suffering, that shows that man without a loving God is lost.

Unlike the secular west, people from all these nations wish to be blessed by God. My main message has therefore been. "If you want to be blessed by God, you must bless others". The loving and caring atmosphere created by speakers and the medical students from Odessa, that organized the meeting, literally exploded in dancing, rejoicing and singing among the great international crowd the last evening. Is peace possible?

Yes it is - when we let the love of God shine through

Sincerely in Christ

## Three Gifts Offered to Jesus by Three Magi

# Gold, Frankincense, and Myrrh

On Christmas, we rejoice with and celebrate the birth of Jesus who came down to this earth as the Savior of mankind.

But many people consider Christmas as just another holiday or a day of 'Santa Claus' without understanding the true meaning of Christmas.

If even believers unconsciously follow this trend of the world, how painful it would be for God the Father!

Jesus was originally the Son of God, but He abandoned all the heavenly glories and came down to this earth in a human form. Before he was born, the three magi had made note of it and prepared three gifts to celebrate His birth. Under the supervision of God, the three magi followed a very brightly shining star that guided them to Bethlehem where they worshiped the baby Jesus and offered Him the three gifts—gold, frankincense, and myrrh—on behalf of all men.

Let's look into the spiritual meanings of the three gifts and commemorate the blessings God has given us on this Christmas.

### *The First Gift of Gold, 'the Heart'*

Pure gold is one of the most valuable of all minerals. People love it the most of all metals on the earth. It is considered to be 'forever unchangeable'. It is the very symbol of riches and wealth. As recorded in Matthew 6:21, ". . . for where your treasure is, there your heart will be also," gold also refers to our heart. So, 'giving gold to the Lord' means we have to give everything we have to the Lord.

God was pleased when gold was offered to the baby Jesus. He rewards us with heavenly mansions built with gold and various jewels. Anyone who believes and accepts Jesus Christ as his Savior possesses the kingdom of heaven in his heart and is blessed to enjoy eternal life in Heaven forever.

Therefore, the kingdom of Heaven is in the heart of true believers in the Lord. God allows for the believers to hope for Heaven in their hearts. They cannot accomplish the kingdom of heaven without the hope for Heaven. On the other hand, to the same extent that they lack hope for Heaven, they will be unable to accomplish the kingdom of Heaven in their hearts.

### *The Second Gift of Frankincense, the Fragrance of the Christ*

Frankincense is an aromatic resin obtained from trees of the genus *Boswellia*, particularly *Boswellia Sacra*.

It is also known as olibanum (Hebrew: **הַנְּבִיל**, levonah), which is derived

from the Arabic al-lubʿn (roughly translated: ‘that which results from milking’). It is a reference to the milky sap tapped from the Boswellia tree. It is also postulated that the name comes from the Arabic term for “Oil of Lebanon” and in Exodus 30:34, it is named levonah, meaning either “white” or “Lebanese” in Hebrew. It is used in incense and perfumes. Exodus 30:34 says it was an ingredient for incense.

The giving of the frankincense spiritually means the spreading the fragrance of the Christ through the circumcision of the heart.

When we spray perfumes, it removes foul odor and sends forth a good fragrance. In the same way, when we remove all forms of evil and glorify God with good deeds, we can spread the fragrance of Christ. This is represented by the offering of frankincense to the Lord. God doesn’t search for only our deeds but also sees our heart.

He first receives good aroma from our hearts.

That’s why those who really love God and understand this heart of God do their best to get rid of every form of evil and circumcise their hearts. Those who spread the fragrance of Christ by circumcising their hearts, namely those who give the Lord frankincense, can give everything they have to the Lord and do not spare even their lives for Him.

Then, their souls will prosper. They will be successful in everything they do and they will enjoy good health (3 John 1:2).

In the same way that many blessings of God are given to those who ‘give gold’ to the Lord by giving Him everything they have, God also gives blessing in accordance with what a person has done. God is well pleased and He gives overflowing blessings to those who have circumcised their hearts and spread the fragrance of Christ.

### ***The Third Gift of Myrrh, Unchanging Faith***

Myrrh is the dried oleo gum resin of a number of species of trees, *Commiphora*.

Like frankincense, it is produced by the tree as a reaction to a purposefully inflicted wound through the bark and into the sapwood. The trees are bled in this way on a regular basis. Its name is rendered into English from the Greek myth of Myrrha ‘μύρρα’ from Greek. The related word became a general term for perfume.

However, the term ultimately derives its name from the Aramaic word ‘murr’ which meaning “bitter.” Since ancient times, myrrh has been valued for its fragrance, its medicinal qualities as a wound dressing and an aromatic numbing agent. The ancient Egyptians used it as the principal ingredient in the embalming of ‘mummies.’ In ancient history it has been so valuable at times that it has been equal in value to its weight in gold. During times of scarcity its value rose even higher. It has been used throughout history as a perfume, incense and in medicines. Jews used myrrh at the funeral ceremony as the embalment to preserve the dead body (John 19:39-40). In a spiritual sense, giving myrrh to the Lord means we have to give the Lord what does not perish, but lasts forever. It is none other than unchanging faith.

The believers in the Lord must be able to surrender everything they have, even their lives, to the Lord.

They must dedicate themselves to Him unchangingly.

Because some forms of evil that remain in you may cause you to seek your own benefits and cause you to change your mind, you must possess unchanging faith and you have to cast off every form of evil above all else.

God was delighted when myrrh was offered to the baby Jesus, and He gave us a life that lasts forever—eternal life. We were all originally doomed to fall into Hell. But, when we possess unchanging, spiritual faith we will be able to put on the imperishable and renewed body at the second coming of our Lord Jesus Christ.

On this happy Christmas, all men are expected to sincerely feel the love of God the Father, our Lord Jesus Christ and our Helper the Holy Spirit. We should commemorate Christmas with the spiritual meanings embedded in the three gifts of gold, frankincense and myrrh and present them to the Lord as true gifts.
