# Noah's Ark

"If indeed you continue in [a]the faith firmly established and steadfast, and not moved away from the hope of the gospel that you have heard, which was proclaimed in all creation under heaven..."  
[ Colossians 1:23 ]

It is said that the ark that Noah's family rode thousands of years ago, was found in the ice of the mountains of Ararat in Turkey.

One of the reasons why Noah's Ark was able to withstand the flood was because it was built of pine tree, a very strong material.

Likewise while we sail the sea of life in order to get through the rough waves and safely get to the destination, heaven, we need strength like a pine tree.

This does not mean that your character must be strong, but it means that you should have an unchanging heart.

Just as Noah's Ark survived the flood and came to a new world, when we have unchanging hearts, we will be able to come over the temptations of the world and by faith win over and enter the heavenly gate.

### COVER STORY

#### Palace Bridge on Neva River in Saint Petersburg

The Palace Bridge, located in the Neva River in front of the Winter Palace, is well known for its timely opening of the bridge. The bridge is drawn from 1 a.m. to 4 a.m. and its purpose is to allow big industrial ships to pass by during the night. Many tourists gather around the bridge to see the opening every day before 1 a.m.

# The Kingdom of Heaven Suffers Violence

"From the days of John the Baptist until now the kingdom of heaven suffers violence,  
and violent men take it by force"

Matthew 11:12

The enemy Satan will not dare to come near Heaven, God's kingdom.  
Then what does this verse mean?  
It means that God's children can enter better heavenly dwelling places  
to the extent that their faith increases by winning in the  
spiritual battle against the enemy Satan.

Rev. Pastor Dr.  
**Jaerock Lee**

Founder and Board Chairman of WCDN  
Senior Pastor of Manmin Central Church

## 1. You Can Take the Heavenly Kingdom by Force with Faith

Whoever believes in Jesus Christ can be saved and go to the heavenly kingdom. But the enemy Satan tries to disrupt people to keep them from believing the gospel. They always tempt people to sin, even those who already accepted the Lord. In order to defeat this enemy Satan, we must fight against sins to the point of shedding blood and cast off every form of evil. To the extent that we achieve sanctification and fulfill our duties, our faith increases and we can enter better dwelling places.

In the passage, Jesus said, "From the days of John the Baptist until now the kingdom of heaven suffers violence". John the Baptist is a person who prepared the way of Jesus. He testified to Jesus so that Jesus would accomplish His duty. So, 'from the days of John the Baptist until now' symbolizes the days of Jesus Christ and the New Testament era where we receive salvation with faith.

'Before John the Baptist' refers to the period of the Old Testament, which was the era of the Law. People were saved through the deeds of the Law. They had to keep all the laws, and if they committed sins by

violating the law, they had to offer sin offerings to be forgiven of their sins. On the contrary, the New Testament is the time of the Holy Spirit and of grace. That is because by believing in the Lord Jesus we can be forgiven of our sins and be saved through the blood of Jesus and the power of the Holy Spirit.

But concerning the time of the Holy Spirit and the time of grace, many people think if we believe in Jesus we can be forgiven and saved although we commit sins. However, in the New Testament, even if we did not commit sins in action, evil in our hearts is considered as sin. If we hate a brother, we are committing a sin of murderer (1 John 3:15). Everyone who looks at a woman with lust has already committed adultery with her in his heart (Matthew 5:28).

When you accepted Jesus Christ, you were forgiven of sins, and received the Holy Spirit as a gift. Then, you must not follow fleshly desire, but act by following the Holy Spirit. Galatians 5:19-21 warns that the deeds of the flesh are evident, which are immorality, sensuality, idolatry, strife, jealousy, carousing, and things like these, and those who practice such things cannot inherit the kingdom of God. In other words, they cannot enter Heaven but they will go to Hell. There are many other parts in the Bible that warn us that those who commit

---

## 1. You Can Take Heavenly Kingdom by Force with Faith

## 2. The Spiritual Meaning of 'Violent Men Take It by Force'

---

sins have nothing to do with God. It means that we have to get rid of not only the sins in action but also evil in our hearts, the thoughts and natures.

Then is it more difficult for people to be saved in New Testament times than in Old Testament times? It is not so. In the Old Testament days, they had to keep the law with their own ability and effort, but in the New Testament days, we can throw away sins not by our own strength but by the power of the Holy Spirit. When we accept the Lord with faith and try to cast off our sins with the power of the Holy Spirit, we will be able to throw away not only sins in action but also the sinful natures in our heart.

---

### 2. The Spiritual Meaning of 'Violent Men Take It by Force'

---

'Taking the heavenly kingdom by force' doesn't simply mean going to Heaven. The heavenly kingdom is divided into many levels and there are relatively better places than others. So, we have to long for and take better heavenly dwelling places by force. The heavenly kingdom belongs to spiritual heaven, and this spiritual heaven belongs to a dimension different from this physical world. Even the spiritual heaven is divided into many heavens (1 Kings 8:27; 2 Chronicles 2:6; Nehemiah 9:6).

Especially, 2 Corinthians 12:2 talks about the spirit of the apostle Paul going up to the 'third heaven'. Because he mentioned the third heaven, there must be the first and

second heavens, and there can also be heavens above the third heaven. Among many heavens in spiritual realm, the Apostle Paul went to the third heaven that has our eternal dwelling places. The apostle Paul saw Paradise in the third heaven (2 Corinthians 12:4).

Just before Jesus died on the cross to achieve the providence of human salvation, one of the criminals hung on the cross said at the last moment, "Jesus, remember me when You come in Your kingdom!" Then, He said to him, "Truly I say to you, today you shall be with Me in Paradise" (Luke 23:43). He barely had faith to receive salvation but because he died immediately, he could not live according to the word of God. Also, he did not work for the kingdom of God, so he had no heavenly rewards. Paradise is the place for those who just accepted the Lord and barely gained salvation.

Also, in Revelation chapter 21, we see a record about the city of New Jerusalem. It is a holy and glorious city and the most glorious dwelling place in Heaven. The city houses the throne of God, and is the dwelling place for those who have great faith by having achieved sanctification of heart and being faithful in all aspects. Between this New Jerusalem and Paradise, there are other levels of dwelling places. To the extent that you overcome the enemy Satan; struggle and cast off sins to the point of shedding blood; and change your heart into the truth; you gain the qualification to enter into better dwelling places.

This is the meaning of 'taking the heavenly kingdom

by force.' The faith of those who are just saved is as big as a mustard seed. But if they sow the seed in the field of their heart and take care of it and grow it, their faith will grow as big as a tree that is thick and has no problem in storms. Just as many birds nest and rest in big trees, those with great faith can embrace many souls (Matthew 13:31-32). If you lead many souls to the way of salvation, you will dwell in bigger and more beautiful places in the heavenly kingdom (Matthew 5:5).

Even if you imagined the most beautiful, fascinating, and the happiest place, it could not be comparable with Heaven. Even the lowest dwelling place of heaven, Paradise, is much more beautiful than the most beautiful place on this earth. So, how can we explain with words of men the glory and joy of the city of New Jerusalem where God's throne is? If you clearly come to know about the heavenly kingdom, you will bear in mind things on this earth are meaningless. You will cast away all worldly desires and meaningless lust, and change yourself according to the Word of God and try to take the heavenly kingdom by force.

Dear brothers and sisters in Christ, the heavenly dwelling place will be decided at the end of human cultivation. Even though you have little faith, you can even go into New Jerusalem if you keep on advancing toward the heavenly kingdom diligently from now on. I pray in the name of the Lord that you will save time and diligently advance toward heavenly kingdom and take the best dwelling place by force.

## Greetings in the name of the Lord to you, members of WCDN, and all who love WCDN!

Throughout the 14th WCDN Conference held in St. Petersburg, the city of the beauty and history of Russia, I stayed with you in my prayers and heart. I was so happy when I saw so many of you attending the conference being touched and giving glory to the Lord via video presentation. I give thanks to the Lord who was present at the conference and also give thanks and glory to Father God who blessed it. I send my special thanks to Dr. Oleg Ostreiko, Chairman of the Conference Organizing Committee and all the committee members for such a successful event.

This conference gave me two heart-touching lessons. First, it is a real blessing to believe every word recorded in the Bible. Miraculous healing works are due to the belief in the Word of God as viewed through the divine healing cases presented by the speakers at the conference. Our God introduced Himself as 'I, the LORD, am your healer' in the Bible (Exodus 15:26).

Jesus' three-year public ministry is featured in two major aspects: the spreading of the gospel of the kingdom of heaven and the ministry of miraculous healing. It is recorded in Matthew 4:24, which reads, "The news about Him spread throughout all Syria; and they brought to Him all who were ill, those suffering with various diseases and pains, demoniacs, epileptics, paralytics; and He healed them."

I was seriously sick with incurable diseases before I met God. God immediately healed me of many kinds of diseases and infirmities including stomach disorder, rheumatic arthritis, thyroid disease, skin disease, and hearing loss due to the rupture of eardrum. This miracle enabled me to believe in every word of God in the scriptures.

Whenever I met sick people, I testified to them about God and the Lord who heals us. When they believed and asked me to pray

**Rev. Pastor Dr. Jaerock Lee**  
South Korea

- Founder and Board Chairman of WCDN
- Senior Pastor of Manmin Central Church

for them, no matter what kind of incurable diseases they had, I believed God would heal them and prayed for them. When they came to me with the realization that diseases come from sins and with the resolution that they would live by the will of the Lord, they were all healed unexceptionally. God healed them according to the promise recorded in the Bible.

Regrettably there are so many people who do not ask God: because some of them do not believe in our Father God who created people, is almighty, and has mercy on the weak and readily wants to heal them; because some others do not believe in the Lord Jesus Christ who solved the problem of our sins; or because still others have vague belief despite their confession of faith. Every word of the Bible is the same thousands of years ago when the Lord came to this earth, even now, and in the future. How blessed you are that you have been able to pray to the Lord to heal your family, your acquaintances, and your patients!

Through this conference I can say that all of you have been prepared for and called as a precious tool of the Lord and God who heals people.

Some medical professionals and doctors exclusively rely on advanced technology and high level of knowledge so that they are likely to say there is probably no God. But you believe that God is alive and there is nothing impossible for Him. How have you been able to possess such precious faith? It is absolutely by the grace of the Lord who gave you the faith worthy of your salvation, the grace of Father God who has guided your life to this point, and by the grace of the Holy Spirit who is now strongly urging you right now.

I believe at this conference you were able to hear the voice of the Lord, saying, "You shall be My witnesses." And I also believe you were able to hear the voice of the Holy Spirit, saying, "Go to those who are suffering diseases and your fellow doctors and spread the Word of God to them." I wish for you to become filled with the joy of the free gift and complete this great commission. Our God will surely take responsibility for and give blessing to you who are dedicating yourself to the Lord as His tool. I pray in the name of the Lord that your life, family, and working places will overflow with the peace and blessing of the Lord.

*Jaerock Lee*

# Greetings

**Dr. Gilbert Chae**  
South Korea

- President of WCDN
- General Surgeon
- Assistant Prof, Medical College  
Kwandong University
- President of Yonsei Jaeil Clinic

## Hallelujah! Greetings in the name of our precious Lord.

Due to your prayers we were able to complete the 14th WCDN Russia Conference with over 400 attendees from 13 countries.

This conference will hold a great significance because it was held during the effect of the Anti - Terrorism Act of 2016, which required the Russian government to monitor any religion meetings except Russian Orthodox.

Even with this act, we were able to complete the WCDN conference in peace without any hindrance due to Rev. Pastor Dr. Jaerock Lee's prayer for security. Dr. Oleg Ostreiko, the Chairman of the Organizing Committee also confessed that the protection of God seems to be holding the place, after seeing for himself that the conference was going well in peace.

During this conference, from the special lecture on causes of diseases, many doctors were able to understand the spiritual reason for why diseases occur and it was a time for many doctors to realize how to immediately recognize and solve the diseases.

Some doctors said that it was not only a conference letting people realize the cure for visible illnesses but also a conference to empathize that true healing can be done by treating the invisible spiritual problems as well.

Among the testimonies I was moved by Dr. Alesya Lastochkina's testimony, who in particular took 17 hours to come to St. Petersburg, Russia to attend the conference and also bringing more than 100 health workers from Belarus. Before coming she said that she did not complain when she had appendicitis and instead she felt that there would have been a reason for her to go through this illness under God's will and was thankful to realize the reason after attending this conference.

Continuously, WCDN will speak about the gospel of sanctification by Founder Dr. Jaerock Lee and his works and power, to the doctors and intellectuals through the case study presentations. In 2018, the WCDN conference will be held in Poland. We ask for all of your prayers and I wish for our Lord's blessings to overflow in your families and work places.

Thank you.

*Gilbert chae*

# WCDN RUSSIA 2017

World Christian Doctors' Network (WCDN) clarifies divine healing cases through medical science. They have held the 14th annual international conference in Saint Petersburg, Russia. WCDN is a group of Christian medical doctors that holds conferences every year for communication and cooperation with doctors from around the world.

## News Article about the Conferences

World Christian Doctors' Network (WCDN) clarifies divine healing cases through medical science. They have held the 14th annual international conference in Saint Petersburg, Russia. WCDN is a group of Christian medical doctors that holds conferences every year for communication and cooperation with doctors from around the world.

WCDN, an organization of physicians who scientifically and medically confirm the cases cured by God's power, held their 14th international conference in Russia, the nation which won many Nobel Prizes in medicine and science. The Russian Parliament adopted a new religious law that bans mission and evangelism in 2016. The new law stated that no one can freely talk about God or about their faith in any case. It is prohibited to post anything about religion through the SNS or the Internet. They also passed a bill that no one can evangelize outside the church but only may do so if a permit is issued. It was not easy to perform Christian events in Russia, but the WCDN conference was able to proceed in peace with the protection of God.

The 14th WCDN Conference was held from October 20th to 21st in St. Petersburg, Russia. More than 400 doctors and medical professionals from 13 countries (Russia, Belarus, Israel, Poland, the Netherlands, Spain and more) attended.

The whole event was translated in English and Russian in real time. On the first day, the praise of the local praise team; the preaching of pastor Rev. Vladimir Osipov, the chairman of the Holy Communion of the Russian Federation of Christians; introduction of participating countries by Dr. Oleg Ostreiko, and Dr. Gilbert Chae, president of WCDN; and a DVD screening of the missionary ministries of Rev. Pastor Dr. Jaerock Lee, founder and Board chairman of WCDN; were given.

## Case Presentations

1. Knee Arthritis by Mrs. Elena Litvina (Russia)

2. Positive Outcome in Patient with Brain Tumor by Dr. Oleg Ostreiko (Russia)

3. Tuberculosis by Dr. Luiza Muratova (Russia)

4. Blindness by Dr. Vahe Buniatyan (Armenia)

## News Article about the Conferences

5. Complex Fractures of Tibia, Fibula and Ulna by Dr. Joo Sung Kim (Korea)

6. Strabismus by Dr. Kiril Svilenov (Bulgaria)

7. Acute Appendicitis by Dr. Gilbert Chae (Korea)

## Special Speech

1. The Root of Diseases by Dr. Gilbert Chae (Korea)

2. Noah's Flood (DVD)

3. Muan Sweet Water by Dr. David Eu (Singapore)

4. Heaven by Dr. Vitaliy Fishberg (USA)

### (Testimony)

1. My Journey to Muan Sweet Water of Korea by Dr. Nikolai Lunchis (Russia)

In particular, the special lecture "The Cause of Diseases" prepared based on Dr. Jaerock Lee's book, "Jehovah of Healing" grabbed a lot of people's attention. After the presentations, questions were answered in depth on questions such as how to keep the Sabbath, and the relationship between fear and illness. Many attendees felt that the things said during the presentation were highly needed for doctors so they asked for the presentation files. Through this we were able to understand how hungry they were spiritually.

Also we could see many attendees who watched the video "Noah's Flood", which was based off Rev. Paster Dr. Jaerock Lee's sermons on Genesis, ask for the clip after the conference because they felt that it was so interestingly biblical and spiritual that they wanted to show it to the churches and the hospitals.

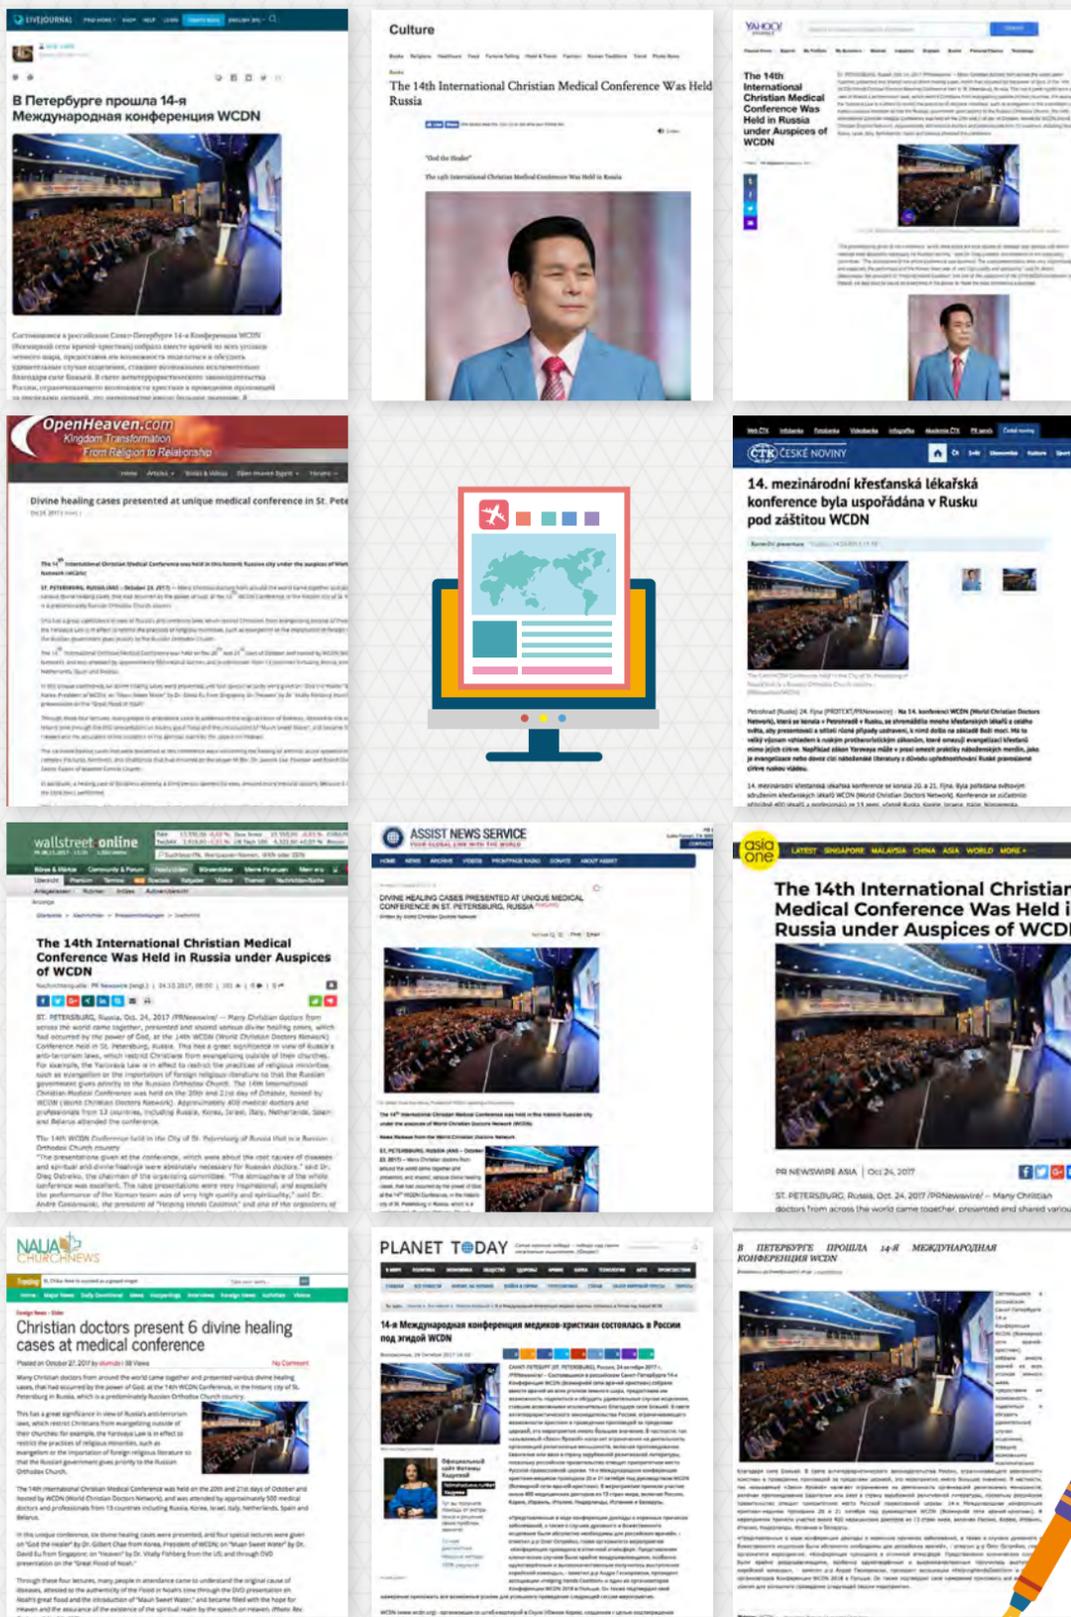

Dr. Oleg Ostreiko, chairman of the organization, said, "The contents of the conference, including the causes of diseases and spiritual treatments that are essential for Russian doctors, were very good and many doctors thanked us. Also, a Muslim doctor who attended this conference stated that the power of God shown was so surprising and it helped him to realize a new spiritual world that he never knew of.

In addition, this event was broadcast on Russian news broadcast TBN Russia and many times on news.

WCDN, with its headquarters located in Seoul, South Korea, is an organization of Christian medical doctors and holds an international conference every year to let Christian medical doctors around the world communicate and cooperate with each other. The next, 15th conference will be held in Warszawa, Poland in 2018, and many more divine healing cases of great power of God will be presented.

# Complex Fractures of Tibia, Fibula and Ulna

Jeomok Park F/ 54, South Korea

On February 6, 2017, at around 6:30 am, I hastily rushed to the commuter's line, and my heel got caught on the second step in the front of my house and I fell down 15 flights of stairs. The bones of my leg broke and it tore open the flesh and it continued to bleed. I called 119 and went to the hospital. My left thumb's ligament was split so it couldn't unbend. The bones of my two fingers were cracked and the right elbow was fragmented fractured. My legs also were broken into pieces that the bones could not be fixed, and blood continued to flow. There was a contusion of my whole body, but only my head was completely kept safe. My whole body was swollen, it was hard to speak with the pain I had, and the doctor had to do surgery quickly, and keep the blood in the bones, so osteomyelitis wouldn't occur. I kept receiving the recorded senior pastor's prayer and received prayer with handkerchief senior pastor had prayed on and the blood stopped immediately.

surgery, the doctor told me that I couldn't do that, but I signed out of the hospital anyways and came out early without surgery. Pastor Heesun Lee continued to pray for me and some members of the church also fasted and took care of me. I kept spraying Muan sweet water on the part of my leg that had a scar. I could not even move one finger before, but I could now sit up and sit down.

I looked back at myself and repented and I fasted in the morning. Pastor Heesun Lee told me that she will ask senior pastor to pray for me and so I gave her my letter of repentance and a payment of thanks. After receiving the prayer, the fragmented fractured elbow was now able to move, and I was now able to make a fist without any pain. My legs were in pain even when something lightly hit my toes, but my toes were able to now move and my legs could be lifted. Now I could even stand up.

Both arms moved freely and there is no pain. A hospital worker saw a CD scan, and he said I had to stay in hospital for a year and that the pain would be huge and that it would remain disabled even a year later. For someone like me I thank Rev. Pastor Dr. Jaerock Lee who prayed for me. Because of his prayer I was able to be without pain since the accident and he allowed me to look back at my life and be healed. Thank you.

I sent a picture to Pastor Heesun Lee and I received a prayer from her as well. She told me that if I were to get this badly hurt even if I was supposed to be kept safe through senior pastor's prayers, then there must be something I need to repent of. She told me holding a grudge against someone or not keeping peace with people around me was something to look over; however she also told me to look back at myself to see if I had any ill thoughts about people who were older or more spiritual knowledgeable than me. After receiving the prayer, the pain began to disappear.

After I told the doctor that I would leave without getting

## Knee Arthritis

Elena Litvina F/ 56, Russia

In the spring of 2016, my left leg was in pain. The treatments I received were useless and I could not last a day without non-steroidal anti-inflammatory drugs (NSAIDs). An MRI was performed in June of 2016 and it read that there was subcartilage erosion in synovitis, arthritis grade I, and lateral condyle of the femur of the left knee. I was prescribed physical therapy. However, my condition deteriorated rapidly. I could not bend my knees, and it became limb, and the injection, the medicine, and the ointment did not make any improvement. I had to walk slowly and it was not easy to climb any stairs. It did not improve over time. I felt that people did not realize how happy they were when they walked quickly and easily.

In October 2016, I was invited to the Manmin Central Church in Korea by the WCDN headquarters. It was my dream to go to Manmin Central Church. But while on my way to Korea, when I got to Moscow, I had to move fast between terminal to terminal, and I knew I could not move fast. Also, the flight time was 8 hours. I doubted if I could overcome everything, but my daughter told me. "Mom, you'll probably get healed in Korea this time." So I left Russia with prayer and took a shot before leaving. The journey was surprisingly good. On the first day in Korea, I was able to meet Rev. Pastor Dr. Jaerock Lee, and he prayed and blessed us for what we needed, and he prayed for my knees.

As soon as he prayed, I could feel my knee getting better. I went on a Seoul tour on the next day and visited the old palace. There were hills and many stairs that I had to climb up and down. Like a goat I walked up and down everything! My heart was full of joy and love for God, His mercy toward me,

and thanks for Rev. Pastor Dr. Jaerock Lee. Over the next few days my knees became bendable and fully functional. I give glory to God!

On the last day, I went to Muan Island. This place is famous for the sweet water and miracles of healing. But I want to share another testimony in my life that happened here. I was suffering from a headache since a trauma that happened during childbirth. Analgesics did not work. I was lying in the intensive care unit for three days with cerebral infraction five years ago. With that kind illness in my head, I went to Muan Island. My headache became worse right before going into the sweet water. I thought this would be the last moment in my life. I had never felt such pain before. I prayed to God, "Lord, forgive me for my sins and give me grace, I am in so much pain." Then after covering myself up with a towel, Dr. Gilbert Chae prayed for me with a handkerchief. On the way back my head was not very clear. Then the sensation slowly returned.

After returning to Seoul I found that I was healed of

another thing. When I was in Muan, Rev. Pastor Dr. Jaerock Lee, prayed for us and I saw that there was light on top of me and he said that it meant I was healed. I did not immediately realize that I did not have a headache after I returned home. Over time, my head did not hurt, and I realized I was cured. One year later, my head was not even sore once and my blood pressure never rose. This is not all. I have been able to draw pictures. In June 2017, I took my granddaughter to art class. There she told me to paint something so I don't get bored. And so I picked up the brush! I was never able to paint something. Even drawing a bunny was hard. However, during the three months I have painted 16 paintings, and even received suggestions for an exhibition in June 2018. My left side brain that was in pain was healed and was also renewed by the power of creation. And these paintings are evidence of miracles. God is real. God is alive!

God heals and manifests miracles in our lives!

## Strabismus

Gyuchan Yun M/ 16, South Korea

I had Paralytic strabismus since I was born. When I was in kindergarten, and took pictures with my friends, they were facing the front, but as you can see in the picture (Figure 1), I had to turn my head to be looking in the same direction.

My parents whose hearts were torn did not have the courage to give me surgery because when they took me to the hospital to treat the paralytic strabismus, they told us that there could be complications in the surgery, and they could not guarantee the full cure from the surgery. Normally, when I tried to look straight up, things seemed blurry or deeply overlapping (diplopia) and my eyes would shake so bad that people around me would know. When I walked down the street, I often was misunderstood. My friends did not know why I seemed to look as if I was staring at them and soon I started to keep a distance with them.

At this time, the 2017 summer retreat at Manmin Central Church was coming up and Rev. Pastor Dr. Jaerock Lee said that he would pray especially for people who had any types of problem with their eyes, so I prepared to receive healing at the retreat. I made a promise to God and prayed for a week at the night prayer meetings at church, which is something that I usually didn't do. I also got rid of all the worldly games on my phone.

With the earnest faith that I must receive healing during the retreat, I placed my hands on my eyes while receiving the prayer from Rev Pastor. Dr. Jaerock Lee during the summer retreat.

When I opened my eyes, I looked straight and I could see things clearly and I could hardly feel my eyes shaking. Believing that I was healed, I looked at the mirror. I could see that my two eyes were in the correct position and I was cured. I am so happy to see things without turning my head to focus now. I give all glory and thanks to Father God who healed me and I give thanks to senior pastor who prayed for me.

**Before and After the prayer**

Before receiving prayer, as you can see on the left side photo, he had strabismus with exotropia type. However, after receiving Dr. Jaerock Lee's prayer, his eye position was restored to normal, which is shown on the left side photo.

## Blindness

Sangyoung Park M/ 51, South Korea

On July 2, 1990, I was in a traffic accident, which caused my skull to fracture and my brain to be damaged.

However, since my consciousness did not come back after surgery, I had to be in the intensive care unit in a vegetative state for about six months. After a six-month struggle, my feelings were back to normal, but I found that after my brain surgery, light wasn't entering my left eye and I was blind. When I suddenly became blind, I can't tell you how sad I was. There was neither power nor courage to do anything. I was not able to focus on an object with my eyes so I would not be able to catch anything. It was inconvenient because I could not see the left side so I would run into things. Even when playing billiards and table tennis, or any similar exercise I kept making clumsy mistakes so I couldn't play those kinds of sports. Because I could not see with my left eye, and when I drove it was hard seeing the left rearview mirror. Life was painful and I could not bear the bitterness, so Zolpidem (sleeping pills) helped me to sleep.

Then, in 2016, I attended the summer retreat. On the first day of the retreat, there was a prayer for the sick from Rev. Pastor Dr. Jaerock Lee. I was closing my eyes when I received the prayer with faith, and I felt

something shine like a fluorescent light, in front of my eyes. At first I was hesitant. When I opened my eyes, it was dark at the time, so I did not know whether I was healed. But when I came back to my room, I was able to see with my left eye!

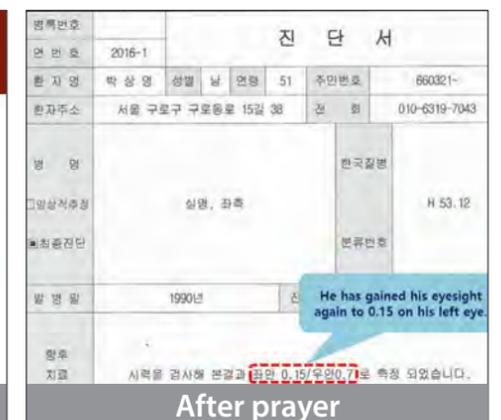

I felt as if my heart would burst out with joy and emotion! Then I knelt down and prayed, "Thank you Father God for meeting me. I will live my life faithfully in the future." The left eyes, which I could not see anything out of, now began to see the movement of light and things. I am now glorifying Father God, testifying to everyone here and there.

I also took Zolpidem (sleeping pills) for 3 years and I was addicted to drugs and I could not even try to stop it. Even the pharmacists have told me that if I do not take medicine, I will die. However, on the first day of the retreat, after receiving the prayer for the sick I was able to sleep comfortably without having to take the medicine.

The thoughts that caused insomnia also disappeared. I give all my glory to Father God who has healed me and I thank senior pastor who prayed for me.

Before prayer

After prayer

**Dr. Oleg Ostreiko**

Russia

- Chairman of WCDN Organizing Committee Russia 2017
- Neurosurgeon
- Associate Professor St. Petersburg, Vladivostok State Medical Institute

*“This conference was a spiritual bridge and solution for the practical problems physicians have.”*

The 14th WCDN conference ended well. I have attended the WCDN conference several times. As the years go by, we can see that the conference evolves in many ways. This time, it was a better conference than the previous one in contents and events. So I believe that we have successfully finished the conference.

And I thank the Manmin Central Church and especially for Rev. Pastor Dr. Jaerock Lee for praying with love for the conference.

This was a big event for St. Petersburg and it also held a big meaning for St. Petersburg. It is because many doctors, nurses, and medical students attended this conference from many cities around Russia and they all received love and grace in the spiritual atmosphere.

This conference was a spiritual bridge and solution for the practical problems physicians have.

The spiritual way to treat the condition of patients and how to lead them as doctors and such were shown in a concrete way.

The doctors that attended especially the Russian doctors who came from the far east to west end of Leningrad and all over Russia; they now know how to not just treat patients but spiritually treat them as well.

This will not only provide a physical understanding of the patient's condition, but will also give them many experiences to identify their spiritual condition and let them cope.

In the future, the WCDN conferences will continue to evolve as they have been so far and future organizers will prepare better conferences from what they have learned.

Our Russian doctors attended the Spanish Conference in 2016, where they saw, learned, and experienced many things and saw the work of the Spanish organizers. Based on that, we prepared this Russian conference.

The organizers of Poland will also add their ability based on what they learned from this conference and they will be able to prepare a more advanced conference next year. It will be also done with the power of God, and therefore I believe it will glorify God.

**Dr. Alesya Lastochkina**

Belarus

- Obstetrician
- Belarus, Gomel City Medical School, Graphic Surgery, Lecturer

*“For this conference, I brought 100 doctors from Belarus by renting 2 buses.”*

For this conference, I brought 100 doctors from Belarus by renting 2 buses. Most of them are from Gomel. 80% of them were physicians who first attended a spiritual Christian medical conference. Some of them are doctors who go to church, but there are others who lack in their faithful lives. There are also doctors who do not know God well. I thank the Lord that the Belarus doctors were able to attend the WCDN conference with His grace.

Through this conference, I have received much grace and interest in seeing the work of the people of God showing the amazing work of God through Manmin. I studied medicine and worked as a doctor, and during the past seven years I also taught graphic surgery at the Gomer University School of Medicine.

On March 30th I was preparing to go to work and the Lord told me to take the Bible. There have been many times when He told me to do so. I thought that the Lord was telling me that I would meet someone today to tell the Word and preach. However, on that day, I suddenly dropped to the floor and I was hospitalized with acute appendicitis.

That evening I was on the surgery table. As a result, I had to undergo surgery and it was a difficult operation to remove the hematoma. After that, I had another operation, so I ended up in the hospital for two and a half months. I suddenly became questionable of these trials that came to me when I was hospitalized.

Lord! Why did this happen to me? What is the reason? That morning the Bible came to my mind and at point I thought that there was something the Lord wanted to tell me. On the other hand, I was very embarrassed and displeased. How did intern doctors do my surgery without asking the opinion of a fellow doctor.

I did not understand and was uncomfortable, but the Lord gave me the words, "Forgive them, forgive them, my ways are different from your ways, and my thoughts are different from your thoughts."

God has made it possible for me to gather more than 100 doctors who attended this conference for two and a half months while I was hospitalized. Since I had time in the hospital, I was able to meet many doctors and tell many people about the conference. I also went to the group of medical students that I teach to tell them about this conference. Even after I was discharged, the Lord inspired me to invite more doctors. As I was led by the Lord, I gathered doctors and 100 people from Belarus came to this conference. The Lord had let me know that my ways are different from His ways and that my thoughts are different from His thoughts, and I thank the Lord for being able to save 100 doctors from Belarus for my appendix. So I thank the Lord and He is great and almighty!

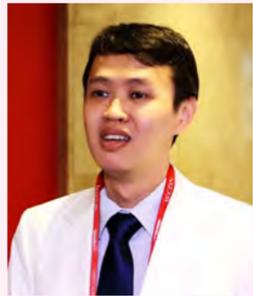

**Dr. Ilyozhan Giyezov**

Russia

- Cardiologist

It was my first time attending the WCDN conference and I really enjoyed it. It is because medical practice is hard without faith. Without faith in a god, it is a hard thing. I am a Muslim but I received a big satisfaction (in this conference). Additionally, several of the presentations showed evidence of modern therapy, such as CT imaging, which was interesting as patients who had no hope were treated and they believed in God in hope.

**Dr. Hew Wei Yen**

Singapore

- Family Medicine

During the special speech "The Root of Diseases," the speaker explained that the causes of mental illnesses are connected spiritually such as from the patient's hatred, betrayal, and wrong thinking and he explained that these things should be cleared from the heart to fundamentally heal mental illness. Also he said that idolatry in the family could be one of the causes of mental illness. I used to work in a mental hospital in the past and wondered the cause of schizophrenia and why it cannot be cured, but through this special speech I was able to receive all of my answers.

**Dr. Larisa Gaponenko**

Belarus

- Obstetrician

My father was blind, but it was useless in any medical way and he could not see the light for a long period of time. Through the <Blindness> case presentation, we are convinced that when God works, blind people can see the beautiful world God created.

# Hexagons Hidden in Nature

*There are many signs of God's design and creation in nature which we live in. Especially, in nature there are some things that come up regularly the same and is finely arranged, and some repeatedly show a specific shape and one of the main shapes we can find is the hexagon. In the world, the number 6 is called the 'perfect number'. I think there was a reason for that. The ancient Greeks recognized that there was a number represented by the sum of the divisors except for themselves ( $6 = 1 + 2 + 3$ ) and thought that this number 6 was the perfect number form. And later on, the Pythagorean school began to call this number the "perfect number."*

Manmin Creation Science Research Center  
Dr. Seung-Shik Kim (Physics)

## 1. Hexagonal Crystal of Snowflake (Size of hexagon: About 0.4~1.5mm)

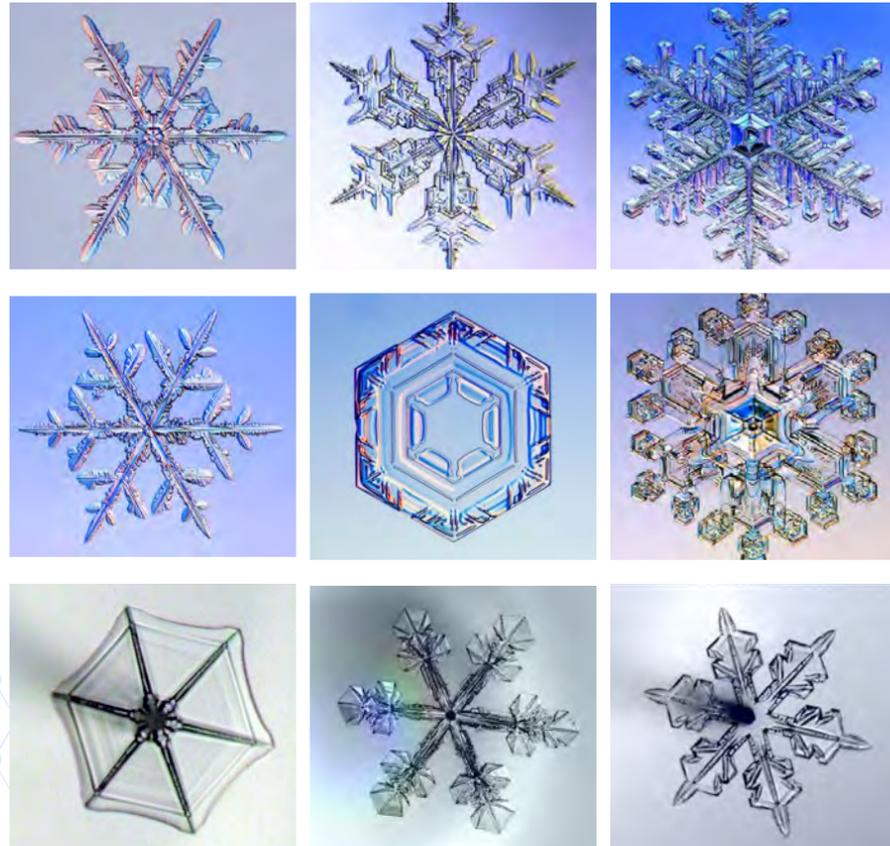

As we know, by the heat of the sun, the water circulates through the sky, the sea, and the earth. In the case of water vapor rising to the sky, it “rains” when the diameter of the water drops exceeds 0.2 millimeter, and it “drizzles” when it is smaller than this. At this time, if the temperature drops below freezing, it becomes snow, not rain.

If you look closely, you will be amazed at the skills of the creator God. Snowflake crystals are all different shapes, but all have a basic hexagonal shape. No matter how talented the designer is, it will be difficult to design such a variety and beautifully hexagonal basic frame with only one material.

If you look at the homepage related to snowflake crystallography operated by the California Institute of Technology, they roughly describe what kind of snow crystals are made depending on temperature and humidity. However, it is a mystery why the shape of snowflake crystals varies so much with temperature.

Despite a lot of research done by scientists, it is still not clear why snow crystals have such various hexagons.

God's power and divinity are in the water, so that the drops of water in the clouds become hexagonal crystals of various shapes when they come down.

[Fig.] Hexagonal Structures of Snowflake Crystals

## 2. Hexagon Appearing in the Honeycomb (Size of hexagon : About 4mm)

Scientists agree that hexagonal structures are the most stable. Mathematically, when the length of circumference is constant, the shape with the largest area is the circle. However, circles cannot cover the plane because there is a gap when connecting multiple pieces in a dome shape.

Among regular polygons, only regular triangles, squares, and hexagons can cover the plane when they are stuck together.

However, when you want to fill a certain space, the regular triangle needs much more than the regular hexagon. Squares are less robust than regular hexagons. Hence, the hexagon is the best choice to create the most robust and optimal space with the least amount of material.

In nature, there are creatures that instinctively use these principles to build houses.

The bee is one example. The honeycomb made by the bee is a regularly arranged array of several hexagons. This hexagonal honeycomb has a wall thickness of about 0.1 millimeters, and this thin walled honeycomb can hold about 30 times the weight of the honeycomb itself. The wall itself is thin, but the hexagonal compact structure is strong enough. Bees know instinctively that they must build a hexagonal structure to build the strongest house with the least amount of material.

[Fig.] Hexagonal Honeycomb

## 3. Compound Eyes of a Dragonfly Composed of 28,000 Hexagonal Ommatidia (Size of hexagon: About 50µm=0.05mm)

Compound eyes are visual organs found in many insects. Many of the compound eyes point in slightly different directions, which is why you can see large areas without turning your head. The insect's eye is made up of a convex lens-like hexagonal

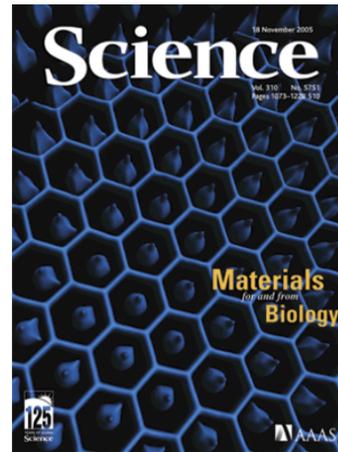

cornea and a cone that collects light. When the light from the cornea passes through the rod cells called rhabdom and touches the photosensitive layer made of retinal cells, an electronic signal is transmitted to the optic nerve. In other words, an ocellus made up of many lenses which each lens recognizes only one individual point, but by the numerous sensory cells of the retina an object is recognized as a single object, like a mosaic, by numerous sensory cells in the retina.

In general, the more eyes you have, the more precise you can see which also means that you can detect fast movement and light polarization.

When describing the structure of the compound eyes of a common insect, the dragonfly is a typical example. The reason is that the compound eyes are large enough to occupy the majority of the head, and because there are more numbers of eyes than other insects, they have excellent visibility that can see the front and side as well as the backward movement.

[Fig.] Dragonfly eyes

[Fig.] Science magazine cover

The eyes of dragonflies are also remarkably scientific, so they have been introducing the development of artificial dragonfly eyes to world-wide international journals.

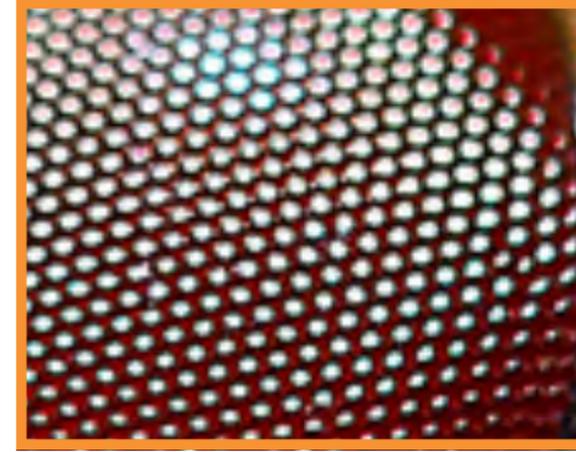

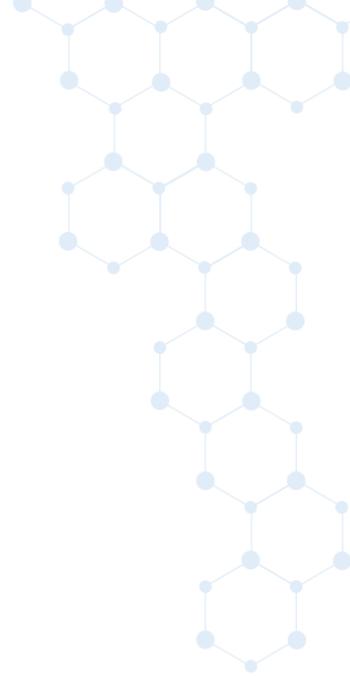

It is mentioned in this research paper, which appeared on the cover of <Science>, a worldwide international journal in November 2005.

They say the artificial dragonfly eyes can be used as an endoscope that can detect minute changes inside the human body, and a camera that can capture 360 degrees of fine movement in space.

Because God created all things in the world, and the power and divinity of God are in it, a hexagonal orderly figure is found even in a very microscopic world.

You can find many of these images in this natural environment. If you have come to terms with such things in real life, you will have an admiration of nature. So we can ask ourselves, did these scenes really come about through evolution?

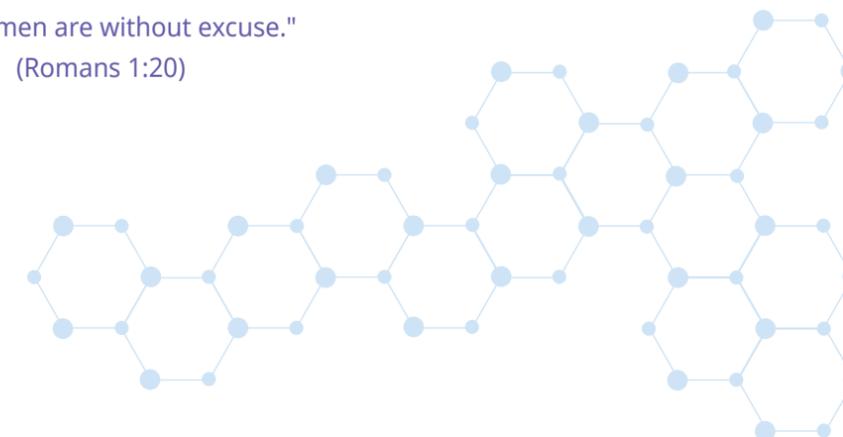

You can find the answer in the Bible.

[Fig.] Compound eyes of a dragonfly composed of 28,000 hexagonal ommatidia.

"For since the creation of the world God's invisible qualities-his eternal power and divine nature-have been clearly seen, being understood from what has been made, so that men are without excuse."

(Romans 1:20)

*Invitation to*

# 2018 WCDN Poland Conference

**Dear** Colleagues and Friends, Poland, one of the European countries located in Central Europe wouldn't differ much from our neighbouring countries if it was not for having been a homeland for the Jews for a thousand years. Actually, some sources tell us that our name Poland comes from the first Jewish settlers, who, when reached that land said in their language "Polin" which means "here we remain".

Unfortunately, after the war not many were still living in Poland. BUT, then the State of Israel was birthed into existence.

We purposely mention this short history lesson as we invite all our colleagues and medical personnel to join us to the conference where hope and faith changes processes known to medical science.

This special 15th conference which proceeds the next one in Jerusalem will

be held in Warsaw – the capital city of Poland. A city that was completely destroyed by acts of war. Beautifully rebuilt historical monuments, as well as skyscrapers, are living proof that faith and hope are above the power of destruction and death.

Our deep desire is to experience a special time at this conference where hope will rise and grow in the hearts of participants.

**World Christian Doctors Network** – the main organizer was founded by Rev. Dr. Jaerock Lee in 2003.

For the last 14 years, these conferences have been organized somewhere in the world, to present hopeless medical cases miraculously healed by the power of prayer.

In addition to presenting supernaturally healed medical cases that have taken place in our daily work, we will hear about the great role of spirituality in science and specially in medicine.

We invite doctors believing or not yet believing in God as well as all medical professionals including medical students. The flavour of the Far East will be experienced when talented, professional musicians and dancers will enrich presentations and speeches with their performances that are bursting with color! It will be a time which no one will want to forget!

# Visitation of Poland Organizing Committee to Korea

Before starting to prepare for the 2018 Poland Conference, Organizing Chairperson, Daria Wojnar and her husband and Dr. Andre Gasiorowski and his wife visited Seoul, South Korea to Manmin Central Church where WCDN HQ is located and had a meeting with Rev. Pastor Dr. Jaerock Lee and had a wonderful time.

# When You Go With A Loved One

“For this is the love of God, that we keep His commandments;  
and His commandments are not burdensome.”  
[ 1 John 5:3 ]

An ad agency in the UK asked  
what would be the fastest way  
to get to Edinburgh, Scotland from London.  
If the people replied, “Going with a loved one “  
they received a gift.

If you are with a loved one  
no matter how long the road is you can go with a joyful heart  
which is why the distance may seem short,  
and no matter how hard a request may be  
if it is from a loved one you will want to take the request  
and make sure it is done till the farthest extent.

When we love God in the same way  
living by the word is not hard and instead it is joyful.

Likewise, God wants to always be with these types of people  
and gives abundant blessings to them.

- Pediatrician
- Dean, College of Medicine, Zamboanga Medical School Foundation, Zamboanga City

**Philippines** Dr. Fortunato I. Cristobal

- Physical Therapist
- Pastor of Living Stone Ministries Israel

**Middle East** Pastor Daniel Rozen

- Aerospace Medicine Specialist
- President of Southern African Undersea & Hyperbaric Medical Association
- President of Divers Alert Network Southern Africa

**Southern Africa** Dr. Frans J. Cronje

## What do you have to do to give a valid tithe?

**1 Tithing must be taken 10% off of your total income.**

For example, if you get paid \$1,000 a month but you are left with \$800 after paying off your pension, tax, and insurance premiums, then your total income is not \$800 but instead it is still \$ 1,000. If you calculate your income at \$ 800 and give 10% tithing for it, this is not a full valid tithing. Income includes regular incomes and various types of incomes. Being bought a meal or receiving a gift, is also considered income. However, it is not easy to calculate the price of all things, so it is better to give plenty of tithing.

**2 Tithing must be given separately from other offerings.**

If you deduct the amount of tithing from your income and give it as a thank-you offering or a construction offering, it is not the right thing to do. Tithing must be offered as a tithing offering. Additionally, the tithing finances are spent in the church according to God's will. Also, the giver cannot ask to let the tithe offering be given as a donation to someone.

**3 Tithing must be given to the church that grows you spiritually.**

It is because spiritually you belong to the church where they give you life and faith through the spiritual word.

**4 Tithing must be given separately by each person's name.**

However, for example, if the husband only works and he only has income, you should pay tithing in the name of your husband. Also, if you both receive a gift or income in both of your names, one tithing can be given under both of your names or separately if wanted.

**5 Tithing must be given even if there is no fixed income.**

Even if you do not work, everyone has income. You are supplied by someone to eat, wear, and even are given transportation services or expenses for it. Even if you are a housewife who only

keeps your house, you may receive some type of income that supplies your own needs. In addition, young children may have pocket money that they can use freely in addition to the income for which they are intended, like tuition fees. In this case, you have to pay tithing. If your child is too young to offer tithing on his/her own, the parent must pay tithing in the name of the child.

**6 It is beneficial to pay tithing more than once a month.**

We receive a lot from God every day. Therefore, you must calculate your income at least once a month to give a full tithe. However, it is better to give tithe every time you earn something, or once or twice a month.

**7 Tithing must be the first thing taken away from the income.**

It is the right thing to distinguish your tithes from your income before using the money. If you do this then it will stop you from using all of the money before not being able to give any tithe offering.

God did not demand us to give proper tithes because He doesn't have money. God says in Malachi 3:10, "Bring the whole tithe into the storehouse, so that there may be food in My house, and test Me now in this...if I will not open for you the windows of heaven and pour out for you a blessing until it overflows." When we give full tithe, God promises that He will open the heavens and bless us, and pour us so much blessings that we will not have anywhere to store it. May this promise be fulfilled in your life and may you glorify God!
