# The Lamb of God

The next day he saw Jesus coming to him and said,  
'Behold, the Lamb of God  
who takes away the sin of the world!  
John 1:29

Some churches call newcomers 'lambs',  
but we can see that the 'Lamb' refers only to Jesus in the Bible.  
Among many animals on the earth,  
a lamb is an animal that resembles Jesus the most.  
A lamb is meek and gentle.  
It doesn't hurt others nor resists even when its wool is shaved.  
All it has -its wool, milk, and even its flesh- is sacrificed in silence for men.  
Likewise, Jesus gave His life on the cross to redeem us from our sins  
and opened the way of salvation wide for mankind.

## COVER STORY

### Petronas Twin Towers

The twin towers, a landmark of Kuala Lumpur were established in 1998, with a height of 452 meters (88 floors). They were recognized as the tallest building in the world at that time, and in 2014 were ranked as the sixth tallest one and still remain the tallest twin towers in the world.

With the twin towers designed by Mr. Cesar Pelli, an Argentine American architect, Tower-1 was constructed by Japan while Tower-2 and the skybridge connecting the two towers were constructed by Korea.

Rejoice always; pray without ceasing; in everything give thanks;  
for this is God's will for you in Christ Jesus

1 Thessalonians 5:16-18

---

We can see that some believers receive love from God, experience His grace, and receive many blessings in their everyday lives while other believers, though they seemingly try hard, suffer from hardships or persecutions and live difficult lives. So, where does this difference come from? It depends on the extent to which they understand God's will and obey it. Then, what is His will toward His beloved children?

Rev. Dr.  
**Jaerock Lee**

Founder and Board Chairman of WCDN  
Senior Pastor of Manmin Central Church

## First God's will is that we should rejoice always

We can rejoice always if we believe that God is the One who created the heavens and the earth and all things in them, that it is He who controls human history, and He is also our Father.

We were destined to go to Hell due to sins, but we have been saved through Jesus Christ and have become God's children. Now we can go to Heaven, so how can we not rejoice?

Some people might say they are in a situation where they cannot rejoice at all because they have diseases, family problems, or financial problems. But if we rejoice only when we have something joyful and if we do not rejoice when we have tests, trials, or problems, then aren't we the same as non-believers?

For non-believers, their whole purpose of life is on this earth. Because they do not know the spiritual realm, they rejoice only when there is something joyful. At other times, they just live in the concerns, worries, sorrow, and pain. Because they don't know there is Heaven and Hell after death, they just follow the lust of the flesh, lust of the eyes, and the pride of this life in an attempt to enjoy their lives, which is only for 70 or 80 years.

But, by believing in Jesus Christ they are saved and become God's children. They have hope for Heaven, so they can rejoice not only when there is something good but also in the midst of tests, trials, or pains. After

they experience the relativity of things in this world, they enjoy glory and happiness forever in the eternal kingdom of heaven. They can also rejoice even in trials if they believe that even those trials are allowed by God so that they can receive even better heavenly dwelling places and even greater glory.

## Secondly It is God's will that we pray without ceasing

### 1) We have to make it a habit to pray.

Some people pray only when they feel like it or they have a problem. Some others pray only when they are in a good mood or when there is something to be thankful for. But we have to make it a habit and pray all the time like the Lord did. Many biblical figures made it a rule to pray.

Right after accepting Jesus Christ, you might not know how to pray, and feel it is difficult to pray. But as you continuously learn God's Word and keep on praying, your spirit will grow up and prosper, so that you will be able to pray powerfully.

When God's children, who were born again of the Holy Spirit, cease to pray, at first they might not feel the difference so much. But as time passes, they feel increasingly more afflicted in their hearts. Just as we will die if we do not breathe, if we do not pray for a long time, our spirit also has no choice but to die. One of the main reasons tests and trials come upon believers is because they cease to pray. As we fill up the

measure of prayer by following our habit of praying, we will be able to keep the Spirit's fullness and receive the strength to live in God's Word. Then, we can always be protected by God.

### 2) To pray without ceasing is to pray at all times in the Spirit.

Sometimes the Holy Spirit urges our hearts to pray other than our designated prayer time. If we obey and pray at these moments, we might experience something special, for instance, avoiding a big problem or an accident.

To pray at all times in the Spirit is to be guided by the Holy Spirit all the time with a prayerful heart. When the Holy Spirit speaks to us and urges our heart, we can hear His voice and obey the urging only when we are awake with a prayerful heart. We can be sensitively receptive to the Holy Spirit's works only when we pray being on the alert.

### 3) To pray without ceasing is to meditate on God's Word day and night.

The word of the truth must be active all the time in our heart no matter where we are, what we are doing, or

who we are with. Some believers seem to be crying out in prayer, but as they go back to the world, they live in their old ways of living without any change. No matter how long we pray, if we live in fleshly thoughts and untruths, we cannot be considered to have prayed with our heart. If we pray without ceasing and with all our heart, God's Word will always dwell in our heart. Then, we can be guided by the Holy Spirit at all times. When we do this, our lives will change; we will be able to cast away evil and become holy, and will be guided to the way of prosperity.

On the contrary, if we cease to pray and lose the fullness of the Holy Spirit, thereby being unable to receive the Holy Spirit's guidance, then the fleshly thoughts will lead us. Then, we will not be able to live by God's will, and we will suffer from hardships. We then tend to put our own will ahead of God's will, we might even end up being caught in the traps of Satan. The enemy devil always tries to take away our faith so we won't go to Heaven. They are searching for someone to devour like a roaring lion, and we can drive it away only when we pray without ceasing. For this reason God tells us to pray unceasingly, and even says it is sin to cease to pray (1 Samuel 12:23).

### Thirdly God's will is that we give thanks in everything

If we can always rejoice and pray without ceasing, we will have many conditions of thanksgiving in our lives. Although we do not have visible and tangible things to give thanks for, we can still give thanks in everything if we rejoice always and pray without ceasing. It's because we have already received such great grace and deep love of God that even if we give thanks all the time for the rest of our lives we cannot repay Him for it.

We were forgiven of our sins and have gained eternal life through the saving grace of Jesus Christ. We have received the right to become God's children and have the hope of Heaven. If we understand this secret of salvation, how can we not give thanks in everything as children of God?

By the way, to give thanks in everything is not just giving thanks for good things but even in the midst of hardships. Anyone can give thanks when there are things to give thanks for.

If we give thanks with faith even in a situation where we cannot really give thanks, God accepts such faith joyfully and gives us blessing, so that all things will

work out for the best (Romans 8:28). Thanksgiving has such wonderful power to change any kind of circumstances or situation.

The same principle applies to growth of faith. God is leading each of us in the best way for us individually. He sometimes allows trials and unfolds before us the procedures that are required for our spiritual growth. At those times, depending on how thankful we are in each situation, our growth of faith will also be different. If you think like, "Why has my faith increased only a little?", then it is proof that you are not thankful. Therefore, I hope you will give thanks in all circumstances by seeing everything with faith.

Dear brothers and sisters in Christ, faith without works is dead, and faith is perfected by the works. I urge you to check yourself based on the passage "Rejoice always; pray without ceasing; in everything give thanks." I hope you will obey God's will by clearly understanding it. I pray in the name of the Lord in doing so you will receive God's blessing and answers as well as gain His love and recognition.

CONFERENCES

# The 12th WCDN International Conference Malaysia 2015

---

The 12th WCDN International Conference  
Malaysia 2015

This 2-day conference was attended by 350 medical doctors and medical professionals from 31 countries around the world, including the United States, Spain, Italy, Norway, Bulgaria, and Mexico.

The conference began with the welcoming message of the organizing committee chairman Prof. Datuk Dr. Daniel. M. Thuraiappah, which was followed by the welcoming video message of Rev. Dr. Jaerock Lee, who said, “This conference was held so that more people would meet and experience God and they would live with true hope by accepting Jesus Christ. They will be given an opportunity to feel the power of spirituality.”

There were presentations of 9 separate divine healing cases, which had been medically verified, which were cases of: Acute Left Ventricular Failure with Pulmonary Edema, Nasolacrimal Duct Obstruction, Forming of Double-edged Eyelids, Visual Impairment: Choroidal Neovascularization, Extermination of Ebola Virus Disease in DR Congo, Bipolar II, Oppositional Defiant, and Phonologic Disorders, 95% Brain Injury, From death to Life, from debt to debt free: Mesenteric Thrombosis, and Neonatal Cerebral Infarction.

One of the most impressive cases was the case presentation of extermination of Ebola Virus Disease in DR Congo, which took place right after Rev. Jaerock Lee prayed for this upon the prayer request of a province governor of that country. Many attendants applauded to give glory to God after this presentation.

There were also special lectures: “My personal Journey of believing that God can heal supernaturally” of Rev. Dr. Chew Weng Chee of Malaysia; “The Power of God the Creator” of Dr. Alvin J. Hwang, the vice president of WCDN, which talked about God’s power that not only heals diseases but also controls the weather conditions; and “Spiritual Roots of Disease” of Dr. Frans J. Cronje of South Africa.

There was a testimony of a believer, too. Lim Siow Lim Shery gave her testimony of getting her breast cancer healed by relying on God.

They also had a special spiritual meeting in this conference. Pastor Heesun Lee, an assistant pastor of Manmin Central Church led the “Miracle Healing Prayer Meeting” on the first day of the conference, and gave a special lecture under the title “Measure of Faith” on the second day. Many attendants witnessed the power of God directly at the meeting. Through the prayer of Pastor Heesun Lee with a handkerchief (Acts 19:11-12), various kinds of pains were gone and those couldn’t walk came to walk. Especially, Dr. Timothy Sng of Malaysia received the prayer on behalf of his patient who was at the state of brain dead due to encephalomeningitis, and this patient miraculously recovered. The next, 13th conference will be held in Spain in 2016.

# Ebola Virus Disease

## Power that Transcends Time & Space

- President of WCDN Headquarters
- General Surgeon
- Assistant Prof, Medical College Kwandong University
- President of Yonsei Jaeil Clinic

**Dr. Gilbert Chae**  
Korea

Ebola virus disease (EVD) first appeared in 1976 in 2 simultaneous outbreaks, one in Nzara, Sudan, and the other in Yambuku, Democratic Republic of Congo. The latter occurred in a village near the Ebola River, from which the disease takes its name. Between 1976 and 2013, the World Health Organization reports a total of 24 outbreaks involving 1,716 cases. The largest outbreak is the ongoing epidemic in West Africa centered in Guinea, Sierra Leone and Liberia in 2014. As of 8 April 2015, this outbreak has 25,591 reported cases resulting in 10,602 deaths. EVD has a high risk of death in those infected which varies between 50 percent and 90 percent of those infected. As of September 2014, the average risk of death among those infected is 50 percent. The highest risk of death was 90 percent in the 2002–2003 Republic of the Congo outbreak.

DR Congo especially is the country that first saw the outbreak of Ebola virus, and there have been 7 EVD outbreaks until 2014 in DR Congo. We wouldn't be able to imagine the magnitude of their fear of this disease..

It is thought that fruit bats of the Pteropodidae family are natural Ebola virus hosts. Ebola is introduced into the human population through close contact with the blood, secretions, organs or other bodily fluids of infected animals such as chimpanzees, gorillas, fruit bats, monkeys, forest antelope and porcupines found ill or dead or in the rainforest.

Ebola virus, once it is introduced in human body, destroys Natural killer cells and decreases the level of immunity. It increases permeability of the veins by destroying endothelium, causing edema and shock. It destroys the liver cells, restraining the production of blood coagulation factors. This can cause hemorrhage and shock, which then leads to death. First symptoms are the sudden onset of fever, fatigue, muscle pain, headache and sore throat. This is followed by vomiting, diarrhea, rash, symptoms of impaired kidney and liver function, and in some cases, both internal and external bleeding (e.g. oozing from the gums, blood in the stools).

The infographic is titled "TRANSMISSION" and "EBOLA THE FACTS". It details the transmission cycle of Ebola virus. It identifies the "Primary host" as the "Fruit bat" and "Secondary hosts" as "Gorillas", "Chimpanzees", "Antelopes", and "Pigs". It explains that in Africa, a particular species of fruit bat is considered to be the possible host for Ebola virus. The transmission process is shown in two steps: 1. "Humans are infected by close contact with the blood, secretions, organs or other body fluids of infected animals." 2. "Ebola then spreads through humans to human transmission, with infection resulting from direct contact through broken skin or mucous or other body fluids of infected people." The infographic includes four photographs: a close-up of a fruit bat's face, a person in a protective suit, a person in a protective suit handling a body, and a bowl of fruit.

The specific diagnosis of EVD is confirmed by isolating the virus, detecting its RNA or proteins, or detecting antibodies against the virus in a person's blood. For treatment, there is as yet no known effective medication or vaccine.

Let me introduce to you a testimony of Sebastien Impeto Pengo, the governor of Equateur State, regarding a recent outbreak of Ebola in DR Congo in 2014..

In Boende District in Equatorial Province of DR Congo, On August 11, 2014, a woman living in Ikanamongo Village that lies about 1,200km from the northern capital of Kinshasa died of ebola like symptoms, although she was treated in a private clinic. Subsequent laboratory finding/ showed that the cause of death was EVD. Doctors without Borders were dispatched,/ and WHO also took their measures. On August 18, 13 people including medical professionals died of Ebola-like symptoms. On August 26, the minister of public health of the Equatorial Province reported to the WHO that there was an outbreak of EVD. On September 2, the WHO said that there were currently 31 deaths in the Northern Boende area in the province of Equateur and 53 confirmed. As of 26 September, there had been 66 cases reported. In total, 49 deaths had been reported, including eight among health care workers. The President Joseph Kabila ordered the governor of the Province to stop the outbreak.

But of course there was practically nothing that the governor could do. But as a member of Congo

Manmin Church, he had witnessed many signs and wonders taking place through the prayer of Rev. Jaerock Lee. He felt that the EVD would be gone away once he asked Rev. Jaerock Lee to pray for the situation. And he wrote a letter to him and he asked Rev. Lee to pray to stop the outbreak.

After Rev. Jaerock Lee received his request and prayed, there were no more reports of the infected or dead. For 42 days since the last case of infection (incubation period is 20 days), there has been no more case of infection, and DR Congo reported to WHO that the outbreak was in control. It was God's work transcending time and space.

It's not easy to clinically cure one patient completely, but so many citizens were protected and the outbreak disappeared. From the Bible, we can see many accounts of this kind of miraculous work that transcends time and space. In Matthew 8:8 we read about a centurion who came before Jesus asking Him to heal one of his servants. By the command of Jesus, the servant at the house of the centurion was healed completely.

Another example of the power that transcends time and space is found in Mark 7:29-30, we read about a Syro-Phoenician woman who asked Jesus to heal her demon-possessed daughter. Just by the command of Jesus, her daughter who was at the house at the moment was healed immediately. I'd like to say that if only we have faith such works that transcend time and space can also take place today. I give all thanks and glory to God. I'd like to extend my thanks to Rev. Jaerock Lee for his prayers, too.

---

## Forming of Double-edged Eyelids

### Power of Recreation

---

A Korean saying goes “Eyes are the windows of the heart.” Eyes play a key role in making the overall impression of a person. Double fold eyelids are formed when the levator palpebrae superioris muscle transform into levator aponeurosis and sticks to palpebral skin. For most Orientals, levator aponeurosis is not formed and thus they don't have the double fold eyelids. But in Manmin Central Church, there are many cases of people who came to have double fold eyelids by the power of God manifested through the senior pastor Rev. Jaerock Lee, and let me introduce just a couple of cases.

The first case is a sister who is 23 years old. She is a member of a dancing team in the church, and she had to spend a lot of time whenever she was making up for performances, trying to make double fold eyelids. Obviously she thought it'd be good to have double fold eyelids. One day she shook hands with Rev. Jaerock Lee having this hope in her mind, and after shaking hands, she came to have very strong feeling that she was going to get double fold eyelids. So, she put her hands on her eyes and prayed. At that moment she felt like a line was being drawn on her eyelids, and as soon as she finished her prayer, when she opened her eyes, she found out that there

were double eyelids. She just trusted the power of God manifested through her senior pastor, and God answered her desire.

The second case is a senior deaconess who is 46 years old. She attended the summer retreat of Manmin Central Church in 2014, and on the first day, after listening to the message and receiving the prayer, double fold eyelids were formed. While receiving the prayer she repented with hot tears about having hatred and resentment against her mother, and she felt the fire of the Holy Spirit. She had small eyes and she had always wanted double fold eyelids, so she received the prayer having that wish in her heart. After the retreat was over, when she was washing her face at home in the morning, she knew she had double fold eyelids. she was surprised that double eyelids were formed beautifully on both of her eyes. Hallelujah!

The third case is a 29-year-old sister. She doesn't have the double-edged eyelids in the photo that was taken when she was 25. She prayed with faith that she wanted to have double fold eyelids and sprayed Muan sweet water on her eyes. Then she got them. This Muan sweet water comes from a place 355km

---

away from Seoul. It's an island. There is a branch church of Manmin there. But they had a problem, which is they didn't have any drinking water on that location. They dug a well there, but it only produced bitter sea water. However, they didn't get frustrated. Because they had believed the wonders of Marah which was written in Exodus 15: 23~25. So, the members there began to pray and fast with faith that this bitter water would become potable water, and they asked Rev. Jaerock Lee to pray to change the water into sweet water. Later, on March 5, 2000, Rev. Lee prayed for this well while he was in Seoul through a live satellite feed during the overnight service and as soon as he finished praying, a miracle of God took place. The bitter water turned sweet and became drinkable. As we can see in the photo, many people enjoy drinking the water. Many people get healed or receive their hearts' desires through this water. For some of them their spiritual eyes were opened and they saw the spiritual realm.

For double eyelids to be formed, the levator aponeurosis has to be formed and it stick to the skin, but such a work took place by the power of re-creation through Rev. Jaerock Lee. We can find an example of the power of re-creation in the Bible.

Ezekiel chapter 37 is a record of dry bones getting tendons, muscles, and skin and becoming a great army through Ezekiel's prayer. In the case of the dry bones in Ezekiel, their flesh were all gone.

To live again, they need new tendons, muscles, and skin. This can be done only through the power of re-creation. Another example of a miracle of recreation is found in John 11:43~44.

This is a record of Lazarus who had been dead for 4 days but came out alive, with his hands and feet bound with wrappings, when Jesus commanded him to come out.

Because he was dead for four days. His flesh is already decomposing if he was raised again, his flesh should be restored. However, Jesus commanded him to come out, the power of re-creation came upon him and His flesh were restored.

Because all the people who gave their testimonies above believed in the power of recreation of God and they trusted the power of Rev. Jaerock Lee they all received their desires.

If we possess spiritual faith, we can also experience such power of re-creation even today. Because Jesus Christ is the same yesterday, today, and forever.

I hope all of you will also gain this kind of faith through these testimonies.

---

## The Power of God the Creator

---

- Vice President of WCDN Headquarters
- Neurophysiologist
- Prof, Science & Spirituality, Alliance Holiness Theological Seminary, Seoul

### Dr. Alvin J. Hwang

Korea

How much do you think God can do for you?

Is He really almighty?

He truly can do anything for you?

### Hudson Taylor and George Mueller

In July last year, I had a great time in Maui, Hawaii. I really enjoyed excellent teachings of brilliant facilitators at Haggai Institute. Yes, His LAST commandment should be our FIRST concern. Among the facilitators was Mr. George Zachariah. He is Chief Financial Officer of Haggai. He lectured on 'Setting and achieving goals for evangelizing.' It was very impressive. One morning there, he preached at a morning devotion. He quoted Hebrews 11:1. "Now faith is the substance(confidence) of things hoped for, the evidence(conviction) of things not seen." And he introduced 2 examples.

One was from **Hudson Taylor**. Hudson Taylor was the man who made the difference for China. For the gospel in China, he was just like William Carry did it in India. Hudson Taylor was a humble man of

God, powerfully driven by the challenges to make the difference in China. He motivated the formation of the inland China mission and took a lot of (over 800) missionaries into China. At that time China was not hospitable at all. And then Mao's communist revolution came and wiped out every religion in China. But when the revolution was over, Chinese government started to make it easier for people to declare their faith. And the world discovered, to their surprise, 44 million Christians in China. The seeds were sown by the powerful man of God.

In his initial journey to China in the year 1854, Hudson Taylor was in a sailing ship. The ship was passing through several islands before reaching China. Among them was a notorious island. It was filled with cannibals, people who ate flesh. The reefs of the island were so nasty that any ship that came in got stuck and was destroyed. Just as the ship sailing was passing through this place, the wind suddenly stopped. No more wind. The current was carrying the ship rapidly towards the reefs. The captain was really afraid. They did their best, but only without success. On the shores of the island, cannibals were rushing about and lighting fires in great glee. What would you do if you are in this situation? Hudson Talyor said to the captain, "Let's pray to the Lord to give us winds." After prayer, Hudson Talyor was so confident that he said to an officer to let down the sail so that they can receive the winds the Lord is going to send. But the officer said, "No, no, no. If the winds come, then I'll put it down. I'll put down the sail after the winds come." But Hudson Taylor insisted. Finally the officer relented and let the

sails down. And sure enough, the **winds had come!** In a very few minutes they were out of danger. "Faith is the substance of things hoped for."

The second example. **George Mueller** (1805-1898) clothed, sheltered and educated 10,000 orphans without asking for a shilling. He was a very famous man known as a man of great faith & prayer. When he had any problem, he submitted it to the Lord. And the Lord answered miraculously. There is a simple example. Mueller was on a ship that was bound for Quebec. He had a preaching appointment in Quebec. But the ship ran into a very deep fog. Then Mueller went to the captain to inform him of his need to be in Quebec on time. But the captain said, "It is impossible." Then Mueller said, "I have never broken an appointment in fifty seven years. Let's go down to the chart-room and pray!" The captain looked at him and thought to himself, "What mental hospital could this man have come from? Can he not see the dense fog that is there?" But Mueller already got down on his knees and prayed. When he finished prayer, the captain was going to pray but Mueller told the captain not to pray. "First, you do not believe He will. Second, I believe He has. I have known my Lord for forty-seven years, and there has never been a single day that I have failed to gain an audience with the King. Open the door, and you will find the fog is gone." When he opened the door, the **fog was gone!** Faith is the evidence of things that are not seen.

George Zachariah said, when you want something good for the Lord, there may be obstacles or challenges, which sometimes may seem to be insurmountable. But just trust in the Lord to understand what faith is. We are called to be a people of faith.

### **Jesus and Elijah**

According to Matthew chapter 8, A furious storm, a great tempest, came up on the sea Galilee when **Jesus** and his disciples were on a ship. The waves swept over

the boat. But Jesus was sleeping. The disciples woke Jesus, saying, "Lord, save us! We're going to drown! we perish!" Then what was Jesus' reply? "You of little faith, why are you so afraid?" And what did he do? He got up and rebuked the winds and the waves, and it became completely calm. The men were amazed and asked, "What kind of man is this? Even the winds and the waves obey him! The sea obeys him!"

Not only Jesus but also **Elijah**. "The effectual fervent prayer of a righteous man is powerful & effective. Elijah prayed earnestly that it would not rain, and it did not rain for three and a half years. Again he prayed, and the heavens gave rain."(James 5:16-18)

### **Power and Sanctification**

Bernard Harnik, psychologist, child and family psychotherapist, Zurich, Switzerland, who was ICMDA(International Christian Medical and Dental Association) vice-president from 1978 to 1994 said at the first ICCP(International Congress of Christian Physicians) in Amsterdam, Netherlands in 1963, "The task of the Christian doctor consists first of all in being a Christian, that is, in working by the **power** of the Holy Spirit. To this end he must ever seek the **sanctification** of his own life so that he may be God's instrument as the counsellor, helper, prophet or priest of his patients. His missionary activity among unbelieving patients can only be fruitful as he is led by the Holy Spirit."

### **The Powerful Man of God**

In the **Philippines** in 2001 from September 27 through 29, an outdoor revival meeting was determined to be held at Luneta Park in Manila. The speaker was Rev. Dr. Jaerock Lee, the founder of WCDN. But the Philippines is in **typhoon** season from July to October. It rains many times a day. Dr. Lee arrived at Manila international airport at about 11:00 p.m. night, September 24, 2001, just 2 days before the

# CONFERENCES

1)

2)

3)

4)

event. Because of the influence of a typhoon, there were strong winds and some rain. A press conference was held in Manila hotel immediately upon arrival.<sup>1)</sup> The reporters seemed to be most interested in the direction of the typhoon. The reporters asked, "We have been under the influence of typhoons. Can you have really an outdoor revival meeting?" Then Dr Lee boldly proclaimed, "There will be no rain during the revival meeting and the typhoon will disappear because Almighty God is with us. Please do not worry. You will see it. Please watch how God control even the weather." But the reporters seemed not to believe him. Dr. Lee's faith was not shaken in any situation because he loves God the Father and the Lord Jesus Christ to the utmost degree, and he is loved by God greatly as well.

Typhoon Nari, known in the Philippines as Typhoon Kiko, originally started just off the east coast of the Philippines in early September.<sup>2)</sup> Nari was reported as an unusually long-lived category 3 typhoon which took an erratic, two week track.<sup>3,4)</sup> Nari started near the Philippines but never returned to the Philippines. It seemed that the typhoon had met with a strong wall(barrier). It was not a small battle. Even BBC and CNN continued to report the typhoon with much attention.<sup>5,6)</sup>

hat Dr. Lee arrived in Manila on Sept. 24 night. And very interestingly, another typhoon had approached the Philippines just after typhoon Nari subsided. The new typhoon was actually hovering very near the

Philippines just when Dr. Lee was speaking at the press conference on Sept. 24 night. But around 2:00 am on Sept. 25 just after the press conference of Dr. Lee, the typhoon suddenly changed its track. Now the Philippines became freed from its influence, threat, unlike the weather forecast.<sup>7)</sup>

Summer in the Philippines is usually very hot with high humidity. But while we were there we had very clear weather with cool breezes. The local pastors were so happy saying that just by seeing the weather conditions they could be sure that God was with them. And many people were healed during the revival meeting through the strong works of the Holy Spirit.

Now let's go to **America** and the Atlantic Ocean. **Hurricane Irene** was making her way up toward the East Coast of the US on August 26 Friday 2011. Irene had already largely destroyed Bahamas as a Category 3 storm. Though Irene weakened to a Category 2 storm on Aug. 26 Fri. 5 am,<sup>8)</sup> the National Hurricane Center confirmed that Irene could gain plenty of strength before making landfall that weekend. NY City was last hit by the meanest storm in 1985, when Hurricane Gloria caused widespread damage. Hurricane Gloria was a Category 2 storm. Hurricane Irene was still Category 2, and could still easily gather strength before it hits NY on Sunday. So the pastors of Manmin branch churches in NY and New Jersey asked prayer to Rev. Dr. Jaerock Lee in Korea for this emergency. Manmin Central Church in Seoul, Korea has a Friday overnight

5)

6)

7)

8)

9)

10)

service every week filled with the Holy Spirit from 11:00 p.m. Fri. to 4:00 a.m. Sat. During the service Dr. Lee prays for patients nearly at the end. On Aug 27 Sat. around 3:05 a.m. in Korea, i.e. on Aug 26 Fri. 2:05 p.m. in NY, during his prayer for patients, he prayed also for that the hurricane lose power. And very interestingly, just a few minutes before his prayer, at 2:00 p.m. in NY, at the press conference Friday afternoon, NY City's Mayor Michael Bloomberg ordered the city's first-ever, unprecedented mandatory evacuation for all residents living in low-lying areas.<sup>9,10</sup> The worst of the storm was expected Saturday night into Sunday. Michael Bloomberg said, "Irene was a life-threatening storm."<sup>11</sup>

Now what do you think happened after prayer? Irene weakened and weakened! It was downgraded to a Category 1 hurricane on Sat. August 27.<sup>12</sup> It continued to weaken to a not-disastrous tropical storm on Sun. August 28. No more a hurricane. A few more hours later, Irene made its final landfall in Brooklyn, New York City.

Why did Irene slow down from a category 3 storm to a not-disastrous tropical storm so quickly once it made landfall? Without more data, no one can say for sure. The point is, until the storm hit, all the very best data suggested it might have the power to flood large parts of Manhattan.<sup>13</sup>

When hurricane Irene failed to flood Manhattan as predicted over the weekend, many people even called the evacuation an overreaction to media hype. Do you agree with this opinion? I think you know better than that. Now you know that they failed to predict God's supernatural intervention.

Several months before Hurricane Irene in 2011, Dr. Irene Jacovou from WCDN **Australia** sent an email to the WCDN headquarters. Australia is located down under, that means it is in southern hemisphere. January in Australia is summer and rainy season.<sup>14</sup>

Subject: RE: Re : How are you doing ?  
(WCDN Kimberly)

To: wcdnkorea@gmail.com

Dear Kimberly

I would like to ask for prayer for our state of Queensland and in particular our city of Brisbane and surrounding towns are in serious threat with **flooding** of the Brisbane river.

Today people were asked to evacuate from the inner city area as the Brisbane River is overflowing in some areas in the city which they are expecting to be worse in the next 24 hours with a King Tide and release of water from the local dam as it is filled to 193% of capacity. The weather experts are worried that the dam will

11)

12)

13)

14)

## CONFERENCES

overflow into the city.

10 people in a neighbouring city of Toowoomba, 2 hrs away, have died and 75 are missing in the floods.

19,000 people have been forced to leave their homes.

You may be seeing some of the disaster on the news on television.

We would appreciate Dr Jaerock Lee and your church members praying for Brisbane.

Yours in Christ

Irene

Dr Irene Jacovou

WCDN Australia

How humble and faithful people they are in God's eyes! Now I am sure you can predict the result.<sup>15,16)</sup>

In 2013 **Manmin Summer Retreat**, in the evening at 7:30 p.m. Dr. Lee's outdoor seminar was held. Around 7:40 pm, it started to **rain**. And soon large drops of rain began to pour upon the retreat local, but the members believed God's providence and listened to Dr. Lee's message without moving. But it seemed obvious to rain torrentially. Then Dr. Lee prayed saying, "Rain, stop!" and asked God to give them good weather. Just after a little while, the thick black clouds became to be split up and shining stars began to be seen in the clear night sky.<sup>17)</sup> It was still raining nationwide. But only in that retreat place the heavy rain stopped.

But you remember Elijah not only blocked rain through his earnest prayer but also when he prayed the heavens gave rain.

Chennai, **India**, is the place where the apostle Thomas preached the gospel and was martyred. Chennai is one of the largest cities in India. A 4-day revival meeting was decided to be held starting from October 10th 2002 on Marina Beach, the world's second longest beach. But at that time in Chennai, India, they had been in **drought** for the past 3 years. It was one of the most severe drought. They had not had any rain for 9 months. It was a major social problem there. The whole city of Chennai, the capital of Tamil Nadu state, went on a general strike on October 9th against the central government because of water supply problems. The strike was set to paralyse state to condemn the attitude of the Karnataka state Government in not releasing Cauvery river water to the state Tamil Nadu even though it was ordered by the Supreme Court.<sup>18)</sup>

At around 10:00 p.m. on October 8th 2002 (one day before the strike), Dr. Lee arrived at Chennai airport. And it was drizzling! When Dr. Lee got into the car and was leaving the airport, heavy rain began to fall. I said that they had not had any rain for 9 months. People who came out there to welcome him were so happy even though they were getting wet. And then it rained everyday from time to time while he stayed there. So people there even called Dr. Lee 'Rain Man'

15)

16)

17)

saying he brought the rains with him. On the 3rd day of the revival meeting, something unexpected happened. Suddenly there was a strong wind and very heavy rain during the sermon. There was thunder and lightning too. People could not even open their eyes fully because of the pouring rain. Some attendants were becoming uneasy. It seemed they were going to leave. For the past 20 years, God had always given good weather in any kind of his outdoor event. Even the heavy rain used to stop through prayer. So it was his first time to get soaked with rain. But he kept on preaching in this heavy rain, and also prayed for the sick. And all this without even having an umbrella!<sup>19)</sup>

That revival meeting was live broadcast on 4 TV channels as well as on the Internet. So numerous people watched it. They saw the true love of the Christ, and the love of God was deeply engraved in their hearts.

What do you think happened the next day, the last day of the revival meeting? A record-breaking 1.5 million people gathered at Marina Beach. It was like all the sand on the beach turned into people. The police reported to the Tamil Nadu government and the Central Government that more than 3 million people in total gathered over the 4 days period, and they had a peaceful Christian event without any accidents. The local pastors said in harmony that Jesus Christ the only Savior was preached and the word was confirmed by the signs. And surprisingly again, the organizers said

that more than 60% of the attendants were Hindus.<sup>20)</sup>

### God the Creator

Now you can understand that nature obeys God. All the things in nature are absolutely under God's authority because He created nature.

Then before creation in the beginning, what was He like originally? John 1:1 says, "In the beginning was the Word, and the Word was with God, and the Word was God." In 1John 1:5, "God is **Light** and in Him there is no darkness at all." So we may think that God existed as light before the beginning. Then what was the light like? We can think He governed the entire expanse of time and space in the midst of clear, splendid, and beautiful original Light like a rainbow or fantastic auroras as observed in the sky of the polar regions. And also very bright and strong light. In spiritual sense, God is perfect goodness and truth itself that has no sin or evil whatsoever. The members of Manmin Central Church enjoy capturing pictures in and around the church of the aurora-like lights with their cell phone cameras. They captured a variety of fascinating images in colors. Through the aurora-like lights they feel how beautiful the original light of God is, thereby increasing their heavenly hope and faith. They get inspired to long for the beautiful heart of spirit that resembles that of the Lord, and to grow up in faith quickly. The members feel God of love and His eternal spiritual world heaven.

# Acute Left Ventricular Failure with Pulmonary Edema

- General Secretary of WCDN HQ
- Family Physician

**Dr. Brian S. Yeo**  
Korea

Pavel Kalmykov had been operated in 2012 on coronary artery bypass graft surgery, mammary coronary bypass surgery due to coronary artery disease. Pavel was hospitalized on 15th October 2013 because of paroxysmal constricting pains, which occurred during mild physical activities. His condition at that time was moderate.

However on 25th October he suddenly felt worse. He got an acute left ventricular heart failure and a pulmonary edema. He was immediately moved to ICU, where he spent several days under the intensive care. His condition in the meantime became much worse. He was given morphine so that he could sleep all the time. Because of his aggravated condition, his wife was told to be ready for the worst—Pavel’s death.

On the evening of 26th October she told Pavel’s brother (Yuri Kalmykov) who is a pastor in Israel to ask him to pray for Pavel Kalmykov. At the moment Pastor

Soojin Lee, an assistant pastor of Manmin Central Church, who is also a daughter of Rev. Dr. Jae Rock Lee, was in Israel speaking at a handkerchief prayer meeting. So she prayed for Pavel Kalmykov with the handkerchief.

Right after the prayer, on the third day after Pavel was moved to ICU (On the morning of 27th October), he woke up by himself, ate some food and fell asleep again by himself, without the help of morphine. On 30th October Pavel was discharged. Now he is still working on construction site, which is hard labor, especially having his condition. It is a miracle that he can work and live with such diagnosis. He still needs a lot of prayer for his complete healing.

Discharge summary :  
No Pulmonary edema on 30th Oct.

Pulmonary edema on 25th Oct. 2013.

Pastor Soojin Lee prayed for Pavel Kalmykov on 26th Oct. 2013

2015 Pavel Kalmykov and his wife

# From death to Life

## Mesenteric Thrombosis

---

**Dr. Armando Pineda-Velez**

USA

- Director of WCDN USA
- Family Physician
- Anti-Aging & Regenerative Medicine Specialist
- Medical Director at Life Ceutical Medical Group/NexGen Medical Center Boca Raton FL

Jorge had experienced the Resurrection Power of God in Jesus Christ in 2009. He had experienced a sharp/moderate to severe abdominal pain went to the ER twice the same day and he was sent home. The second time he had a massive rectal bleeding, collapsed and was resuscitated at the ER then immediately was taken to the operating room.

A STAT laparotomy was performed. Remained few hours in the OR and finally when he was taken to ICU due to multiple organ failures (Heart, Lungs, Kidney etc) he was in an induced coma and put in an assisted cardiopulmonary devices. He remained in coma for one month with an open abdomen, because the surgical wound was not closed at this time.

At the time of the first surgery his wife was told that he had only 4% chance of getting alive after the coma. And if would get alive he will need to be hooked to ventilators, and hemodialysis will be performed every other day as long as he lived. His wife, their pastor

and “some of the congregation” refused to believe that he will be either dead or in coma state. They started earnestly praying to Jesus. Word of prophecy came to their pastor that Jorge will be restored fully to health. So one month later all the healing process started one by one. Even their finances were healed. Because they decided to believe God the Father in Jesus name than to man and the Devil.

First when he was disconnected he could breathe without any assisting device. His Heart could beat without a pacemaker. He recovered fully his brain functions. Then he received new operations for his intestines and remained with a colostomy. As he refused to believe that he had to have a permanent Colostomy and also that his kidney were dead. He himself with the Church started to ask God for new intestines and new kidneys. Jorge has so strong faith that in front of the Urologist he went to void the doctor was so thrill and amaze that the same day run new Kidney function test, they resulted to be optimal and therefore he ordered the reversal of the AV Fistula. No more Hemo Dialysis.

The Hospital accountant came telling Jorge and his wife that they owe 1 million Dollars to the Hospital and they will have to pay. Jorge’s immediate answer “I do not owe you nothing, Jesus Christ paid in full for me at the Cross” he continued saying these words and it happened.

Jorge is now a Pastor and with a strong faith in the Resurrection Power of God spreads the Gospel of Jesus Christ.

## The Divine Healing of Noa

### Neonatal Cerebral Infarction

---

- Director of WCDN Scandinavia
- General Practitioner
- Member, Foreign Committee & Northwest Alliance Committee in Parliament

#### Dr. Jenis Av Rana

Faroe Islands

Nóa was born on 10.05.2013 at the National Hospital in the Faroe Islands.

Already before birth, his mother was afraid something was wrong with her baby.

#### The start of convulsions.

Few hours after birth convulsions, strong, steady, and repeatedly, started. First in his right leg, then in his right hand and arm and finally in his face.

Doctors gave intravenous phenemal, but it resulted in Nóa getting respiratory arrest periods each lasting 2-3 minutes, so they had to stop.

Because of these repeated breathing problems, which required assisted respiration, they gave intravenous Lidokain and ordered CT scans and lumbal puncture. Furthermore they prepared for emergency baptism-

because they were afraid Nóa was dying.

#### The result scan and diagnosis of the CT.

The CT scan showed that on the left side, temporo-parieto- occipi-talt was a big well-defined homogeneous area with reduced density- all the way to cortex- of appearance as a major infarction.

The scans diagnosis was: Infarctus Cerebri sin.

#### Transportion to Denmark.

The convulsions and respiratory arrest periods went on for hours and it was nessecary to give assisted ventilation.

Doctors told his parents, that if Nóa survived the next hours they would send him to a specialized intensive pediatric unit in Denmark (two hours by airplain). The respirator was made ready.

#### Praying for Nóa.

But first he state church priest at the hospital came to baptize Nóa, this is typically performed when you fear that the child is going to die.

But his parents also called one of their friends who

---

is known for praying for the sick. He had prayed for Nóa's mother 3. months before birth and declared, that her child one day would play football with his father. Nóa's father remembered this promise from the Lord and called this man of God to come and pray for the child.

So after the official baptism this friend put his hand on Nóa and prayed for healing.

#### **Convulsions and apnoe periods stopped.**

After the praying peace fell over the child and the peace filled the room. Many, inclusive nurses, were crying and the Holy Spirit filled the whole room.

The convulsions and apnoe periods stopped and the doctors canceled sending Nóa to Denmark!

Five days later, Nóa left the hospital to his future home in the town of Klaksvik.

#### **Declarations from specialists:**

On Nov. 2014 a doctor who is specialist in children's diseases declared:

Nóa has only a minimal tendency to lag, otherwise his development corresponds to his age.

And on November 2014 a physiotherapist declared: Nóa has no sequelae from the clot.

On febr. 2015 the same specialist in children's diseases declared .

Nóa is walking and running without problems. There is no differenc between his right and left leg, and there is no difference in movements of arms and hands on the two sides.

His development is satisfactory, and there is no reason to have as many examinations.

Since the day they prayed for Nóa at the hospital, there have been no more convulsions, Halleluja!

## Spiritual Roots of Disease

- Aerospace Medicine Specialist
- President of Southern African Undersea & Hyperbaric Medical Association

**Dr. Frans J. Cronjé**  
South Africa

### Background

The Fruit of the Spirit (Gal 5:22) are not only an essential part of our maturity as believers, they are also essential to normal physiology and health. Mankind has known intuitively that there is an association between ‘negative emotional states’ and ill health. However, it is only recently that science has started to delineate specific consequences.

### Results

Science is confirming that the opposites of the Fruit of the Spirit produce susceptibility to illness also called Roots of Disease or the Fruit of the Flesh. Separation from God, others and ourselves makes all of us vulnerable to fear, guilt and shame (Gen 3:10-12 MKJV) or the amygdala responses of fear, anger and disgust. However, when we choose to react habitually according to our ‘natural’, fallen nature we

produce the Fruit of the Flesh ? also called anxiety, depression and low self-esteem. As these states persist, susceptibility to disease increases. The associations are not random, however, and can be derived from basic embryology: Our bodies are woven together (Ps 139:15-16) from ectoderm, mesoderm and endoderm. The ectoderm forms the interactive, regulatory or relational structures; the mesoderm forms the mobile or behavioral structures and; the endoderm forms the absorptive and sustaining structures. Not surprisingly, the ectoderm is most vulnerable to relational stressors ? the opposites of Love, Joy and Peace: Unlovingness compromises our skin (including psoriasis, eczema, etc.); Sadness affects the brain (including dementia and Parkinson’s disease, etc.); and Conflict affects the autonomic nervous system including regulation of blood vessels and organs. The mesoderm is affected by behavioral stressors which are the opposites of Patience (withholding the bad), Goodness (being functional), and Kindness (doing good): Impatience (hostility ? Type A trait) affects our cardiovascular system (including coronary heart disease); Dysfunction affects our bone marrow (including autoimmunity and cancer); and Cruelty our musculoskeletal tissues (including arthritis). The endoderm is affected the opposites of Faithfulness, Gentleness and Self-Control: Unfaithfulness affects e.g., our liver (including

Hepatitis B & C); Harshness affects parts of our endocrine system (including thyroid problems); and Self-indulgence affects our intestines (including obesity).

### Conclusions

The purpose of showing these associations is neither oversimplification nor for the purpose of judging or condemning those with chronic illness. Rather we should all realize that true discipleship ? which is learning to walk in love and expressing the Fruit of the Spirit ? is not only important for our eternal destiny, it is also essential to our health.

---

## MIRACLE HEALING OF SHERY LIM

### Healed of 4th Stage Cancer

---

**Ms. Lim Siow  
Lim Shery**

Malaysia

- Spent thirty years in the Malaysian advertising industry with top worldwide advertising agencies
- Has served in the Elpizo Healing Ministry of the SIBKL church in Malaysia since her miracle healing in 2008

I thank the Lord Jesus Christ, that if not for the word of God, I would have been dead in 2006. What happened in 2006? I had a cancer relapse after my first bout of breast cancer in 1994. In 1994 I had 3rd stage breast cancer. I went through chemotherapy and radiotherapy and was then in remission till 2006. In 2006 the cancer relapse had gone into the 4th stage; it was in my left lymph node just above the left breast and it had also spread to my sternum and the whole chest wall.

I was awfully fearful because I know for a fact that most 4th stage cancer patients die within a short period of time. It was only natural to see an oncologist right away. Then I underwent 7 months of chemotherapy and radiotherapy from February to August 2006. After the gruesome and great suffering treatment, I went for a CT scan in September 2006. Much to my disappointment, the result was heart

rendering. The lymph node cancer tumour remained the same size of 6x7x4 cm, not the slightest bit of size reduction. In addition, the sternum and the whole chest were still filled with cancer cells. The oncologist asked me to “Go home, live one day at a time and enjoy life”. Nothing else there is for the oncologist to do. At this I was broken down to tears. My husband and I went home and hugged each other for 3 days and 3 nights crying buckets of tears. This means the end of my life is very near. I wouldn’t let go of my dear husband and my son who was then still studying in Melbourne.

I refused to die at such a young age of 50. I had no one to turn to except to cry to the Lord for mercy to heal me to let me live and not die. I began to pray and pray and God spoke to me through His word in Psalm 107:20 “I sent my word and healed your disease. I will rescue you from the grave”.

This verse jumped at me because it said God has already HEALED me. He did not say He is going to heal me but already HEALED me. I began to understand how the spiritual realm works because God is spirit. I began to connect my spirit with the Spirit of God daily at 5am for 2 to 3 hours through Worship, Word and Prayers. Each time I spend these precious intimate hours with God, God will always show me a particular verse for the day. I will then quickly go to

my laptop and type the verse on power point, print it out and paste the verse on the wall in my bedroom. Eventually the whole wall of my bedroom was pasted with sheets and sheets of A4 size papers with God's word.

Then each morning as I woke up at 5am, I will kneel beside my bed, face the wall and pray those bible verses to God. I began to meditate on those words till they take root in my spirit. I was hardworking at it because I did not want to die and I had no one to turn to but God and God alone.

In my case, chemotherapy and radiotherapy failed and I had only one way to go and I call it WORD THERAPY. My bedroom wall that was filled with all of God's promises was my WORD THERAPY. As I recite more and more of His word, the spirit of fear slowly left me and I began to feel God's peace in spite of my on-going pain in the lymph node, sternum and chest wall. During that time of struggling daily with great pain, I learnt then that faith has nothing to do with feelings, and feelings have nothing to do with faith. Faith has everything to do with meditating and hearing the word of God.

It was really not easy dealing with death staring at me during and after treatment. I needed a lot of support in prayers. MY SIBKL church pastors, elders, many church members and family members continuously

prayed for me. In one of my senior Pastor Chew Weng Chee prayers in July 2006, he told me that as while he was praying for me, he sensed that God will heal me because there's a greater purpose for me to fulfil that is to support those who are suffering and who are in need.

I was very encouraged by his prayer and I started to ask God to use me for His glory. Since then I kept telling God and myself that I shall not die but live, to declare the works of the Lord (Psalm 118:17).

As I continue to seek God as my Healer for my healing, one morning in 2006 during my quiet time, God spoke through my spirit to write a book and He even gave me the title of the book 'THERE IS HOPE'. I prayed

EXAMINATION :	Chest		
CATEGORY :	DIAGNOSTIC IMAGING		
FILM CATEGORY :	CT Scan		

**REPORT :** CT CHEST

Post I.V. contrast scans at 5 mm thick slices in axial planes were done from the nasal notch down to the epigastrium.

Sclerosis of manubrium sterni noted with a small soft tissue density on the left side measuring 2 x 2 x 1.5 cm. This remains unchanged.

Fibrotic changes seen in both upper lobes as before.

No focal lung nodule seen.

No enlarged lymph node or pleural effusion seen.

**CONCLUSION**

No change in the appearance of the manubrium sterni and the adjacent soft tissue density, probably residual fibrotic tissue.

to God and said I would not write because He has not healed me; I was still a 4th stage cancer patient and no one would buy my book. But each morning when I woke up I hear Him asking me to write the book again and again. I finally obeyed because I remembered I have declared Psalm 118:17 that I shall not die but live to declare the works of the Lord. So I wrote my book saying there is great HOPE in spite of my 4th stage cancer because I BELIEVE that God will heal me one day. The book THERE IS HOPE was finally launched by my senior pastor Chew Weng Chee and myself at the church service in June 2007. On looking back, indeed I was very brave to write a book to declare that God will one day heal me when I was still a 4th cancer patient. I don't know at that time where my bravery came from. It must be powered by the Spirit of the Living God. After writing and launching the book, and the book being sold in Christian book stores around the country, I was still not healed. I cried to God and asked why? God was silent on this. Instead He asked me to embark on the next project that is to start a Cancer Support Group. During my prayers, I said "God this can't be. You have not even healed me and You now want me to start a Cancer Support Group. Lord have mercy on me; I am a 4th stage cancer patient and still in pain and feeling weak and don't even have the strength to walk

---

steadily. Who would ever want to come to a Cancer Support Group headed by a weak 4th stage cancer patient? Lord, I would feel so bad if no one turns up. Please please don't put me through this." And I cried and cried. Somehow the Lord kept saying to me I must start this Cancer Support Group. Then I asked God why? The Lord says "As you comfort others, you yourself will be comforted, as you refresh others, you yourself will be refreshed, as you pray for others, you yourself will get the healing". Wow! When I heard from the Lord that I myself will get my healing, straight away I started the Cancer Support Group in spite of my pain and weakness. I was so desperate to live!

As a result Elpizo Cancer Support Group was birthed in July 2007. Elpizo is a Greek word which means 'I hope in God'. On the day of launch 12 people turned up! God did not put me to shame, He is faithful. Hallelujah!

I began to gather strength as I visited cancer patients and prayed for them. My spirit man was strengthened as I served God, and I began to command my cancer cells to wither and die at its roots in Jesus name. God must have heard my prayers and the prayers of the righteous including my younger sister who is a pastor. Just two months after I started the Elpizo Cancer Support Group, in September 2007 my CT scan

showed the lymph node tumour was suddenly reduced by 70% from the size of a plum (6x7x4cm) to the size of a lime (4x4x3cm).

As I continued to do God's work in Elpizo Cancer Support Group, one year later in August 2008, my CT scan showed that the lymph node tumour was further reduced to a hazel nut size (2x2x1.5cm) and guess what? It is no more cancer! It is only a normal fibrotic tissue, NOT CANCER AT ALL! I was declared free of cancer as shown in the scan report "No evidence of metastasis". Who would have done this? But only Jesus and Jesus alone! At last after 2 and a half years of struggling with 4th stage cancer, God finally gave me a miracle healing. What a miracle working God who is the same yesterday, today and forever. Hallelujah!

I then just casually asked God if He could even make the hazel nut size normal fibrotic tissue disappear for I believe that God will bring to completion what He has begun. And true enough one year later in August 2009, my CT scan showed the hazel nut size normal fibrotic tissue completely disappeared! Praise God!

So did I keep quiet about my miracle healing? No, I obeyed God as His word ask us to glorify His name. I wrote my second edition of THERE IS HOPE book on the journey of my complete healing by the Lord Jesus Christ. The book together with a DVD were

launched by my senior Pastor Chew Weng Chee again in SIBKL church with me giving my testimony to the congregation in February 2010.

Many heard of my miracle healing and invited me to their churches to share my testimony. I was so glad to go round these churches to share because the bible verse Genesis 50:20 which I held very close to my heart came to past.

Genesis 50:20 'You meant to harm me, but God meant it for good to accomplish what is now being done, the saving of many lives'.

I kept this verse in my heart since 2006 when I said to God that I shall not die but live to declare the works of the Lord. I told the Lord that I want to see satan defeated. And I want to be able to tell the world of God's victory. When I testify now in churches or wherever, I can say straight into the face of satan citing Genesis 50:20. Praise God!

Many newspapers and magazines also caught up to interview me on this miracle healing. I used to be in advertising making my clients' brands famous, but now I appear in these newspapers and magazines to make Jesus famous. Hallelujah! All glory to God who even make it possible for so many newspapers and magazines to want to interview me.

Through these publicity, many people came to know of Elpizo Cancer Support Group. In July 2014 during our 7th anniversary, 70 cancer survivors and their

caregivers turned up at SIBKL premise.

Praise God! Many people who came to Elpizo also received their miracle healing. One man was healed of thyroid and liver cancer in 9 months! Another man was healed of stomach cancer in 10 months! A lady was healed of ovarian cancer in 12 months! Another lady healed of thyroid cancer in 12 months! And many more healed of breast cancer and even colon and pancreatic and bone cancer! Praise God and praise God and praise God!

Some who were healed started cancer support groups in other churches. Thank God that His kingdom has advanced. Nothing can stop God when His hand is on it.

Upon reflection, looking back at the July 2006 prayer of my senior Pastor Chew Weng Chee, that prayer came to past. That prayer where he sensed that God will heal me because there's a greater purpose for me to fulfil that is to support those who are suffering and who are in need. Indeed God saved me for a purpose to write the book THERE IS HOPE and to start the Elpizo Cancer Support

Group that have touched thousands of lives bringing them hope, peace and God's love. How can I ever thank God enough? I can't find words to thank Him enough. But I found a place in my heart to serve the Almighty, the Living God for the rest of my days...

CONFERENCES

CONFERENCES  
DELEGATES'  
OPINIONS

## DR. MICHELE BALLANCA

ITALY

-Internal Medicine & Cardioangiology, University Hospital of Palermo

-Had a psychiatric training especially about psychosomatic correlations

The conference was very important to me.

The glory of God was manifested in many clinical cases. In this conference, from my point of view, there has been a break in thinking in some doctors present. The session with the Rev. Heesun Lee was very effective and full of new deep. I meditate for a long time these days in Kuala Lumpur

I hope to see you in Spain. I also hope to be there to talk about a miraculous healing. God bless you

- Consultant Child and Adolescent Psychiatrist
- Senior Fellow, Dept. of Psychiatry, University of Melbourne
- Research Fellow, Murdoch Childrens Research Institute
- Royal Children's Hospital Mental Health Service

I attended the WCDN conference in Malaysia which is my birth country. I was delighted to see nearly 350 in attendance and connected with a few people I had met at previous conferences.

It was great to connect with the folks from Australia.

The case presentations were great especially the ones from Malaysia.

They were both miraculous stories of God's intervention.

The handkerchief healing service was a new addition in the conference.

It raised the faith level a notch higher.

Sweet water story was great to hear and witness.

I hope I will have a case to present at the next conference in Spain.

## DR. JOHN MATHAI

DR. SHARON

USA

- Director, Hawaii Academy of Family Physicians, 1998 – 2002
- Clinical Professor, University of Hawaii, 1998-2012
- Global Humanitarian Volunteer with Key Concepts, 2013 – Current
- Co-Founder of GPS (Global PeacemakerS), 2013 – Current

After the eye-opening, faith-building, friendship-forging, and God-glorifying WCDN conference in Sophia, I eagerly waited an entire year for the recent 12th WCDN International Conference in Malaysia. And throughout the time, I looked at the world differently, through new eyes of faith and love.

In Sophia, I had the chance to serve refugees in 2 days of clinic prior to the conference. That experience gave me God's heart for outcasts, strangers, and refugees and I began to hear their cries for help. In response, God sent me to Lebanon and Jordan to help those displaced by ISIS to refugee camps.

Having heard the testimonies in Sophia, I looked at my patients and contacts differently. I began seeking opportunities to pray for healing with a new faith. Unfortunately, I have not yet witnessed a miraculous healing.

The conference in Malaysia was very special. Not only did health professionals present provocative, evidence-based miracles of healing, we heard and experienced the preaching and ministry of Rev. Heesun Lee, and received first-hand accounts of healings directly from patients. My faith is rekindled and stirred and I am again, on the look out for opportunities to pray for and expect healing miracles. Dr. Lee prayed for my sister who has an incurable, debilitating disease. I am eager to see God answer her prayer and mine.

Having the chance to meet up with old friends from last year's conference and to make new friends this year is not just enjoyable but the fellowship with like-minded colleagues stirs me and spurs me to love and good deeds.

I've been to other doctor meetings before. I've been to other Christian conferences before. I've been to Christian doctor events before. But there is nothing like the WCDN to stretch and strengthen my faith in an Almighty and loving God.

Thank you, Rev. Dr. Jaerock Lee, and WCDN team for the privilege and opportunity to worship and serve the Lord together with you.

For His glory, honor, and Kingdom,

## DR. PHILIP N. JEREMIAH

MALAYSIA

- Organizing Committee WCDN Conference Malaysia 2015
- Nephrologist
- President of the Malaysian Society of Nephrology (MSN) 2008 – 2010
- Consultant Physician & Nephrologist, Ampang Puteri Specialist Hospital
- Co-chair of the International Society of Haemodialysis

The 12th WCDN 2015 was held in the bustling city of Kuala Lumpur, Malaysia on the 16th and 17 of May, 2015. As a first timer to this meeting it was a new, enriching and spiritually uplifting meeting for me.

The congress was held in the main ballroom of Hotel Sunway Putra, situated in the heart of Kuala Lumpur. A total of more than 300 participants from 30 countries all over the world, came in one mind and soul to attend and participate in this Annual meeting. The hall was packed with prayerful and active participation from all who came.

Both the days started with praise and worship conducted by the group and band from the Tamil Methodist Church, Kuala, Lumpur. This was followed by several key speakers presenting plenary lectures on the theme for the Congress “Spirituality and Medicine”. There were several evidence-based case reports and healing testimonies from the delegates from several countries.

There was a special healing service at the end of the first day conducted by Rev Heesun Lee. This session which lasted more than 2 hours, was open to the public and was very well attended. Those who came were indeed blessed. The Korean ‘Power Team’ too sang, danced and praised God in their presentation, much to delight and applause of the delegates.

Being a member of the local Organising committee and also the M.C. for the event along with Dr. David Pallia, I must state a lot of planning and effort was put in by all and particularly by Datuk Dr. Daniel Thuraiappah, Pastor Job and Rev. Justine Clarence. Continuous coordination with the Korean Manmin Church, (under the stewardship of Rev. Dr. Jaerock Lee) who whole-heartedly sponsored and financially supported this event ensured the meeting was a success.

Many went home refreshed and enriched and many more are looking forward to next year’s meeting in Valencia, Spain.

All praise and glory to God our Saviour, Healer and Redeemer.

COLUMN

# The Breath of Life and the Seed of Life

God the Creator planned to cultivate and gain His true children  
He would be able to share everlasting, unchanging and true love with,  
and performed amazing works of creation for His plan. Through the first man Adam who was  
created as a living being, we can feel the will and deep love of God embedded in His creation of men.

---

- The seed of life, trace of the breath of life

**“The providence of God’s creation of heavens and earth and humans is love!”**

“In the beginning God created the heavens and the earth. Then God said, ‘Let there be light’; and there was light.” (Genesis 1:1, 3)

Since before the ages, God existed in the original universe as the Voice wearing the Light (John 1:1;

1 John 1:5). After a long period of time passed, God who was alone in the universe planned to cultivate His true children who can share eternal love with Him. The first thing God did to carry out the plan of human cultivation was to divide the original universe into four spaces. After that, the God who was the Light in the whole universe condensed Himself into a

shape, and formed Himself into the Trinity: God the Father, God the Son and God the Spirit.

The four spaces are respectively the first space for the dwelling of God the Trinity, the second space for the dwelling of saved children of God, the third space necessary for human cultivation, and the fourth space for God’s creation and cultivation of men. God created the heavens and the earth, and formed the first man of the dust from the ground.

“Then God said, ‘Let Us make man in Our image, according to Our likeness; and let them rule over the fish of the sea and over the birds of the sky and over the cattle and over all the earth, and over every creeping thing that creeps on the earth.’ God created man in His own image, in the image of God He created him; male and female He

created them.” (Genesis 1:26-27)  
Could you imagine how beautiful and lovely the first man who was created in the likeness and image of God looked to Him? God blessed the first man to live as the lord of all creatures.

**“Adam, a living being, was in the most optimal state in which the breath of life of God controls the body”**

“Then the LORD God formed man of dust from the ground, and breathed into his nostrils the breath of life; and man became a living being. The LORD God planted a garden toward the east, in Eden; and there He placed the man whom He had formed.” (Genesis 2:7-8)

As God the Creator formed the first man of the dust from the ground with His original light in His hands,

his shape as a man was becoming complete. As God formed the head of the man and the arms of the man, they turned into complete head and complete arms of a human body. How amazing and mysterious it is! When God breathed His breath of life into the man’s nostrils, the man’s heart began pounding, blood moving around and all the cells and tissues functioning. His brain also began working, his eyes and ears seeing and hearing, and his hands and feet moving.

The 37th chapter of the Book of Ezekiel introduces a vision of the work of the breath of life. It speaks of the same principle of the spiritual realm though it is a vision. When God’s word was proclaimed, the bones came together, bone to its bone, sinews were on them, and flesh grew and skin covered them. And when the breath came into

them, they came to life and stood on their feet. And the 11th chapter of the Book of Revelation speaks of the martyrdom and resurrection of the Two Witnesses. When they are martyred during the 7-year Great Tribulation, they are raised again through the work of the breath of life that enter them.

The breath of life is the fountain of the works of life. When God breathed His breath of life into the first man’s nostrils, the breath of life entered the nucleus of the cell that is the focus of life in the body of Adam, and Adam began to move and became a living being. Adam, as a living spirit, and was taken into and lived in the Garden of Eden that belongs to the spiritual realm, and the breath of life has been handed down onto his children and their children.

In the Garden of Eden, when Adam’s children are conceived and

grow, they are affected through the breath of life. All the nucleuses of the cells for all the parts of the body are controlled by the breath of life, so all men in the Garden of Eden have milky white skin, the hair with golden lights, and perfect and flawless body from head to toe. Men in the Garden of Eden grow until they pass the age of a young man, and after this point they stop growing. Since then, their body does not get old and maintains the same condition. It is because the breath of life rules over the nucleus of the cell that originally controls the body.

**“The breath of life was taken away and only the trace of the seed of life was left behind”**

“Then the LORD God took the man and put him into the garden of Eden to cultivate it and keep it. The LORD God commanded the man, saying, ‘From any tree of the garden you may eat freely; but

from the tree of the knowledge of good and evil you shall not eat, for in the day that you eat from it you will surely die’” (Genesis 2:15-17).

In the Garden of Eden, Adam and Eve had been fruitful and multiplied for a long period of time. But they didn’t keep the command of God in their hearts, and ended up eating from the tree of the knowledge of good and evil in their free will. God took away most of the breath of life from them and left its trace behind like a small seed. This is the seed of life.

When God took away the breath of life from Adam, he was put to death as prophesied, “You will surely die.” He was driven out of the Garden of Eden and had to live on this earth? a part of the physical world. As time passed, his body got old and he finally died and was buried into a tomb. As he had the seed of life within him, he missed the Garden of Eden and thoroughly repented of his disobedience and then could

enter the kingdom of Heaven.

How could then the descendants of sinned Adam enter the kingdom of Heaven? In the 6th month of conception, the God of love send the spirit having the seed of life in it to a fetus and plants the seed of life into the nucleus of the cell that is the focus of life in the heart of its body. It means God plants a part of the original light covering the power of God into the nucleus of the cell that is the focus in the heart of every fetus. This is why men can even vaguely feel the existence of the age to come unlike animals.

It is just the same as recorded in Ecclesiastes 3:11, “He has made everything appropriate in its time. He has also set eternity in their heart” and this is the work of the breath of life.

---

## The mysterious order of a human body set up by God

God puts something like 'a map' which contains all the genetic information of a man into the nucleus of his cells. And this is so called, DNA. DNA is like a twisted double ribbon or strand, and the coiled central filament which constitutes the core of the chromosome strand ? chromatid - is called the 'chromonema.' A single piece of coiled DNA containing many genes is called a chromosome.

Inside a cell of a man, there are 23 pairs of these chromosomes. In these 46 chromosomes, all the genetic information about a man is contained. Facial look, height, physical constitution, skin color, etc; all kinds of information about organisms and their function are contained there. God knows where in which number of chromosome certain information is stored.

To help you understand better, let me site an example. Say, there is a car factory which is fully automated. The 1st production line makes car engines, the 2nd line, car bodies, and 3rd line, steering wheels. In addition to these, there are other production lines that produce other parts. All these production lines unite together, and at the end of the final line, a new car is produced. When people turn the switch of the production line on, all the parts of a car are produced at once, and they make a fully assembled car in the end.

DNA inside a cell nucleus is just like the fully automated production lines. When skin gets injured,

A cell nucleus like an automated production line

the cells around the injury start to work so that bleeding can stop, and that new skin can come up.

There is a certain amount of self healing power in a man's body. But this power has a limit. That's why, even though a small injury will become normal as some time period passes by, a big injury can leave a scar. It means it didn't recover to an original normal status.

On the other hand, by the power of God, a recovery that transcends the limit of flesh can take place. For example, in a case of a 3rd degree burn, it can never be restored to the original state with fleshly methods. However, it can be completely recovered to normal with spiritual methods. That is, God can recreate the injured part due to the burn.

# Knowing Trees by Their Fruits

You will know them by their fruits. Grapes are not gathered from thorn bushes nor figs from thistles, are they?

Matthew 7:16

**We can tell that this is a grape tree and that is an apple tree by seeing their fruits.**

**Although it's difficult just by seeing leaves, branches and trunk, we can clearly distinguish trees when we see their fruit. It's the same with humans.**

**Whether they are of evilness or goodness, or whether they have faith or not, we can know the person, by seeing their fruits.**

**No matter how properly a person may act demonstrating manners and etiquette, the fruits of goodness cannot be borne with a deceiving heart.**

- Surgeon Dental Implantologist

# WELCOME TO VALENCIA!

It's a pleasure for me to invite all of you to come next June to Spain, and specially to our beautiful city of Valencia, where you will find a special weather, delicious food and charming people, I'm sure it will be unforgettable.

The WCDN 2016 CONFERENCE, will allow us to know several colleagues, doctors from everywhere and people from different Spanish cities and from different points of the world.

We will spend a special time of worship and also hearing about God's word and see medical healing cases mixing deep medical and scientific knowledge, with no doubtable evidence of the powerful God's hand.

**We** will spend a special time of worship and also hearing about God's word and see medical healing cases mixing deep medical and scientific knowledge, with no doubtable evidence of the powerful God's hand.

We are working hard to give you the special treatment that you deserve, our goal is you feel comfortable, but most important, we want you to experience the infinite love of our Lord. And we are sure that everybody here in Valencia, can get this for you.

Personally, Certain time ago, my wife Liliana and I, were feeling that something special from our Lord will come to our lives, and we are sure that this WCDN 2016 conference is that special issue, because through this event, we can do something special for God, and give back to Him, something that means a little expression of our thankfulness for every blessing we've received from Him.

We will work hard to achieve that people, as many as they can, assist and see many special ways from God's love. We are strong in our faith, and we know that The Holy Spirit supports us, and because of that, we will invite, not only Doctors, even every healthcare professional from Spain to enjoy this blessing, and get the chance that everyone who still does not believe, can receive Jesus as their Saver and Lord.

We encourage all WCDN's doctors, to invite at least on Colleague who still doesn't believe but seems that God can touch his or her heart, to attend the conference, and let them see God's miracles, and accomplish what Jesus said in Matthew 28-29, share th Gospel to the ends of the world.

Finally, I want to give thanks to WCDN Head Quarters in Seoul, and the Manmin Church for the financial support, but it's not only economic issue, it's due to personal and professional aid, and it's about all the love they share, surely, comes from our Lord.

Now, we have the elements to get a special conference in Valencia, you can't miss this event!!!

## Italy

- Director of WCDN Italy
- Psychiatrist in private clinics and public mental hospitals
- Pastor of "Canto di Sion" Christian community, part of the "Riconciliazione" Evangelical Church
- Speaker as for the mind renewal, inner healing, demonology, and prevention and cure of anxiety and depression disorders
- Developer of a psycho-therapeutic method Christ-centred
- General practitioner in a needy district of Palermo (Zen)

### Dr. Mauro Adragna's

During these three years I have been involved in many activities.

As the President of a Christian Association of the Evangelical Psychologist in Italy "CapoVerso" I organized many conferences, and spoke about the importance of using psychology as the first approach to mental disease. The primary goal being always, of course, that to understand the human behavior and to promote a real faith. It is only by discovering through faith the new nature we received in Christ that we can renew our mind.

Palermo, Rome and Milan were the main cities where the conferences were held. During the meetings I also testified about WCDN mission in Italy and all over the world.

You know that I'm a Pastor of the Reconciliation Evangelical Church, and since two years I have become the Apostolic Delegate for the South Italy area. This new charge saw me traveling to visit many churches.

What's more, I have a real burden from God's heart for the unity of the Body of Christ. So, as a church, we are establishing inter confessional relations, holding meetings with different Christian leaders. Last year we received the visit of Pope Francesco Bergoglio in our Caserta's church, and this last May we went to his residence in Rome with a group of one hundred pastors.

Finally in June 2015 we've inaugurated a new building for our church in Palermo.

I regret for my absence in the last international conferences of WCDN, but I'm sure I'll be with you all in Spain.

God bless you.

## Malaysia

### Congratulations!

Dr Daniel Thuaiappah

Dr Daniel Thuaiappah is receiving the award from the President of the Academy of Family Physicians Malaysia.

He received a pewter plaque for serving the Academy for 28 years. So he is recognised his contribution to the Academy he has served the Academy in many capacities. Many of the achievements of the Academy was due to good leadership.

## Russia

### Dr. Luiza Muratova

With giving medical consultations to those in attendance, Dr. Luiza documented the healing cases of those who were healed by prayer at the Miracle Healing Prayer Meeting with Pastor Soojin Lee (pastor of Manmin Central Church, a daughter of Chairman Dr. Jaerock Lee) held in Theater Colosseum, Saint Petersburg, Russia in June 2015.

### Dr. Sharon

- Director, Hawaii Academy of Family Physicians, 1998 – 2002
- Clinical Professor, University of Hawaii, 1998-2012
- Global Humanitarian Volunteer with Key Concepts, 2013 – Current
- Co-Founder of GPS (Global Peacemakers), 2013 – Current

USA

For many years, I've been volunteered as a short-term medical missionary around the world. I've been on teams to beautiful places like Myanmar, Thailand, Kenya, Japan, and Jamaica and difficult areas like Sudan, Afghanistan, Kyrgyzstan, and India. But until last year, when I first joined with WCDN in Sophia, Bulgaria, I had never served refugees. I saw how the clinics sponsored by Dr. Jaerock Lee, the Manmin Church, and WCDN brought God's love and light to desperate people living in darkness.

Since then, I have been going with friends

to the middle east to help the refugees with medical care and basic relief supplies. We worked in Lebanon and Jordan to help people fleeing war and persecution in Syria and N. Africa. We hope to return to help the Kurdish people soon. Our patients suffered from heart disease, diabetes, insomnia, arthritis, anxiety, depression, and skin diseases while their children had burns, bed-wetting, facial tumors, blindness, anxiety, and depression. By God's grace we were able to help many of them. And by His mercy many of them have come to know His love personally.

## A CHRISTIAN'S LIFE

Dr. Fidel P Fernandez

- Pathologist
- Associate Professor of Pathology at the SEGi University Faculty of Medicine
- Member of the International Academy of Pathology- Malaysia Division
- Member of Organizing Committee WCDN Conference the Philippines & Malaysia

## Malaysia

I am Dr Fidel Fernandez, Pathologist and a professor in the Faculty of Medicine at the SEGi University in Selangor Malaysia. I am with my wife Ms. Leticia A. Fernandez who is a nurse but generally retired and acts as a part time adviser for a care giving organization here. We are both Filipinos from Zamboanga City which is in the southern part of the Philippine archipelago.

We have been involved in the ministry of Christ, ministering in different levels and roles at various times since we accepted Christ in 1982. We have gone through most of the common roles that a Christian undergoes such as one on one evangelism, street corner preaching, bus jeepney preaching of the gospel. Later on, we got into church planting where we preached and built Christian fellowships in some communities in Manila and neighboring provinces. We had a house church where we lived and held a small hotel fellowship. It was called the Christian Unity and Helps Fellowship Ministry (CUHF), which was generally funded by a Christian philanthropist. In this ministry we helped Christians in various income generating activities such as food preservation and poultry and swine raising etc. My wife was in charge of a telephone ministry where she was the counselor to some callers. While I had to care for the church along with other assigned pastors from different affiliated churches. There was also the prison ministry where we organized churches in prisons. In the University, I was involved with the Campus Crusade for Christ Ministries called Agape Life Fellowship where I became their adviser for

some years. Many miracles took place during these times.

In 2004 I attended the Haggai Institute in Maui Hawaii a Christian leadership course and there I came to realize that we become what we are not of our own but because of Gods plan. I was convinced by the messages and lessons at the Haggai Institute and I knew that God has made me a professional for the need in His church. Upon my return back home, by God's Grace, I made a move to influence professionals, conducting bible studies with various professional groups in the city. We were working as a team me, my wife and the church. We ministered to groups of health professionals, businessmen, government workers and the military, organizing Christianity based seminars and workshops catering not only to Christians but to all religious groups.

Not too long then we got involved in WCDN. It was on the organization of the 3rd International Christian Doctors conference which was to be held in Cebu City Philippines. I never heard of WCDN but through a phone call by Pastor Sharon of the Manmin church in Cavite on 28th of December, I learned about the 3rd international conference and there I got involved. With our involvement in the WCDN, it got us into more exposure to medical professional both locally and internationally. We have not only been attending the WCDN yearly conferences but also organizing pocket conferences in various parts of the world introducing the Lord Jesus, His gospel and His ministry of Divine Healing through the World

SOME PICTURES:

SEGI University- My place of work as a professor of Pathology

Christian Doctors Network. The work in the ministry of Christ where we are involved in continues here in Malaysia. We hold group meetings with young professionals where we discuss things that relate to our profession as well as of our spirituality. We continue to organize small professional group meetings especially with health workers which include doctors, nurses, midwives, dentist physiotherapist and others. We conduct bible studies and discuss testimonies, pray for the sick and intercede. Many souls are blessed. There had been requests from some sectors for WCDN doctors to hold medical missions to depressed communities in Malaysia. Being actively involved in the WCDN has made us more mature in Christ. It has definitely added to us first hand experiences with God especially with divine healing, prayers and miracles in Christ Name. GLORY TO GOD in Christ Name.

Dr. Fidel Fernandez  
Ms Leticia A. Fernandez RN

"So Jesus said to him,  
'Unless you people see  
signs and wonders,  
you simply will not believe."

John 4:48

# 2004

## Seoul, Korea

World Christian Doctors Network held the First International Christian Medical Conference with the subject of "Spirituality and Medicine" at the college of medicine, Yonsei University, Seoul on May 15. This Conference was attended by many doctors and medical professionals from more than 10 nations including Germany, France, the Netherlands, Russia, honduras, India, Pakistan, Kenya, Cote d'Ivoire, Rwanda and Korea.

Chairman of Organizing Committee  
Dr. John Youl Chun

- General Surgeon
- President, Association of Deans of Medical Colleges, Seoul
- Deputy Director, Hursking Medico-Surgical Research Center, NY, USA

## Representative Healing Cases

- . Healing case of the spasm of coronary artery: Dr. Paul Ponraj, Cardiothoracic Surgeon
- . Healing case of early gastric cancer: Dr. Gilbert Chae, General Surgeon, President of WCDN
- . Healing case of lung pneumothorax: Dr. Eunsook Kim, Radiologist
- . Case of the formation of double-edged eyelids through Muan Sweet Water: Dr. Jiyoung Sun, Psychiatrist
- . Healing case of hernia of intervertebral disk: Dr. Changkyu Yang, Radiologist
- . Healing case of hearing difficulty: Dr. Brian Yeo, Family Physician

Many other divine healing cases were presented including Celiac disease, lateral tennis elbow tendonitis, dermatitis and difficulty in hearing.

Dr. Paul Ponraj, M.D., chief cardiothoracic surgeon at a prominent hospital in Chennai, India, was so touched at this conference and professed that he would consult with an organization of Christian physicians in India and host the same medical conference.

Dr. Vera Samarina, head of the Christian Doctors Association in St. Petersburg, Russia, expressed a need for discussions of greater depths on medical confirmation of divine healing cases.

2005

Chennai, India

The Second International Christian Medical Conference, which was held at Hotel Taj in Chennai of India on May 30 and 31, 2005, brought approximately 500 doctors and medical professionals, and was constituted of presentations of divine healing cases, panel discussions, lectures by world-renowned specialized doctors, and so on. Dr. Philip Anbarasan, Chairman of the 2005 Conference Preparation Committee, used to be vice President of Chennai Municipal Hospital but after the Conference he was appointed as the State Medical Commissioner of Kerala State of India.

Chairman of Organizing Committee  
Dr. Philip R. Anbarasan

- ENT Doctor
- State Medical Commissioner, Kerala, India
- Chairman, Mission&Evangelism, Annanagar Methodist Church, Chennai

## Representative Healing Cases

- . Healing case of early gastric cancer: Dr. Gilbert Chae, General Surgeon, President of WCDN HQ
- . Healing case of herniation of intervertebral disk / lateral tennis elbow tendonitis: Dr. Changkyu Yang, Radiologist
- . Healing case of compression fracture T11-12, herniation of nucleus pulposus L4-5:  
Dr. C. Mutharasu, Neurologist, Bethany Health Care Center
- . Healing cases of Ca Cx - 2 A, carcinoma bladder, systemic lupuserythematosis:  
Dr. Jayachandran, Assistant Professor, Consultant in Industrial Medicine,  
Sri Ramachandra Medical College & Research Institute (Deemed Univ.)
- . Healing case of hip-joint abscess, hydrocele: Dr. Eunsook Kim Radiologist
- . Healing case of R/O Vogt-Koyanagi-Harada disease: Dr. JayashreePonraj, Eye Specialist
- . Healing case of Celiac disease with colon obstruction: Dr. C. Mutharasu, Neurologist, Bethany Health Care Center

Dr. George M. Chandy, Director, CMC (Christian Medical College) Vellore, India, gave the opening remarks and various lectures followed. Dr. David Prentice, Senior Fellow, Life Science & Family Research Council, Washington D.C., U.S.A. gave a special address titled with "Protecting Human Life and Human Dignity from Beginning to End: Where Stem Cells, Cloning, and Euthanasia Intersect" and dealt with various Christian problems including stem cell cloning and euthanasia from the biblical standpoint.

2006

Cebu, Philippines

The Third International Christian Medical Conference took place at the Grand Convention Center in the Cebu City of the Philippines, on the 1st and 2nd of June, 2006 under the supervision of WCDN.

Dr. Arlene Diaz, Dean of the Southwestern University, College of Medicine organized this third conference and 500 doctors and medical professionals from 26 nations attended.

Gloria Macapagal Arroyo, the Former President of the Philippines, and Francisco T. Duque III, the Secretary of the Department of Health, the Philippines, sent their congratulatory messages.

Hon. Antonio Yapha, Jr., MD, FPCS, FACS (Chicago), Chairman, Committee on Health, House of Representatives, Philippines, gave a keynote address. This conference was broadcast on over-the-air TV of the Philippines and featured on many journals and media including ANS (Assist News Service).

Chairman of Organizing Committee  
Dr. Arlene Diaz

- General Surgeon
- President, Association of Deans of Medical Colleges, Seoul
- Deputy Director, Hursking Medico-Surgical Research Center, NY, USA

## Representative Healing Cases

- . Healing case of Vogt-Koyanagi-Harada disease: Dr. Naomi Diliodilo, Ophthalmologist
- . Healing case of traumatic lumbar HNP, lateral tennis elbow tendonitis: Dr. Emmanuel F. Gines
- . Healing case of regeneration of liver cells in portal hypertension with far advanced liver cirrhosis: Dr. John Youl Chun, Surgeon
- . Healing case of infertility: Dr. Janice Vergarra
- . Healing case of early gastric cancer: Dr. Fidel Fernandez, Pathologist
- . Healing case of Quadriplegia due to subarachnoid hemorrhage, Celiac disease with colon obstruction: Dr. Joonsung Kim, Pediatrician
- . Healing case of intracerebral hemorrhage and left hemiplegia / facial burn: Dr. Gilbert Chae, General Surgeon, President of WCDN HQ
- . Healing case of Dr. Francis Pangan's case, 'My Borrowed Voice': Dr. Felicidad Felicilda
- . Various Cases of Divine Healing: Dr. Paul Ponraj, Cardiothoracic Surgeon

The healing cases of infertility, paralysis, spinal tuberculosis and more diseases were presented with medically confirmed data.

Dr. David Prentice gave a lecture on stem cell and cloning, and Dr. Fortunato L. Cristobal, director of Medical Ministry of PCCC, Dean of ADZU School of Medicine, and chairman of Pediatric Department, ZCMC, lectured with a theme 'The Wounded Healer'.

2007

Miami, USA

The Fourth International Christian Medical Conference was held at Hotel Hyatt, Miami, Florida USA on the 13th and 14th of July, 2007 under the supervision of Dr. Armando Pineda-Velez, Chairman of this Conference preparation Committee. Many medical doctors from 40 nations attended, and expressed their impressionn about various lectures and presentations of divine healing cases.

Chairman of Organizing Committee  
Dr. Armando Pineda

- Anti-Aging & Regenerative Medicine Specialist
- Family Physician
- Medical Director at Life Ceutical Medical Group/  
NexGen Medical Center Boca Raton FL

## Representative Healing Cases

- . Healing case of heart attack: Dr. Chauncey Crandall, Cardiolgist
- . Healing case of malignant melanoma of Judge Robert E. Newsom: Dr. William Marker Miller
- . Healing case of spina bifida, tuberculous spondylitis with paraplegia: Dr. Brian Yeo, Family Physician
- . Healing case of brest cancer: Dr. Pancheta Wilson
- . Healing case of multiple myeloma / tuberculosis / breast cancer / ear congenital agenisia:  
Dr. Armando Pineda-Velez, WCDN Director of USA
- . Healing case of colorectal cancer : Dr. Pancheta Wilson
- . Healing case of Fracture: Dr. Pancheta Wilson
- . Healing case of cervical & Lumbar HNP: Dr. John Youl Chun, Surgeon
- . Healing case of alcoholic Cirrhosis: Dr. Bryan Frank
- . Healing case of spontaneous pneumothorax: Dr. Gilbert Chae, General Surgeon, President of WCDN HQ

- . Healing Case of Dermatitis Cases : Dr. Joonsung Kim
- . Healing Case of Gall Stones : Dr. Felicidad Felicilda

2012

Nairobi, Kenya

So far, medicine has made remarkable developments. But the number of terminal diseases remains unknown and the number of newly discovered conditions is on the rise. Today great attention is paid to an international Christian doctors' organization that places an emphasis on God's divine healing power as well as on medicine.

On May 25 and 26, 2012, the 9th International Christian Medical Conference was held in Safari Park Hotel in Nairobi Kenya hosted by WCDN (World Christian Doctors Network) under the theme of "Spirituality and Medicine." Approximately 300 doctors and medical professionals from 37 countries attended

Chairman of Organizing Committee  
Dr. Zipporah Ngumi

- Anaesthetist
- Board Member of Kenyatta National Hospital in Nairobi

## Representative Healing Cases

- . Healing Case of Improved visual acuity : Dr. Joonsung Kim
- . Healing Case of Former policeman who had stood from wheelchair : Dr. Edith Opala
- . Healing Case of Invasive ductal carcinoma in the Rt. breast : Dr. Chang Kyu Yang
- . Healing Case of Low grade uterine stromal sarcoma : Dr. Elio. A. Coradin

- . Healing Case of SLE sequelae & the severe side effects of ciprofloxacin : Dr. Brian S. Yeo
- . Healing Case of Lumbar disc herniation : Dr. Brinda Venktraman
- . Healing Case of Injury by buffalo's horn : Dr. Zipporah Ngumi

Special Lecturer Dr. Frans J. Cronjé(South Africa) presented on the topic of "Spiritual Roots of Disease". In his presentation, the doctor offered a practical framework in which the links between spiritual roots and biological problems may be reconciled and understood from both a Scriptural and a scientific perspective.

2013

Toluca, Mexico

From June 14th to 15th in 2013, the 10th International Christian Medical Conference was held by WCDN (World Christian Doctors Network) in Toluca, Mexico.

With approximately 400 medical doctors and professionals from 24 countries in attendance, the conference kicked off under the main theme of "Spirituality and Medicine".

After the conference, Chairman of Mexico Organizing Committee Dr. Daniel Fuentes said, "Jesus Christ performs miracles the same yesterday and today and shows His love towards the world. This conference greatly glorified God through medical proofs of divine healing, special lectures that restored spirits, and the Spirit-filled performances, which were astounding!"

Chairman of Organizing Committee  
Dr. Daniel Fuentes Acosta

- Obstetrician / Gynecologist
- Head of Division at the Hospital Maternal & Perinatal "Monica Pretelini"

## Representative Healing Cases

- . Healing Case of Takotsubo Cardiomyopathy : Dr. Pastrana Figueroa
- . Healing Case of Cardio-Hepatico-Renal Syndrome : Dr. Elio Coradin
- . Healing Case of Cerebral Hemorrhage : Dr. Gilbert Chae
- . Healing Case of Sepsis due to Urinary Tract Infection complicated with paralytic ileus and Jaundice : Dr. David Eu
- . Healing Case of Primary sterility because of a chronic anovulation and polycystic ovary syndrome : Dr. Daniel Fuentes Acosta
- . Healing Case of Leukemia : Dr. Brinda Venkatraman
- . Healing Case of Hodgkin's lymphoma : Dr. Andre Gasiorowski
- . Healing Case of Cavernous Hemangioma : Dr. Francisco Carlos Gomes Barbosa

Dr. Andre Gasiorowski (Israel), President of Helping Hand Coalition, introduced the case of a female violinist who had come down with Hodgkin's lymphoma and recovered to normal by divine power. After the presentation, she gave her personal testimony and glorified God with her performance.

2014

Sofia, Bulgaria

Some 240 Christian doctors and medical professionals from 43 countries recently traveled to Sofia, the political, economic, and cultural center of Bulgaria, for the 11th Annual World Christian Doctors Network (WCDN) Conference, where they met to “Glorify the Great Physician” and discuss “Medicine, Science and Spirituality.”

Each of these medical professionals, who gathered during May 9-10, 2014, at venue in the city, believed that “spiritual healing” is an answer to sickness in the 21st century. They said that medicine alone cannot deal with some serious illnesses. They also believed that miracles should be “documented” and various respected doctors presented actual case studies of miracles with the medical evidence to back them up.

Chairman of Organizing Committee  
Dr. Kiril Svilenov

- Family Physician
- Chairman of Bulgarian Christian Medical Association

## Representative Healing Cases

- . Healing Case of Hemiplegia : Dr. Jenis Av Rana
- . Healing Case of Cholesteatoma : Dr. Chang Kyu Yang
- . Healing Case of Acute Viral Meningoencephalitis with Coma : Dr. Narine Muradyan
- . Healing Case of Pre-eclampsia : Dr. Sonia Haroon
- . Healing Case of Posttraumatic Dystrophy : Dr. Dick Kruijthoff
- . Healing Case of Multiple Fractures : Dr. Anel Guadarrama
- . Healing Case of Catastrophic Small Bowel Obstruction : Dr. Zoe D. Scounos
- . Healing Case of Restoring the Heart, Divine Intervention : Dr. Elio Coradin
- . Healing Case of Pneumothorax' : Dr. Joonsung Kim
- . Healing Case of Hematoma Intraparenchymal Temporooccipital : Dr. Ithamar Rodrigue

Dr. Alvin J. Hwang (Korea) delivered a special lecture on "Pneuma-Psycho-Somatology" subtitled with 'Separation of Spirit'. He presented evidential data that prove the spiritual realm. It drew great responses and served as a good opportunity to give a thought of men's origin that consists of spirit, soul, and body.

2015

Kuala Lumpur, Malaysia

The 12th WCDN (World Christian Doctors Network) Conference held in Kuala Lumpur, Malaysia on May 16-17, 2015, ended successfully.

In the presence of 350 medical professionals from 31 countries around the world, the conference began with the welcoming message of the organizing committee chairman Prof. Datuk Dr. Daniel. M. Thuraiappah, who is also the president of the Academy of Family Physicians of Malaysia, and the greeting message of the president of WCDN, Dr. Gilbert Chae (Doctor of Medicine, General Surgeon). It was followed by a variety of speeches and presentations of medical doctors. There were nine case presentations of medically clarified divine healing and four special speeches.

Chairman of Organizing Committee  
Dr. Daniel Thuraiappah

- Family Physician
- President of Academy of Family Physicians Malaysia

## Representative Healing Cases

- . Healing Case of Acute Left Ventricular Heart Failure with Pulmonary Edema : Dr. Brian S. Yeo
- . Healing Case of Bipolar II, Oppositional Defiant, and Phonologic Disorders : Dr. Elio A. Coradin
- . Healing Case of Nasolacrimal Duct Obstruction : Dr. Chang Kyu Yang
- . Healing Case of Forming of Double-edged Eyelids (Power of Recreation) : Dr. Gilbert Chae

# Malaysia 2015 Photos

The 12th WCDN International Conference

Date: 16th (Sat) - 17th (Sun) May, 2015

*Welcome!*

**Hudson Taylor** was the man who made the difference for **China**.  
For the gospel in China, he was just like **William Carey** did it in **India**.  
HT was a humble man of God,  
powerfully driven by the **challenges** to make the difference in China.  
He motivated the formation of the **Inland China Mission** and  
took a lot of **missionaries** into China.  
At that time China was **not hospitable** at all.  
Then Mao's communist revolution came and wiped out every religion.
